

The School needed a better system of budget planning, budget monitoring and salary monitoring, which crucially also needed to integrate with the school accounting package (RM Finance). It was therefore brilliant to discover SBS Online, which now fulfils all the schools objectives and more. The ability to integrate the School Development Plan and to forecast up to 5 years ahead are added bonuses greatly appreciated by the Head Teacher and Governors. The Silver support package provides an “angel from heaven” and when the SBS representative arrives not only is all made clear, the wealth of experience provided is gold dust. In short, this School is delighted to be working with SBS, a superb investment and zenith of efficiency.
