WELCOME TO IRIS ED:GEN

The **next generation**
management information system

ABOUT IRIS EDUCATION

THE UK'S LEADING SUPPLIER OF
EDUCATION SOFTWARE

For over 12,000 schools and more than 75% of MATs, IRIS Education software provides the catalyst for real, positive change.

From ParentMail and IRIS PlusPay to IRIS Financials and our next generation MIS, our innovative portfolio of software-as-a-service solutions is what helps good schools to become great.

Driving efficiency. Engaging parents. Enhancing financial management. Ensuring compliance. And most importantly, helping school leaders to deliver outstanding outcomes for the people that matter most: their students.

IRIS EDUCATION: IN NUMBERS

Used by over **12,000** schools and academies

Supporting over **75%** of MATs

Helping **4 million** families to connect with their children's schools

Processing over **£15 million a month** in transactional payments

Delivering **300 million** messages between schools and parents, every year

TIME IS UP FOR THE TRADITIONAL MIS

Management information technology has stood still for far too long. School leaders, teachers, and staff have had to put up with slow, clunky legacy systems, which eat up valuable time, restrict what you can do, and obstruct change where it's needed most. We heard what you were dealing with. And we knew you deserved better.

THAT'S WHY WE DEVELOPED IRIS ED:GEN

IRIS Ed:gen is the next generation MIS. Designed for state schools, and ideal for MATs, primary and higher education settings.

The cloud-based platform gives you a centralised view of everything you need to know. Accessible anytime, anywhere. With real-time data at your fingertips, and a host of unique, game-changing features:

Intuitive registration: Add notes and see them on every register across the day.

Compatible timetabling: Pick whatever tool you prefer. No other MIS talks to a multitude of timetables like Ed:gen.

Simple audit trails: Make working together easier for school teams.

Easy communications: Enjoy enhanced, automated comms between teachers, departments and year group heads.

360° reporting: Save time by dictating reports, and pull in student feedback with the iStudent app.

STREAMLINED SCHOOL MANAGEMENT

Including exams, marking, staff and teacher cover, scheduling and student tracking.

EASY ADMINISTRATION

From data protection and document management to HR and registration, manage it all in a single view.

FULLY MANAGED ADMISSIONS

Take care of applications, admissions, and student departure processes through a single online portal.

CONSTANT COMMUNICATION

Keep everyone in the loop with coordinated comms, calendars, registers, portals, and parent and student apps.

FEATURES DESIGNED FOR STATE SCHOOLS

MORE TIME FOR TEACHERS

Securely access information anytime, anywhere, and do everything from writing reports to tracking attendance from a single, shared platform.

CLOUD-BASED ACCESS

Ed:gen's software-as-a-service platform, innovative technology and modern interface are accessible from anywhere, and easy to use by all.

CENTRALISED REPORTING

Show all school reports and assessment data in a single view, in whatever way suits your school or MAT.

MANAGING STUDENT WELLBEING

A dedicated module focused on recording, monitoring and managing student concerns and wellbeing.

MODULES FIT FOR NOW, FUTURE READY

BETTER PUPIL DATA MANAGEMENT	
CORE MODULES	
Schools Manager	This module provides a central collection of information about all the school's forms, houses, year groups, and more. Plus essential school information like term dates, classrooms, buildings, and resources.
Pupil Manager	Enjoy easy administration of all current and former pupils within your school, all via a single screen.
Registration Manager	This powerful and easy-to-use tool offers electronic registration both for individual classes, and the school as a whole. With 'late' and 'out of school' alerts for teachers, students and parents, and intuitive notes that can instantly be shared across multiple registers.
SEND Manager	As well as helping you to organise records on your school's gifted, talented and special educational needs students, this module has a clever flagging system that pulls up SEND details when you're doing other tasks, e.g. writing reports.
Teacher App	Complete daily classroom tasks faster and smarter with this exciting module for teachers. Within your own mobile or tablet, you can take registers, view timetables, access and update student data and more. Plus communicate with the whole school at the touch of a button via email, SMS, and free push notifications. A handy way to keep everyone connected.
Pupil Profiles	All schools want to keep track of pupils' achievements, but it can be a time-consuming task. Not with this module. Teachers can keep day-to-day accounts of their students' progress, with all required information on one simple-to-use screen.
Pupil Reports Manager	Create an unlimited number of school reports and student assessments quickly and easily, using this clever web-based module. With a built-in printing system, and the option to automatically publish reports to the Parent and Pupil Portals.
Wellbeing Manager	A dedicated module focused on recording, monitoring and managing student concerns and wellbeing.

MODULES FIT FOR NOW, FUTURE READY

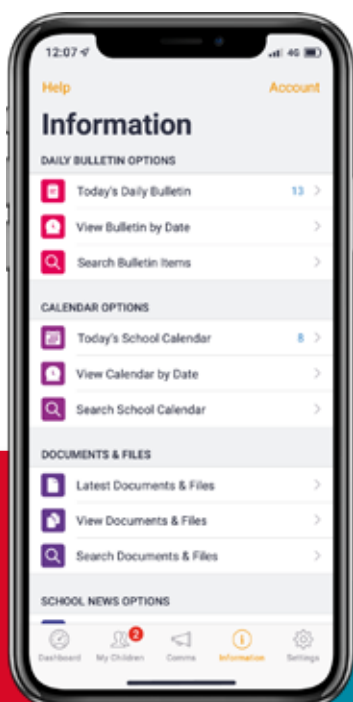

BETTER PUPIL DATA MANAGEMENT	
CORE MODULES	
Medical Manager	Enjoy easy administration of all your medical data with this comprehensive module. View information on everything from BMI to vaccination history, create reports, lists, and diary entries, and spot problems with the clever flagging system.
Behaviour Manager	Manage all disciplinary issues from detentions and demerits to incidents and suspensions through a single straightforward module. Complete with an advanced Detention Manager and helpful staff wizards.
Reward & Conduct Manager	This module can be customised to fit within any school's pastoral structure, helping you to manage your rewards system with ease. Any data is then automatically transferred to the Pupil Profiles module, for easy tracking of behavioural records.
Student Registers	Student Registers is a powerful, customisable electronic filing cabinet, where you can build custom records and datasets to organise unlimited students against specific registries, such as SEND.

BETTER STAFF DATA MANAGEMENT	
Cover Manager	Cover Manager uses clever automation to easily manage staff availability and absences. Using data from across the Ed:gen system, it suggests alternative teachers based on skills and subjects, automatically adds cover to the timetable, communicates with teachers via email, and tracks all arranged cover for statistical analysis.
Staff Manager	This module securely stores personal, professional, and contractual staff data in one accessible place. As well as storing CRB and List 99 checks, it also connects with modules like Timetable Manager and Attendance to offer a comprehensive staff record.
Teaching Manager	Intuitive and easy to use, this module offers complete academic and extra-curricular management for School Administrators, HODs and Senior Teachers. Helping you organise staff, sets, subjects and students with ease.

MODULES FIT FOR NOW, FUTURE READY

BETTER COMMUNICATIONS	
Optional Modules	
Calendar Manager	Create, manage, publish and print unlimited custom calendars via a single screen. Designed to cover calendars and sub calendars across the whole school, you can upload everything from term dates to music event diaries to the school's website, or share them with specific people via the Parent App.
Daily Bulletin Manager	The clearer, easier, and more efficient way to communicate throughout the school. Ideal for all sorts of messages – and with automatic shut off times too.
Ed:gen Messenger	Why flick between screens when you don't have to? Send emails to staff, parents, and pupils quickly and easily from within the Ed:gen platform, with up to date contact details, and all communication history logged against pupil and parent records.
News Manager	Want to shout about your school's activities, events, and student successes? It's easy with News Manager. With electronic workflows covering every stage from proof reading to publication, any member of staff can create an article. Helping to keep the website active, and enhance the experience for parents.

MODULES FIT FOR NOW, FUTURE READY

BETTER ASSESSMENT EXAM, AND TIMETABLE MANAGEMENT	
Assessment	Our mark book module allows teachers to capture, share, and track grades with ease. Results and feedback notes can be easily shared via the Parent App, and are automatically imported into the Pupil Reports App too.
Exams Manager	This module provides schools with a professional, computerised examination process from start to finish. With a clever workflow structure, it's designed to save hours of manual admin time during the busy exam seasons. Plus, it makes it easy to publish entries, exam timetables and results to the Parent App for paperless distribution.
Internal Exams Manager	This module gives you everything you need to manage and administer complete exam cycles simply and effectively. Making it easy to organise pupil entry, design seating plans, and track results by subject, set, or pupil.
Timetable Manager	No other MIS manages timetables like Ed:gen. This module will import timetables from Nova-T, Timetabler, GP Untis, ACS, Tiger, MS Excel and more, using a clever divisioning filter to run multiple timetables with completely different structures. So whether you're planning a fun-packed preschool day or a Year 13 lesson plan, you can create, manage, and distribute all kinds of timetables from the same central platform.
Tracking Manager	The smart way to monitor student performance for individuals and groups, this module helps you track progress year-by-year, subject-by-subject, form-by-form, or against baseline testing data such as Yellis, MidYIS and Allis. It's easy to convert scores and grades, display data graphically, and share your findings.

IT'S TIME TO TALK ABOUT YOUR MIS
