Preparing for the Setup

Each Summer Term a number of steps must be completed to successfully set up the next Academic Year on Arbor. To make this as simple and hassle-free as possible for you, we have created an easy-to-follow process to ensure you set up everything you need to, and in the right way.

We recommend doing this setup before you break up for the summer holidays. There's no need to wait until later in the summer, as the changes you make won't take effect until the new school year starts in September.

Before you start, gather the information you need using the **New School Year Setup Preparation Checklist**, available on the Help Centre [here](#).

Steps in bold are required for all schools. Other steps are optional depending on your Arbor package and requirements.

- **Enter all your school dates for the year**
- **Off-Roll any Leavers**
- **Promote your current Year Groups and Registration Forms**
- Copy over any Custom Groups you have set up that you may want to use again
- Copy over Houses and House Enrollments into the new academic year
- **Enter the times for your Courses & Classes to create your Timetable**
- Copy over meals, meal sittings and meal choices for students
- Copy over any Interventions you will continue to run
- Set up other things you'll need next year, like Assessments and Behaviour

Finally, review your New School Year Setup. You're now ready for next year!

How can I get started?

The area for setting up your new school year can be found by going to **School > School Structure > School Year Setup**. This area of Arbor is locked until the **1st May**.

School Year Setup

Steps to prepare for the new academic year are locked until the Academic Calendar is [filled in and marked as complete](#).

2021/2022	
1. Academic Calendar	Incomplete

Please Note: For now, only the basic details (start date, end date, name) of the 2021/2022 academic year can be set. The rest of the school year setup (like setting up the academic calendar, holidays, student groups etc.) will be accessible from **01 May 2021**, 4 months prior to the beginning of 2021/2022 academic year.

Once the 1st May has passed, the School Year Setup area will be open.

This Overview page lets you view your progress. You can jump in and out of the New School Year Setup so you don't need to do everything in one sitting! Your current step will be highlighted in red as 'Incomplete'.

Only when certain steps have been completed can the next steps be unlocked.

Review School Year Setup	

Step 1 - Create your Year

Go to **School > School Structure > School Year Setup**. Click on the first step to finalise your Academic Calendar for the next year.

Add the intake season

If you've already been using Arbor to [manage your applicants](#) for September's cohort, you can skip to the next step.

If you haven't been using Arbor to manage applicants, you'll need to add the next academic year and create an intake season. Do this by following [these instructions](#).

Create Academic Year

Start date ⓘ 01 Sep 2021

End date* ⓘ 

Set up the Academic Calendar

Once you have added a year, you will be able to see the rest of the New School Year Setup.

The next step is to set up your academic calendar (or check it has been set up correctly if it has already been created). Click the option for **1. Academic Calendar**.

Review School Year Setup		

You can then complete the setup of your Academic calendar. This includes three sections to work on:

1. creating the academic year
2. setting up terms
3. setting up holidays

Make sure the academic year dates also cover the summer holidays, which are considered part of the academic year.

01 Sep 2021 - 31 Aug 2022

In the Terms section, add all the dates you are scheduled to run courses and classes for. Click **+Add** to add a new term.

Top Tip: term dates should span the full term. Do not set up 6 half terms, because this will cause an error message when you try to add half-term holidays. Half Term holiday can be added within the Holidays section instead, shown below.

You can fill these gaps by adding in all your holidays (Half terms, Christmas and Easter break etc) in the **Holiday** section. **Ensure you include all of your holiday dates to ensure there are no attendance registers created on these dates.**

Add in all your half terms, vacation dates and public holidays. Holidays to be set up in the UK include Christmas, Easter, and summer breaks, mid-term holidays, any inset or training days, any public holidays or religious days.

Top Tip: You do not have to include weekends.

Click **+Add** to add a new holiday.

If you have a remaining gap at the start of the academic year (due to starting the calendar as advised on 1st September), you can fill this with a holiday type of Vacation, as it is the final part of the summer vacation.

Don't worry if you haven't yet added in your inset days - you can return to this step at a later date once you know when these will be.

For now, click **Mark Academic Calendar as Complete**.

Mark Calendar as Complete

Check you've set up your calendar correctly

Go to **School > School Structure > School Year Setup > 1. Academic Calendar**. In the example below, you can see that the Autumn term is set to end on the 17th December, but because the Christmas break holiday is set to start on the 17th December, this overrides the term dates. There will be no registers on the 17th of December.

Terms (2021/2022)		+ Add
Autumn	06 Sep 2021 - 17 Dec 2021	▶
Spring	04 Jan 2022 - 01 Apr 2022	▶
Summer	19 Apr 2022 - 27 Jul 2022	▶

Holidays (2021/2022)		+ Add
Summer	01 Sep 2021 - 03 Sep 2021	Vacation ▶
Autumn half term	25 Oct 2021 - 29 Oct 2021	Half-Term ▶
Christmas	17 Dec 2021 - 03 Jan 2022	Vacation ▶

To fix this, make sure that your vacations do not overlap with your term dates.

To do this, click on the date you would like to amend. In the example, I need to change the start date for Christmas Break to reflect the first date there should be no registers for. The holiday should be scheduled to start on the 20th (Arbor automatically discounts weekends).

Step 2 - Off-Roll Leavers

When you return to the New School Year Overview, you can see that the **Academic Calendar** section has been marked as **Complete** and other sections have now become available. The next step is to choose when your cohort of leaving students will be unenrolled.

1. Academic Calendar		Complete
2. Off-Roll Leavers		Available
3. Year Groups & Register	2. Off-Roll Leavers	Available
4. Custom Groups		Available

Off-Roll Leavers setup is available and needs to be marked as complete

The ability to Off-Roll Leavers helps save you time as you don't need to end students who are moving on individually via their Student Profile.

On this page, you'll also see in the Review section any students who have already left or have been given an end date within the current summer term, for example, if a year 3 student emigrated halfway through the year.

Once you've completed steps 2-5 in the article linked above, you'll be able to enrol your Applicants to be in the correct year groups and registration forms.

In **All Students > Applicants > Select intake season > Applicants**, make sure all the students you want to enrol have the Status of **Offer Accepted**.

Then tick the students who have accepted their offers. Click the blue pencil icon to first select which year group they will be in, then select which registration form they will be in, then finally click **Enrol students**.

If any remaining applicants have accepted a place but you haven't yet enrolled them, click the **4. Enrol Applicants** option to enrol these applicants. Any applicants without a tick beside their name will not be enrolled.

However, please note that this will not automatically enrol them into a Year Group and Registration form. If you haven't done this for these students, you should first follow the instructions shown above.

When should we enrol applicants?

You'll be able to make changes to your applicants after you've added them, plus it's easy to remove enrolments for students who don't take up their place. Follow the instructions in [this article](#) to stop them from appearing in registers, communications and reports.

Don't worry, they won't be currently enrolled students until the start of the new academic year!

A slide-over will appear listing all registration forms alongside Arbor's suggestions for the year group they will be promoted to. Each current class will have a drop-down menu for you to select which class they will become the following academic year.

- If you have a different number of classes for a year group next year, map them to the class most students will be in. You can move students in the next step.
- If you have registration forms with multiple year groups, you can select the registration form next year to map it to.

Nursery registration sessions

If you have a nursery, you will need to schedule registration sessions differently. Because your students may not be attending full time, you will need to schedule registration forms and enrol your nursery students into them differently, depending on whether they attend during the same times every day or not.

You must follow the instructions in our [Scheduling your Nursery registers guide](#) (you can find this [here](#)) before following the instructions below to schedule your other year group's registers.

Scheduling your registration sessions

For primary schools, we recommend selecting option **A. Schedule Sessions from Registration Forms**.

Please ensure you choose only one setup option for each class. Completing more than one option risks you duplicating courses or lessons.

Important note about scheduling reception

If you have a Reception you will also need to choose if you will be using regular attendance patterns for your Reception students or not. Using attendance patterns means that your students attend between the same times every day, for example, if your students attend Mon-Fri mornings only.

Some Registration form(s) selected are Reception classes. Please choose below if would like to set up separate course modules per day for these classes.

Create separate modules per day for reception classes?

Registration Forms to be scheduled

Form REAZ (2021/2022)

We recommend selecting 'no', as it is easier to make adjustments if necessary. If you select 'no':

- They will be set up like other year groups.
- All the lessons for the whole week will be scheduled directly against the top-level course for the reception class, without creating all the AM/PM bottom-level courses.
- Students will be automatically enrolled in sessions based on their enrollments into Registration Form groups.

The setup will look something like this:

Classes & Lessons + Add
Monday: 08:00 - 12:00 Staff: Maureen Jacobs Scheduled ▶
Monday: 12:45 - 15:30 Staff: Maureen Jacobs Scheduled ▶
Tuesday: 08:00 - 12:00 Staff: Maureen Jacobs Scheduled ▶
Tuesday: 12:45 - 15:30 Staff: Maureen Jacobs Scheduled ▶

If you select 'yes'

- They will be set up in the same way as Nursery registration sessions.
- Separate modules for each AM and PM session, for every day of the week, will be created and the lessons will be scheduled against those modules automatically.
- Each session will become a bottom-level course with one class time within it.
- You will need to make sure that you have set [attendance patterns](#) for your reception students for them to be automatically enrolled in these classes, and for them to appear on the register.

Tidying up your registration structure for one-form years

When completing option A (Schedule Sessions from Registration Forms), this automatically created the registration form within a parent course for the year group. This means all of your class names can be quite long and repetitive if you only have one registration form within each year group.

To make your registration class the top-level module to simplify your setup, follow the instructions in [this article](#).

Adding additional classes

If you have more classes than just the registration groups, you can set up additional classes. Make sure you have these pieces of information ready:

- What you will call the class and the subject name
- What room the class will be in
- Which teachers will be assigned to the class
- When the classes take place

Choose option **D. Setup Courses & Classes** from scratch. A slide-over will appear where you need to enter information about the course/class you are setting up.

You can only select one year group per course you create. Leave the **Year group** field blank to be able to create sub-modules assigned to different year groups.

When all the details are correct, click on the green **Add Course** button.

Enrolling your students

The next step is to enrol your students into this class, so they will appear on the registers. There are multiple ways to do this:

- If you know a certain cohort of students will take all the same courses, you can automatically enrol them using Teaching Groups. [Click here](#) to see how.
- To add automatic enrolments from a particular course, so anyone enrolled in the original course will automatically be enrolled into the other course, [click here](#).
- If you'd like to bulk enrol students using an imported spreadsheet, [click here](#).

You can also enrol your students in bulk manually. To do this, go to **School > Programmes > Next Year Courses > Table View**. Click on the course, then click the **Enrol Students** button.

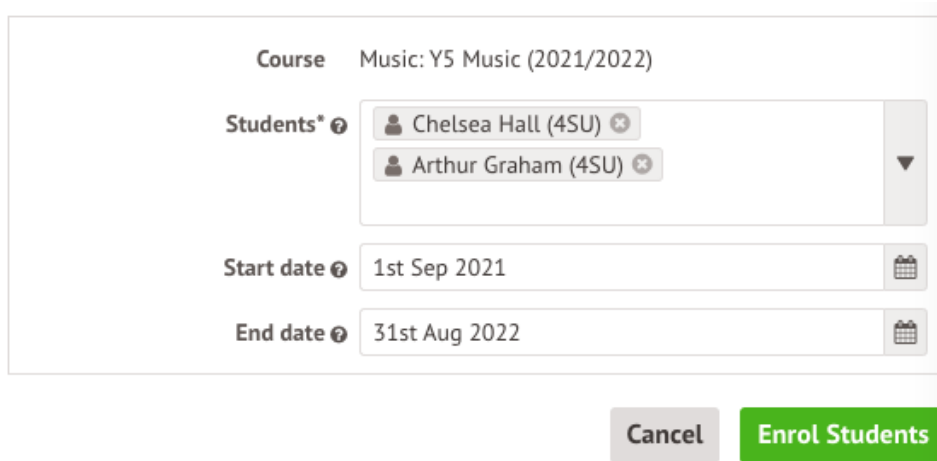

The screenshot shows the 'Courses & Classes Table View: 2021/2022' interface. On the left, a table lists 44 results with columns for 'Course' and 'Year Group'. The 'Music: Y5 Music' course is highlighted. On the right, a details panel for 'Music: Y5 Music (2021/2022)' is displayed, showing the following information:

Details	
Component of	Music
Abbreviation	Not set
Subject	Music
Year Group	Year 5 (2021/2022)
Academic Lead	Adrian Parker

Below the details panel, it shows '0 Students' and 'None' under the 'Students' section. The 'Schedule' section indicates 'Tuesday 09:00 - 10:00', 'Effective Dates: 01 Sep 2021 - 31 Aug 2022', and 'Staff: Adrian Parker'. At the bottom right, there are buttons for 'Enrol Students »' and 'More Information »'.

You can then select the students to enrol. **Please note it will show their current enrolment next to their name, rather than the registration form they will be in next year.** So for a year 5 class, you will need to add current year 4 students.

Top Tip: Select all students in a certain year by typing in the number, then clicking Cmd + A to select all the students.

The screenshot shows a form for enrolling students. The 'Course' field is set to 'Music: Y5 Music (2021/2022)'. The 'Students*' field contains two entries: 'Chelsea Hall (4SU)' and 'Arthur Graham (4SU)'. The 'Start date' is '1st Sep 2021' and the 'End date' is '31st Aug 2022'. At the bottom, there are two buttons: 'Cancel' and 'Enrol Students'.

Make sure you have registers for your first day back

If you don't have registers set up, your teachers won't be able to take attendance on your first day back! To check they've been set up, first take a look at when your registers should start. Go to **School > School Structure > Academic Years**, then select the upcoming academic year.

Copy Meal Sittings and Attendees

Click on step 2. Tick the meal sittings and attendees you would like to copy and untick the ones that should not be copied. **If you do not copy the sitting timetable or at least one sitting attendee group, the sitting itself will not be copied.**

We recommend copying over your attendees to make sure teachers can access the Meal Register for their classes.

Copy Meal Choices

Step 4 is optional and will depend on whether you want meal registers to be pre-filled with student's regular meal choices. If you do, click **Copy Meal Choices**.

Copy Student Meal Choices

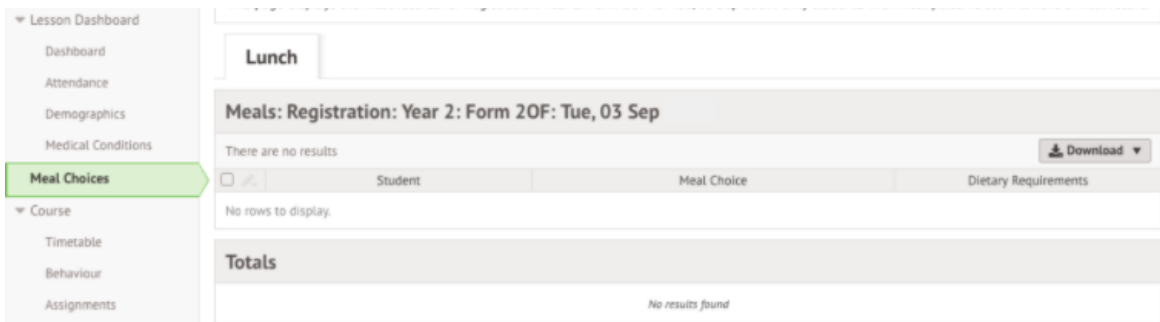

This page lets you copy the regular meal choices for all students from 2020/2021 to 2021/2022.

Even if you have already copied meal choices once, duplicates (i.e. meal choices with the exact same settings) will not be created.

Meal choices will only be copied for students enrolled in 2021/2022.

Check you'll have meal registers in September

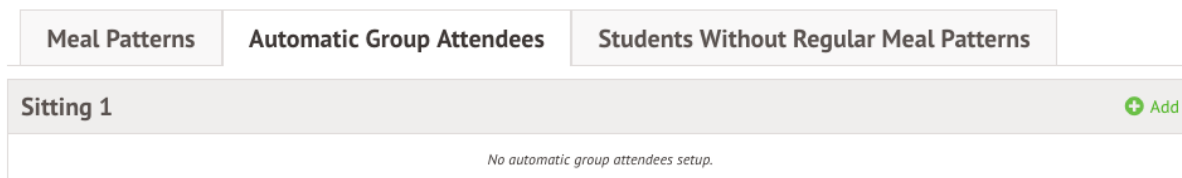

You'll need to make sure you've set up meals correctly to ensure you'll be able to select student's meal choices in the Meal Registers. If you have not yet set your attendees for meals, or you haven't set meal patterns, your meal registers will look like the screenshot below.

To fix this, go to **School > Meals > Setup**. Select the next academic year from the drop-down menu.

Lunch	
Meal name: Lunch	✓

Other things to prepare

Assessments

If you use assessments in Arbor, you'll need to copy your assessments across to next year. They will not automatically copy over. To see how to do this, follow the instructions in [this article](#).

Baselines

For Summative and Progress 8 assessments, Arbor automatically sets baselines for the next academic year based on the final mark input in the same assessment in the current year. To make sure you have the right baselines next year, follow the instructions in the article linked above.

Targets for flat model assessments

Some of our schools use a flat progress model for their assessments. This means that students are expected to be working at the same level throughout the assessment. For example, you may want a student to be working at the 'At expected standard' grade throughout their whole Key Stage.

If you use a flat model for assessments, make sure targets populate through your assessments each year by ensuring this target has been set as the Final Target, not just the Year Target. You can then copy this target across to the Year Target on the Baselines and Targets page. Follow the instructions in the article linked above.

Behaviour

When the new school year begins, you'll need to set up certain areas of behaviour.

Don't worry, you won't need to set everything up. To prepare for September, you'll just need to set up detentions and add your Internal exclusion types. You can see how to do this in this article: Setting up [Behaviour in Arbor](#)
