

Lime Academy Trust Testimonial

"My Trust have been using SBS Budgets for just over 2 years, after switching from a competitor, mainly due to the IRIS Financials (formerly PS Financials) integration. We could never get the old system to integrate properly despite promises and buying the extra licence, and it would take us a couple of days to profile and import manually. This now takes us a 20 minutes maximum with minimal fuss. I've found the software reliable, easy to use and set up of new schools has been incredibly simple as we have grown.

Anytime I need support the helpdesk team are efficient and friendly and 99% of the time can answer the query on the initial call. I would have no issue with recommending them to anyone else looking for a budgeting solution."

Ricky Barton

Head of Finance/CFO
