

Seaton Valley Federation Testimonial

"From our very first conversation I have found everyone at School Business Services to be extremely professional and helpful. Where many other companies thought they couldn't help us, the team at SBS worked hard on a bespoke solution for our federation which does exactly what I wanted it to and links seamlessly with IRIS Financials (formerly PS Financials). Days spent on payroll reconciliation each month have been reduced to just two or three hours.

Budget construction and amendments are so straightforward and for the first time ever we can see the impact of proposed changes during initial discussions at SLT. Working in the cloud means I can make changes from any of our schools at any time. And no matter who answers the phone when you ring up, I know I will get the same quality support and that my query will be quickly resolved. I would recommend SBS Budgets to all SBMs everywhere."

Ben Watson
Business Manager
