

St. Olave's Grammar School Testimonial

“Needing to be mindful of ongoing costs, we commissioned an ICFP project with SBS, and I am very glad we did!

Their bespoke tools, in-depth understanding of curriculum planning and professional approach provided us with detailed key performance indicators, all benchmarked against a range of other schools.

This has provided an excellent format for financial discussion within the leadership team and governing body, and allowed us to focus in on some significant, but not immediately obvious, costs.

We anticipate we are able to save significantly thanks to SBS' ICFP document. They have allowed us to target our inefficiencies, leading to financial savings that have no negative impact on our pupils or staff.”

Liz James

School Business Manager
