I have found the SBS Budgets payroll reconciliation to be worth its weight in gold. It removes the arduous process of having to go through every line of my payroll spreadsheet to find unexpected variances which I can't tolerate. It's a fantastic failsafe to have at your disposal to ensure everybody's salary is on track against what was budgeted for.

I have found the free Service Desk support to be extremely useful. Only the other day a member of the SBS Budgets team helped me prepare for some new budget modelling and what-if scenarios.

I've always had a positive experience with SBS Budgets' customer service. I doubt I would ever have received the same level from any of the other school budget software providers currently working in the market.
