

## Henry Fawcett Primary School Testimonial

---

As a school we have worked with SBS for quite some time and it is easy to see the impact of their support across the school. SBS have always listened to what the school has had to say and adapted their practices to suit our needs.

The staff are more confident in the consistency of the technology. Without a constant fear of technology failing, staff are encouraged to plan outstanding lessons where the use of technology is a key feature. The benefit to the children is immeasurable with their skills and confidence also growing at an exponential rate.

The developmental support offered by SBS through one-to-one visits builds on this, informing and guiding the school on the ever evolving-state of educational technology.
