

ICT curriculum training

How tech-savvy is your school?

SBS is proud to announce a new service to deliver ICT curriculum training for schools.

To empower teaching and learning we can help you to maximise new technology and develop core skills.

Training areas include:

Technology

- Training for tablets
- Using edu apps in teaching and learning
- Anytime, anywhere access cloud services

Core skills

- Resource creation
- How to plan engaging lessons
- Staff CPD

Tailored to your ability

The development of both staff and students will be rated by:

Walkers – requiring more support and guidance in the adoption of technology

Runners – comfortable with the technology and delivering the requirements

Sprinters – technology champions who push the boundaries of what is possible within lessons

Benefits of ICT curriculum training:

- + Develop staff ability and confidence in using technology in the classroom
- + Enhance teaching and learning through a long term training plan
- + Can be used to work with SLT, staff and students
- + Training is tailored to suit your ability

Development plans

ICT curriculum training can be delivered as one-off sessions, or we can outline a comprehensive development plan which is tailored to your requirements.

“The sessions are bespoke to address our needs and we felt with this personalised touch we have gained a greater understanding of using iPads in our school.”

Ann Haycock | Y1/Y2 Teacher & ICT Co-ordinator | All Saints' Church of England Controlled Primary School
