

ICT apprentice support service

Does your school have an in-house ICT technician?

We can offer a training program & accompanying service desk to help mentor technicians during their day-to-day work

This service is inspired by our own customers who have chosen to employ ambitious apprentices who are passionate about developing their knowledge and experience to best support the school.

We will provide:

Training for your ICT technician

Mentoring visits to track progress

Remote monitoring of major ICT systems

Full time Service Desk support for all staff

Benefits for your school

Full time presence onsite

Experienced professional support & guidance

Lower cost, flexibility & efficiency
