Introduction

Managing Performance Measures for England in 2017

This document has been put together to help customers understand the process involved for schools in England, give an overview of the process and understand the amount of time this may take.

What has changed for England schools for 2017?

This summer Capita SIMS will not be creating a Performance Measure file (PM file) for English schools. In light of recent changes with the source data we have reviewed the process around the creation and sharing of PM files and have introduced new functionality within SIMS. This will provide schools with the tools they need to manage their own Performance Indicators within the software to ensure the PI Reports and associated analysis in other areas are accurate.

Will this mean my PI Reports will have the correct values displayed?

Yes, in allowing schools to now own and take responsibility for the Performance Indicators in their data, they are in control of the data that is used in the PI Reports. Managing the indicators also brings the following advantages:

- In previous years Capita SIMS have issued numerous PM Files, usually due to late changes to qualifications, for example in 2016 there were 20 qualifications that were added to the Ebacc lists with only weeks to go until the results were available, each time an alteration was needed, a new file was produced and even if these qualifications were not in place in a school, there was a compulsion to import the new PM File anyway. Now schools are in control of the qualifications, they can update just the qualifications that are applicable to them.
- If a QN is not counting correctly for Ebacc, the user can simply open the QN in Manage Performance Indicators and tick the bucket in which the QN can count. They can then re-collate the results and run the reports and perform their analysis.
- With our new functionality, any issues a school has with their Performance Indicators can easily be resolved.

Overview of the process

The process for managing your Performance Indicator files can be summarised in the following 7 steps, more detail can be found in chapter 3 of the [Processing Results and Calculating PI Data in Exams and SIMS¹](#) handbook on the indicated page.

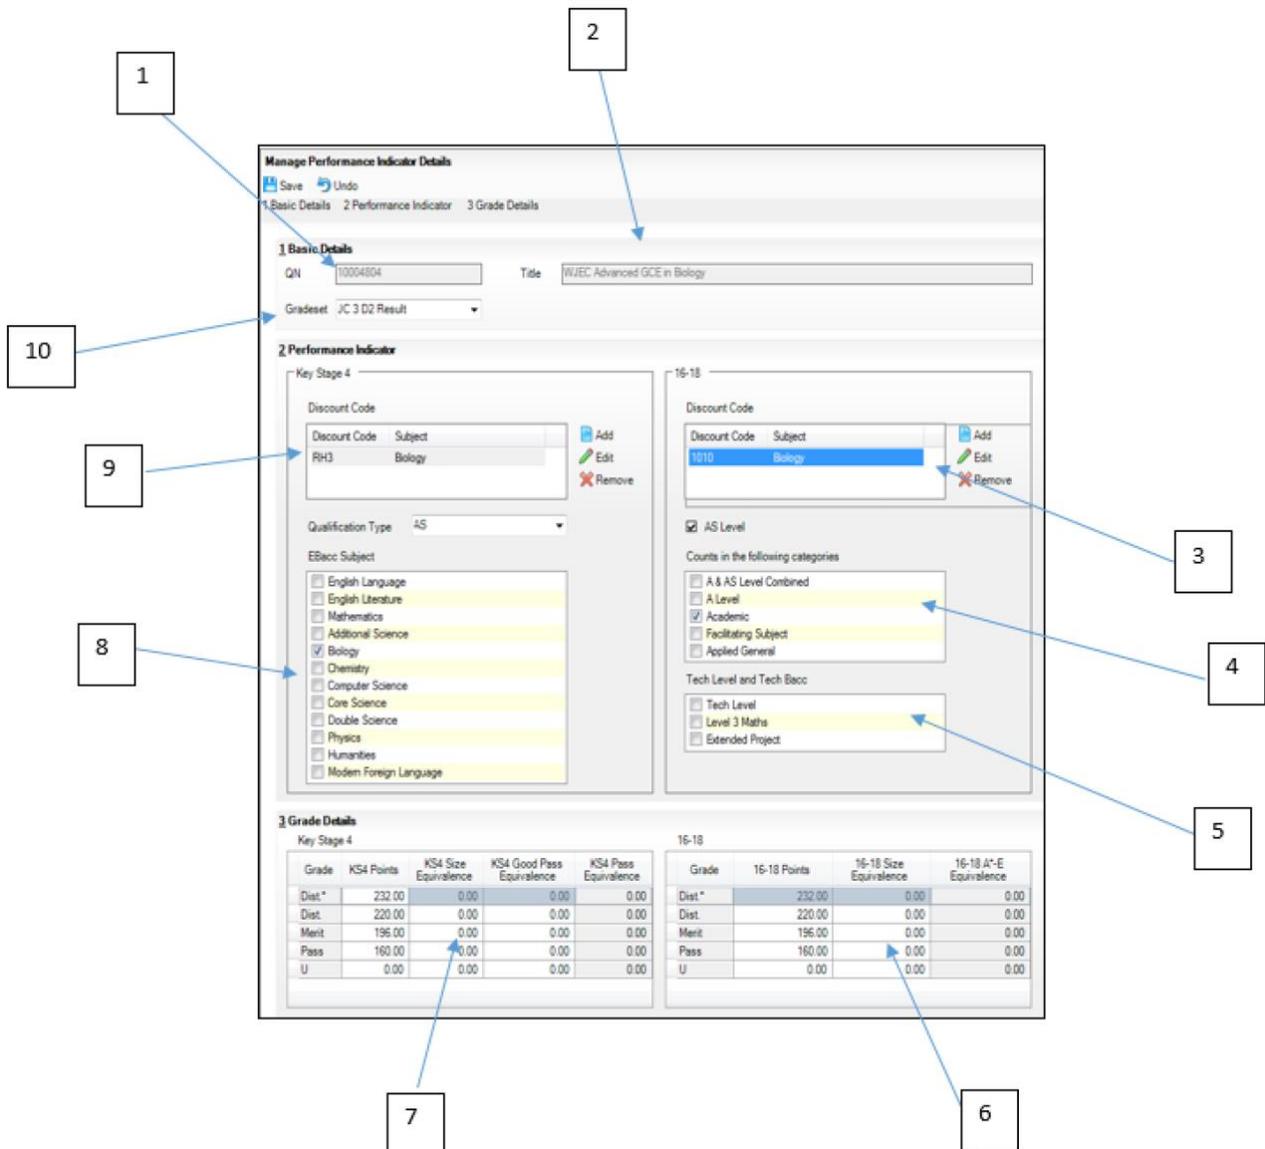

Step	Action	Location or Menu Route	Page No.	Complete
Step 1	Define the new Summer season in Examinations Organiser.	In Examinations Organiser, via Tools School Setup Seasons	-	<input type="checkbox"/>
Step 2	Download and import the most up-to-date QWS files² .	In SIMS, via Tools Examinations Import Qualification Data	10	<input type="checkbox"/>
Step 3	On the PI Setup page, set the new Summer season as the default PI Summer season and ensure it is unlocked.	In SIMS, via Tools Examinations PI Setup	13	<input type="checkbox"/>
Step 4	Clone the QNs used in the previous year so that they are copied into the new Summer season.	In SIMS, via Tools Examinations PI Setup	15	<input type="checkbox"/>
Step 5	Search for and delete any QNs that will not be in use this year.	In SIMS, via Tools Examinations Manage Performance Indicator	18	<input type="checkbox"/>
Step 6	Manually add any additional QNs that will be required for the new season.	In SIMS, via Tools Examinations Manage Performance Indicator	31	<input type="checkbox"/>
Step 7	Work through the Performance Indicator Details for each QN type and check that the details and point values are recorded accurately for both Key Stage 4 and 16-18 for the forthcoming exams season.	In SIMS, via Tools Examinations Manage Performance Indicator	23	<input type="checkbox"/>

How much time will this take me?

To help customers understand how much time this activity will take, the process was carried out on a number of real databases with Exams Officers and Data Managers, the following is a summary of this activity:

Activity	Notes	Time Taken
Updating the QWS Files	Importing the latest QWS Files (Page 10 ³)	15 minutes
Setting PI Seasons	Setting the Summer 2017 Season in SIMS .net as the current PI Season and cloning 2016 PI data to 2017 (Page 13). The clone process copies from 2016 to 2017 only those QNs which in 2016 had a result, as this is likely to be the same QNs used for 2017, albeit with some additions (new 9-1 GCSEs) and some removals (legacy English and Maths GCSEs). This was preferable to do as the 2017 list for your school will be reduced from approximately 22,000 QNs to just those used in your school.	5 minutes
Removing QNs not required for 2017	(Page 23) – Using the searching tips on this page, delete QNs (this does not delete data, simply removes them from the 2017 PI tables, but can be re-added in needed). It is likely that most Exam Officers will know what qualifications from the cloned list are not going to be used in 2017, the legacy English and Maths GCSEs, any exam board and qualifications no longer in use, e.g. if a school switches from AQA French to OCR French for 2017.	Removed 10 qualifications in 5 minutes
Updating legacy GCSEs	(Page 24) – It is easier to work on one type of qualification at a time. As these QNs will have come from the 2016 PM File, properties of the QN such as discount codes and Ebacc buckets will be correct, but for 2017, the PI values for each grade will need updating.	Updated 40 GCSEs in 20 minutes
Updating AS Levels	(Page 24 and 30) – This step is a little more involved as you have to update both the KS4 PI values and the 16-18 values. Typically in 2016, schools have around 35 AS Levels, but this year it may be that many schools are taking fewer.	Updated 20 AS Levels in 15 minutes
Updating A Levels	This was about the same amount of effort as updating the GCSEs as you only have to update data in the 16-18 column. An average school has around 30 A Levels.	Updated 30 A Levels in 15 minutes
Other qualifications	There will, no doubt, be other qualification that you need to update, BTECs for example, these will be similar in effort to an A level, numbers in each school vary, but referring to Page 21 and 22 of the guidance, links are provide to enable you to locate all the information you need to set your PI values.	
Adding new qualifications	Schools will need to add in qualifications that are new for 2017 (page 31). Starting with those which are brand new for 2017, i.e. reformed English and Maths GCSEs. There is a little more information to add, such as the Gradeset, but the information is in the guidance.	Added 10 new qualifications in 20 minutes

³ <http://simspublications.com/298961/assets/examsprocess.pdf>

Important Notes

- Changes made to grade details and equivalences are not validated so extreme care must be taken to ensure that changes accurately reflect DfE guidelines.
- It is not possible to edit the Performance Points for QNs in the PI Summer 2016 season.

Where can I find additional resources

The Capita SIMS MyAccount website has lots of additional information, in particular please keep an eye on the [SIMS Exams Hot Topic](https://myaccount.capita-cs.co.uk/hot-topics/Exams-Hot-Topic/) (https://myaccount.capita-cs.co.uk/hot-topics/Exams-Hot-Topic/)
