## Overview

This handbook provides the information needed by Nursery schools in England to complete the School Census Spring 2018 Return, which takes place on Thursday 18 January 2018.

The School Census Spring 2018 Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, Pupil Referral Units (PRUs), City Technology Colleges (CTCs) and Academies (including free schools) in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Spring, Summer and Autumn), which collect detailed information about school characteristics and pupil details, e.g. pupil address, free school meals, exclusions, etc. Different data is collected depending on which return is being prepared and your school phase.

A list of items collected from Nursery schools in England for the School Census Spring 2018 Return is available in a later section of this handbook (please see *Preparing Data for the School Census Return* on page 6).

*NOTE: The contents of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.*

### **More Information:**

## How has the School Census Spring Return Changed?

Changes to the School Census Spring Return include the following:

- Census date 18/01/2018
- Free School Meal Eligibility collected from 06/10/2017 to 18/01/2018.

### Two Year Old Basis for Funding

#### Routines | Statutory Return | School Census

Applicable to schools with early years children only

The following changes have been made to enable schools to record the basis for funding for two year old pupils:

- 2 Year Old Basis for Funding grid  
A new grid (entitled **2 Year Old Basis for Funding**) is available in the **Early Years** panel to enable schools to enter the basis for funding for each pupil with a date of birth from 01/01/2015 to 31/12/2015.
- 2 Year Old Basis for Funding report  
This new report enables schools to check the two year old basis for funding information being collected in the return. The report is available from the **Detail Report** drop-down list.

#### More Information:

*Editing Two Year Old Basis for Funding on page 24*  
*2 Year Old Basis for Funding Report on page 41*

### Early Years Pupil Premium Eligibility Report

#### Routines | Statutory Return | School Census

Applicable to schools with early years children only

The new EYPPE detail report enables schools to check the early years pupil premium eligibility information being collected in the return. The report is available from the **Detail Report** drop-down list.

### Earliest Date of Admission

#### Routines | Statutory Return | School Census Focus | School | School Details

The **Date Number Changed** screen label (associated with the previous establishment number) has been changed to **Earliest DOA** (date of admission) in the following panels:

- **School Information** panel (School Census)
- **Establishment** panel (School Details).

This date represents the date of admission of pupils into a sponsor-led Academy that has a new DfE Establishment Number.

## Steps to Producing the School Census Return

The process of producing the School Census can be separated into a number of steps, some of which might need to be repeated in order to eliminate validation errors and queries.

## Where to Find More Information

Online help can be accessed by pressing **F1** or clicking the applicable **Help** button in SIMS.

A wide range of documentation is available from the SIMS **Documentation Centre**, including handbooks, quick reference sheets and tutorials. Click the **Documentation** button (located on the top right-hand side of the SIMS **Home Page**), select the required category and then select the document you require. Alternatively, use the **Search** facility to locate the required document.

## Setting Permissions

The following permissions are applicable to users who deal with returns.

### Producing the Return

To produce the return, you must be a member of the Returns Manager user group in System Manager.

### Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. pupil details, school details, etc. These users must be a member of any of the following user groups in System Manager:

- Administration Assistant
- Admissions Officer
- School Administrator.

### Importing Revised Files

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS), to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of any of the following user groups in System Manager:

- Returns Manager
- System Manager.

### Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the *Managing SIMS Users, Groups and Databases* handbook.

## What Version of SIMS is Required?

To run the return, you must have the SIMS 2017 Autumn Release (7.178) or later installed.

To check which version of SIMS is installed, open SIMS and then select **Help | About SIMS**. A dialog similar to the one shown in the following graphic is displayed.

## 02| Preparing for the School Census Spring Return

The version should read 7.178 or later.

## Preparing Data for the School Census Return

Before beginning the process of producing the return, it is advisable to spend time ensuring that all school level and pupil level information is present and accurate in SIMS. For example, ensure that school details are correct, all new pupils have been added to SIMS, all leavers have been recorded and where applicable all exclusions have been recorded, etc.

The following information is collected from Nursery schools for the School Census Spring 2018 Return.

### School Level Data

- School Characteristics: LA number, DfE establishment number, school name, school phase, school type, highest and lowest national curriculum year, intake type, governance, school email address and telephone number.
- Miscellaneous:
  - free school meals taken
  - childcare provision on site, signposted off site childcare provision, type of childcare (e.g. before school, after school, etc.), opening time and closing time, number of childcare places, childcare provider, other schools and number of weeks that the childcare provision is open.

### Pupil Level Data

- Pupil Identifiers: unique pupil number (UPN) and former UPN, surname, forename, middle names, former surname, preferred surname, gender and date of birth.
- Pupil Characteristics:
  - nationality, country of birth, proficiency in English, ethnicity, first language
  - free school meal eligibility start date and end date, UK country in which the eligibility applies, school dinner taken
  - post looked after arrangements
  - service children in education indicator
  - top-up funding indicator, funded hours, extended childcare hours, 30 hour code, disability access fund indicator and hours at setting

- early years pupil premium eligibility (EYPPE) and early years pupil premium basis of funding (EYPPBF)
- two year old basis for funding.
- Pupil Status: enrolment status, date of entry, part-time indicator, boarder indicator and actual national curriculum year group.
- Special Educational Needs: SEN Provision, SEN type ranking, SEN type for each SEN need, member of SEN unit (sometimes called special class) indicator and member of resourced provision indicator.
- Pupil Home Address Information: pupil's home address details, including post code and unique property reference number (UPRN).

For more information and step by step instructions on the preparations that need to be carried out before the census return is produced, please refer to the *Preparing for the School Census Spring 2018* guide applicable to the phase of your school. The preparation guide, together with other useful School Census documentation, can be found on the School Business Services Blog (<https://www.schoolbusinessservices.co.uk/blog/>).

## Creating a New School Census Return

Before creating a new School Census return, ensure that all pupil and school information is present and accurate in SIMS.

The **Census Folder** and **Security message for Reports** must be specified before clicking the **New** button to create a new return.

The School Census Spring 2018 Return collects data for all pupils who are on the register on census day (18/01/2018).

It is possible to create more than one return. This enables you to carry out dry runs to determine what data needs to be added or updated. Any unwanted returns can be deleted, providing they have not been authorised (please see *Deleting an Unauthorised Return* on page 50).

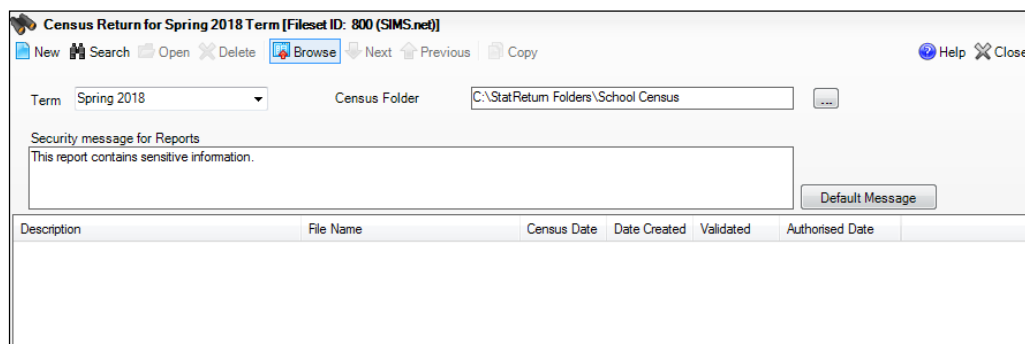

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

**NOTE:** The first time that the **Routines | Statutory Returns | School Census** menu route is selected during each SIMS session, there is a delay while the School Census files are loaded.

When the files are loaded, the **Census Return for Spring 2018 Term** browser is displayed.

The Fileset ID is displayed in the browser header for information only.

By default, the **Term** field displays the appropriate term for the selected return, in this instance **Spring 2018**.

2. Ensure that the **Census Folder** is configured correctly and that the required **Security message for Reports** is specified, as described in the following sections.

## Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

**IMPORTANT NOTE:** Due to the sensitive nature of some of the data stored in SIMS, careful consideration should be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the DfE website <https://www.gov.uk/service-manual/technology/securing-your-information> for securing information guidance. If you are in any doubt, consult with your IT Security Officer before proceeding.

1. Specify the folder where the return files are to be stored by entering the folder location in the **Census Folder** field.

Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button and enter a suitable name for the new folder.

2. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.

**IMPORTANT NOTE:** *If you are changing the location of the folder, ensure that only authorised personnel have access to the new folder, as it will contain sensitive data. For more information, please see the important note at the beginning of this section.*

3. Ensure that the **Security Message for Reports** is appropriate for your school.

## Specifying the Security Message for Reports

At the bottom of the browser is a **Security Message for Reports** field, which contains text that will be displayed at the top of each report.

1. The security message text defaults to **This report contains sensitive information**, but can be edited, if required.
2. If any edits are made, you can click the **Default Message** button to revert to the default text.
3. Click the **New** button to display the **Census Return Details** page.

## Editing Census Details

The **Census Details** panel displays the following read-only dates:

- The census date is displayed as 18/01/2018.
- FSM (Free School Meal) data collected from 06/10/2017 to 18/01/2018.

| 1 Census Details   |                           | Calculate All Details |            |
|--------------------|---------------------------|-----------------------|------------|
| Census Date        | 18/01/2018                |                       |            |
| Description        | School Census Spring 2018 |                       |            |
| FSM collected from | 06/10/2017                | FSM collected to      | 18/01/2018 |

By default, the return **Description** is displayed as **School Census Spring 2018**.

1. Check the return **Description** and then edit, if required, e.g. to identify a dry run.

**WARNING:** *Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.*

*A unique description also helps to identify the required return when viewed in the **Census Return for Spring Term** browser and can be particularly useful when creating dry runs or copies of existing returns.*

2. Click the **Calculate All Details** button.

## Calculating All Details

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

**IMPORTANT NOTE:** You must calculate all details at least once to populate the various panels for each return.

Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.

A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.

2. Click the **Yes** button to calculate all details. At this point, depending on the number of pupils in the school, there may be a short delay while details are calculated.

The applicable panels on the **Census Return Details** page are populated with data.

3. The return can be saved at any point by clicking the **Save** button.

## Editing School Information

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | Pupil | Pupil Details**). The information displayed may vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended if necessary via the **School Detail** button.

Academies should also ensure that the following information is recorded, if applicable:

- The **School Type** and **School Governance**.  
 Select **Academies** from the applicable drop-down lists.
- The **Previous Name** and **Date Name Changed**.
- The **Previous Estab Number** and **Earliest DOA** (date of admission).  
 This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected and the earliest date of admission is reported in the School Census.
- The **Previous URN Number** (used by other census returns) and **Date Number Changed**.  
 This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

## Editing School Childcare Details

School childcare details are collected annually in the School Census Spring return.

Details can be entered via **Focus | School | School Details**, enabling the information to be maintained at any time throughout the year.

The **Childcare** panel (on the **Census Return Details** page) displays read-only childcare provision information that has been entered previously via School Details. Additional information can be added or existing data edited by clicking the **Edit** button. This provides a direct link to the **School Details** page.

If no childcare information is recorded, a validation error is triggered when the return is run.

3. Double-click one of the four existing records to display the **Update Childcare Details** dialog. Alternatively, highlight a record then click the **Open** button.

The screenshot shows a window titled 'Update Childcare Details' with the following fields and values:

- Type: Before School Childcare
- On Site: Yes
- Signposted: No
- Opening Time: 07 : 00 hh:mm (24 hrs)
- Closing Time: : hh:mm (24 hrs)
- No of Childcare Places: 40
- Provider: School
- Other Schools: Yes
- Weeks Open:
- Notes: Parent and carers help with childcare.

Buttons for 'OK' and 'Cancel' are visible at the bottom right.

4. Enter the required details.
  - **Type** - based on the record you have opened, the type of childcare being provided is displayed automatically. The four types of childcare collected for the return are:
    - **Before School Childcare**
    - **After School Childcare**
    - **Holiday Childcare**
    - **Under Fives Childcare.**
  - **On Site** - select the applicable option from the drop-down list:
    - **Yes** - select this option if childcare is being provided on the school premises.
    - **No** - select this option if childcare is undertaken off the school premises, i.e. your school promotes or points parents towards a regular off-site childcare service, e.g. a private or voluntary organisation.
  - **Signposted** - one of the following options must always be selected from the drop-down list:
    - **Yes, formal arrangements including transport** - select this option if your school has formal arrangements with another provider that provides childcare for your pupils, including transport to their site.
    - **Yes, list of providers that pick up from school** - select this option if a list of local providers that will pick up pupils from the school to help parents is provided.
    - **No**
    - **Not Known.**

- **Opening Time** - enter the time that the service becomes available (not applicable to after school care).

*NOTE: Ensure that the time is entered in 24 hour format. A colon should be entered between the hours and the minutes, e.g. 07:00.*

- **Closing Time** - enter the time that the service closed (not applicable to before school care).

*NOTE: Ensure that the time is entered in 24 hour format. A colon should be entered between the hours and the minutes, e.g. 17:30.*

- **Number of Childcare Places** - enter the maximum number of childcare places that the service can provide.
  - **Provider** - select the description from the drop-down list that most accurately describes the provider of the service:
    - **School**
    - **School in Partnership** (with another provider)
    - **Other (non-school) Provider.**
  - **Other Schools** - is the service made available to children from other schools? Select as applicable from the drop-down list:
    - **Yes**
    - **No**
    - **Unknown.**
  - **Weeks Open** - enter the number of weeks for which childcare is provided (applicable to holiday and under-fives childcare only).
  - **Notes** - notes can be added and then edited later, if required.
5. Click the **OK** button to return to the **School Details** page.
  6. Click the **Save** button and then the **OK** button to return to the **Census Return Details** page.

## Managing Early Years Data

*Applicable to schools with Early Years children only*

The early years data collected in the Spring School Census is used to determine the amount of the dedicated schools grant (DSG) allocation provided to local authorities to fund their early years providers.

More information about the early years national funding formula (allocations and guidance) is available on the GOV.UK website

(<http://www.gov.uk/government/publications/early-years-national-funding-formula-allocations-and-guidance>).

The **Early Years** panel consists of three grids:

- **Early Years**
- **Early Years Pupil Premium Eligibility**
- **2 Year Old Basis for Funding.**

### Editing Early Years

Early Years data is collected from all schools that have early years pupils on-roll on census day. The following items are collected:

- Funded Hours
- Hours at Setting
- Disability Access Fund
- 30 Hour Code
- Extended Funded Hours.

### Funded Hours and Hours at Setting

Funded hours are the total number of free child care hours that a child receives. All two, three and four year old pupils are eligible for 15 hours funded child care a week.

Hours at Setting include funded hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

| Date of Birth Ranges               | Phase and Year Group                 | Free Entitlement |
|------------------------------------|--------------------------------------|------------------|
| 01/09/2013 to 31/12/2015 inclusive | All relevant schools and year groups | 15 hours         |
| 01/09/2012 to 31/08/2013 inclusive | Nursery schools – all year groups    | 15 hours         |

### Disability Access Fund

The Disability Access Fund is payable as a lump sum once a year and awarded to three and four year old pupils who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA) and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupils who are in receipt of the fund on census day.

| Date of Birth Ranges               | Phase and Year Group                 |
|------------------------------------|--------------------------------------|
| 01/09/2013 to 31/12/2014 inclusive | All relevant schools and year groups |
| 01/09/2012 to 31/08/2013 inclusive | Nursery schools – all year groups    |

### Extended Funded Hours and 30 Hour Code

**Extended Funded Hours** are the number of hours that are in addition to the initial 15 funded hours that a child receives and is applicable to three and four year old pupils only.

Extended Funded hours can double the original 15 hours of free child care to 30 hours a week, provided that the following criteria are met:

- Both parents must be working (or the sole parent is working in a lone parent family) and live in England.
- Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.
- Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a unique code from the Tax Office (HM Revenue & Customs), then provide it to the school, together with other details, to confirm their eligibility for extended child care hours.

The 11 digit **30 Hour Code** and the number of extended funded hours are collected in this return for the week in which the census day falls.

| Date of Birth Ranges               | Phase and Year Group                 | Free Entitlement |
|------------------------------------|--------------------------------------|------------------|
| 01/09/2013 to 31/12/2014 inclusive | All relevant schools and year groups | 15 hours         |
| 01/09/2012 to 31/08/2013 inclusive | Nursery schools – all year groups    | 15 hours         |

Extended Funded Hours information provided by the DfE can be found on their website (<https://www.gov.uk/government/publications/30-hours-free-childcare-la-and-early-years-provider-guide>).

## Recording Early Years

The required data can be recorded:

- via the **Edit** button in the **Early Years** panel
- via **Tools | Statutory Returns Tools | Update Early Years - Update Early Years** page. The data in the **Early Years** panel must be refreshed by clicking the **Recalculate** button.

If data has been recorded previously, the values are displayed in the read-only **Early Years** panel.

**NOTE:** Although SIMS allows schools to enter **Disability Access Fund, 30 Hour Code** and **Extended Funded Hours** for pupils aged 2 at 31/08/2017, this information is not included in the return file because it is not required by the DfE. SIMS do not enforce such DfE rules in the user interface because this is a relatively complex task and experience has shown that such rules can change at short notice.

- In the **Early Years** panel, click the **Edit** button to display a message informing you that hours data has been brought forward from the previous census.

- Click the **OK** button to display the **Update Early Years** page. By default, the current term is displayed in the **Census** panel.
- If you want to view the data recorded for a previous term (in the current academic year), select the required **Term** from the drop-down list.
- To add or edit the number of **Hours at Setting, Funded Hours** and **Extended Funded Hours** (i.e. the number of hours in addition to the initial funded hours) for an individual pupil, select the required criteria in the **Pupils View** panel.

In the **Pupils** panel, highlight the required pupil, click the applicable cell and then enter the required number of hours.

**IMPORTANT NOTES:** Values for **Funded Hours**, **Hours at Setting** and **Extended Funded Hours** should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.

If the value entered is within the range accepted by SIMS but is higher than what the DfE expects, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

5. If most of the pupils are receiving the same number of hours, the following method can be used to populate the column quickly:
  - a. In the **Pupils View** panel, select the required year group from the Year Taught In (YTI) drop-down list. The selected pupils only are displayed in the **Pupils** panel.
  - b. Right-click in the **Pupils** panel, then select **Select All** from the drop-down list.
  - c. Click in one of the highlighted cells of the column you wish to populate, i.e. **Hours at Setting**, **Funded Hours** or **Extended Funded Hours**, then enter the number of hours that is applicable to the majority of pupils.  
This number is then entered automatically for all the selected pupils.
  - d. Click to the right of the grid to deselect all.
  - e. Edit the entry for each pupil who is receiving a different number of hours. This is achieved by highlighting the required pupil, clicking the associated **Hours at Setting**, **Funded Hours** or **Extended Funded Hours** cell (as applicable) then entering the required number.
6. Indicate whether the pupils are in receipt of the **Disability Access Fund**. Click the applicable cell then select **Yes** or **No** from the drop-down list.
7. Enter the 11 digit **30 Hour Code**, e.g. 50000000000, in the applicable cell, if in receipt of extended funded hours.

**IMPORTANT NOTE:** Each pupil must have a different 30 hour code. Ensure that all 11 digits are entered.

8. Click the **Save** button.  
If there are any pupils for whom zero hours have been recorded, a message is displayed. Click the **Yes** button to save the data or the **No** button to return to the **Update Hours** page, where the number of hours can be entered.
9. Click the **OK** button to return to the **Census Return Details** page, where the updated hours are displayed.

**IMPORTANT NOTES:**

If, while completing the return, any of the following processes are performed, click the **Recalculate** button (located at the top right-hand side of the **Early Years** panel) to ensure that the up-to-date data is displayed:

- any information is update via **Tools | Statutory Return Tools | Update Early Years**
- a new pupil is added in SIMS
- a pupil's date of birth is amended.

Please note that when information is updated via the **Edit** button, the **Early Years** panel is refreshed automatically.

### Identifying which Children have no Hours Recorded

1. On the **Census Return Details** page, click the **Edit** button (located in the **Early Years** panel) to display the **Update Early Years** page.
2. In the **Pupils View** panel, ensure that the required **Age at** date, **YTI** and **Reg** group are selected and then select **No Hours at Setting** (or **No Funded Hours**) from the **Status** drop-down list.  
Only pupils who do not have an entry for **Hours at Setting** (or **Funded Hours**) are displayed.
3. Enter the required values for these pupils as described previously.
4. Click the **Save** button.

### Editing Early Years Pupil Premium Eligibility

The data collected in the Spring School Census is used to determine the early years pupil premium allocation provided to local authorities to fund their early years providers.

Early Years Pupil Premium Eligibility (EYPPE) information is required about three and four year olds who attend school. Data is required for the following pupils:

- All three year old pupils who were born between 01/09/2013 and 31/12/2014 (inclusive)
- Four year old pupils (in years E1, E2, N1 and N2 excluding Nursery schools) and born between 01/09/2012 and 31/08/2013 (inclusive)
- Four year old pupils (in any Nursery school year group).

Pupils are eligible for Early Years Pupil Premium (EYPP) if they are receiving any hours of funded early education and any of the following:

- they meet the benefits-related criteria for Free School Meals

*NOTE: Meals delivered as part of the universal entitlement are not Free School Meals.*

- they are in care
- they have been adopted from care.

There are four elements to Early Years Pupil Premium Eligibility:

- Funded Hours - Funded Hours are collected from all schools that have early years pupils on-roll on census day. The hours collected in this return are for the week in which the census day falls. This data is recorded via **Routines | Statutory Returns | School Census - Early Years** panel.
- Parents on Benefits - this information is not recorded in SIMS.
- In Care on Census Day - In Care is defined as meaning 'in the care of the local authority'. The data is collected for the time that the child is at the current school only and not from previous school(s), and is recorded via **Focus | Pupil | Pupil Details - Welfare** panel.
- Adopted from Care - this data is recorded via **Routines | Statutory Returns | School Census - Adopted from Care** panel.

*NOTE: Hours at Setting does not form part of the EYPPE criteria but the hours are collected from all school phases that have early years pupils on-roll on census day and therefore the facility to record Hours at Setting is available in the first grid on the **Early Years** panel.*

The second grid in the **Early Years** panel deals with **Early Years Pupil Premium Eligibility** only. The pupils displayed in this grid make up a subset of the first grid (i.e. relevant three and four year olds).

## Editing Two Year Old Basis for Funding

The **2 Year Old Basis for Funding** grid (located in the **Early Years** panel) enables schools to enter the basis of funding for each pupil with a date of birth between 01/01/2015 and 31/12/2015 inclusive.

| 2 Year Old Basis for Funding |               |        |     |         |                   |                              |                                   |

1. Click a cell in the **Economic Criteria** column, then select **Yes** or **No** from the drop-down list to indicate if this basis for funding applies to the adjacent two year old pupil.
2. Repeat this process in the **High level SEN or Disability** and **Looked After or Adopted From Care** columns.

*NOTE: A pupil might meet one or more of the criterion. Select **Yes** to each applicable basis for funding.*

3. Repeat this process for all two year old pupils.

## Editing Pupils with Top-Up Funding

Top-up funding is supplied to schools, in most cases by the Local Authority, to meet the additional costs of support for high needs pupils.

The **Top-up Funding** panel enables you to record the on-roll pupils for whom your school is receiving top-up funding on census day.

If the pupils with top-up funding have been recorded previously via **Tools | Statutory Return Tools | Update Top-Up Funding**, the data is displayed in the **Top-up Funding** panel.

| Top-up Funding |                   |          |     |     |     |         |
|----------------|-------------------|----------|-----|-----|-----|---------|

| Aaron          | Aaron             | Chris    | 6   | 6KH |     | No      |
| Davies         | Davies            | Ben      | 4   | 4ES |     | No      |
| Dexter         | Dexter            | Bethany  | 3   | 3CB |     | No      |

The information displayed in the **Top-up Funding** panel is read-only. Updating top-up funding information, e.g. adding or removing a pupil, must be done via the **Edit** button.

1. Click the **Edit** button to display the **Update Pupils with Top-up Funding** dialog. The pupils currently recorded as having top-up funding are displayed in the **Top-up Funding** list (located in the bottom half of the page).

## Editing Pupils Post Looked After Arrangements

The Post Looked After Arrangements routine provides schools with the ability to record whether pupils who are on-roll on census day were looked after immediately before adoption or prior to being the subject of a residence or special guardianship order.

If the pupils with post looked after arrangements (PLAA) have been recorded previously via **Tools | Statutory Return Tools | Update Student Post Looked After Arrangements**, the data is displayed in the **Post Looked After Arrangements** panel.

- Click the **Recalculate** button (in the **Post Looked After Arrangements** panel) to ensure that all pupils who already have a PLAA status are displayed.

5. For each pupil added to the **Post Looked After Arrangements** list, select the post looked after arrangement status by clicking in the applicable cell in the **Post Looked After Arrangements** column then selecting the required status from the drop-down list:

- **Ceased to be looked after through Adoption**
- **Ceased to be looked after through a Special Guardianship Order (SGO)**
- **Ceased to be looked after through a Residence Order (RO)**
- **Ceased to be looked after through a Child Arrangement Order (CAO).**

**NOTE: Ceased to be looked after through a Residence Order (RO) has been replaced by Ceased to be looked after through a Child Arrangement Order (CAO).**

*You do not need to change any existing residence orders but new post looked after arrangements must be recorded as child arrangement orders.*

6. Select the **Evidence Obtained** check box if documents have been obtained that provide evidence of the post looked after arrangements.

**NOTE: Evidence Obtained is not collected in the School Census return but should be recorded as proof of DfE/Ofsted compliance.**

7. To remove a name from the list, highlight it then click the **Remove** button. The record is moved to the **Students On-Roll on Census Day** list, from where it can be reselected, if required.

8. Click the **Update** button to save the information and arrange the list of pupils in surname order.

If you have indicated that evidence has been obtained, you are reminded to ensure that the necessary documents are stored securely outside of SIMS or within the Document Management Server.

9. Click the **OK** button to continue.

10. Click the **OK** button (located at the bottom right-hand side of the screen) to return to the **Census Return Details** page, where the updated information is displayed in the **Post Looked After Arrangements** panel.

## Managing School Dinners Taken on Census Day

Applicable to schools with pupils in Reception, Year 1 and Year 2

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the local authority. The School Census Spring 2018 Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

The **School Dinner Taken** panel displays all pupils in Reception, Year 1 and Year 2 who are on-roll on census day. The options available in the panel enable you to record pupils who have taken a Universal Infant School Meals on census day, so that accurate data can be included in the census.

*NOTES: The **Reference Date** is provided so that your school can report school dinners taken on an alternative date to census day, if required.*

*The pupils listed in the **School Dinner Taken** panel are those who are on-roll on census day. Whereas the data calculated via the **Calculate From Attendance** and the **Calculate From Dinner Money** buttons is based on the reference date.*

If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both of these modules are not in use, the applicable **Calculate From** button(s), as displayed in the following graphic, are not displayed but the information can be recorded manually.

| <b>1</b> | By default, the <b>Reference Date</b> is set to 18/01/2018 (census day). If, due to exceptional circumstance, e.g. flooding, pupils were unable to take a school dinner on census day, the reference date can be changed to a date that reflects the normal situation. |
| <b>2</b> | Click the required column header to sort the data.   |
| <b>3</b> | The <b>Calculate From Attendance</b> button is displayed only if SIMS Attendance is in use.  |
| <b>4</b> | The <b>Calculate from Dinner Money</b> button is displayed only if SIMS Dinner Money is in use.  |
| <b>5</b> | When the <b>Reset</b> button is clicked all existing ticks are removed from the <b>School Dinner Taken</b> column enabling you to start the process again.   |
| <b>6</b> | The <b>Total Taken</b> and <b>Total Not Taken</b> provide an indication of whether the number of school dinners taken is correct or whether edits are required.  |

After the return has been created and validated, the School Dinner Taken detail report can be run to assist with the checking of results.

## Using Dinner Money to Calculate School Dinners Taken on Census Day

If SIMS Dinner Money is in use, the Dinner Money data recorded for census day can be used to calculate the number of school dinners taken on census day.

Many users of SIMS Dinner Money also use SIMS Attendance. If this is the case the **Calculate From Attendance** button is also displayed.

### 03| Producing the School Census Spring Return

However, it is recommended that the Calculate From Dinner Money routine is used in the first instance. This is because the Calculate From Attendance routine looks at all pupils with a present or late attendance mark on census day morning. These pupils could be taking any sort of meal on census day, e.g. going home for lunch, pack lunch brought from home, as well as meals provided by the school. The School Census return is only interested in school meals provided by the school.

SIMS Dinner Money takes into account these different meal types and populates the **School Dinner Taken** column with ticks where meals provided by the school only have been taken.

1. Click the **Calculate From Dinner Money** button.

**WARNING:** Clicking the **Calculate From Dinner Money** button overwrites all existing data in the **School Dinner Taken** panel.

If SIMS detects missing information, the following message is displayed:

**Dinner Money information is incomplete. Please ensure that meals are recorded in Dinner Money.**

2. Click the **Cancel** button to return to SIMS where the missing information can be entered or the **OK** button to continue.

A tick is entered against each pupil who is receiving any type of meal provided by the school on census day. These meals have a meal type category of **School Provided**, with a description such as hot school meal or school sandwich.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

### Using Attendance to Calculate School Dinners Taken on Census Day

The School Census Return only requires information about school meals provided by the school on census day. However, if SIMS Attendance is in use, the attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner.

The information calculated from attendance can be edited to so that school meals provided by the school only are collected in the return.

1. Click the **Calculate From Attendance** button.

**WARNING:** Clicking the **Calculate From Attendance** button overwrites existing data in the **School Dinner Taken** panel.

If missing marks exist, a message is displayed:

**Please ensure that registers have been taken. Missing marks have been interpreted as absent and no dinner taken.**

2. Click the **Cancel** button to return to SIMS where missing marks can be entered or the **OK** button to continue.

A tick is entered against each pupil who is marked as present on census day morning (i.e. AM session). It is possible that some of these pupils are not taking meals provided by the school, e.g. they go home for dinner or bring a packed lunch from home. Meals provided by the school only are required for the return.

Use the **Group By** functionality to group pupils by **Year Taught In, Reg Group** or **Enrolment Status**, enabling school dinners taken information to be updated from class lists, etc.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

## Using Manual Entry to Record School Dinners Taken on Census Day

If your school is not using SIMS Dinner Money or SIMS Attendance the number of school dinners taken on census day (i.e. meals provided by the school) can be entered manually.

1. Click the **Tick All** button to populate the **School Dinner Taken** column. All pupils are ticked indicating that they received a school dinner on census day.
2. Edit individual records by clicking the applicable **School Dinner Taken** cell to toggle between a tick and blank (no meal taken).

Total Taken:  Total Not Taken:

The **Total Taken** and **Total Not Taken** (located at the bottom of the panel) provide an indication of whether the number of school dinners taken is correct or whether further edits are required.

3. After the return has been created and validated, run the School Dinner Taken detail report and then check the report contents.

4. Continue editing until school dinner taken details are correct.

**WARNING:** Clicking the **Reset** button removes all existing ticks from the **School Dinner Taken** column.

## Entering General Information

The **General** panel deals with the number of pupils who receive Free School Meals on census day.

|   |                                |
|---|--------------------------------|
| <b>12 General</b>   |                                |
| Number of free school meals taken on census day   | <input type="text" value="0"/> |
| FSM taken excludes the infant pupil universal entitlement (except for pupils in R.1.2 who are eligible for FSM) |                                |

Enter the **Number of free school meals taken on census day** by pupils, in any year, who are eligible for Free School Meals.

- Pupils should be included only if they meet the Free School Meals eligibility criteria (i.e. in respect to family income).
- If your school has pupils of a young age, do not include pupils taking school meals in Reception, Year 1 and Year 2, if they are not eligible for Free School Meals in respect to family income, e.g. they are receiving a Universal Infant School Meal only.

## Creating and Validating a School Census Return

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

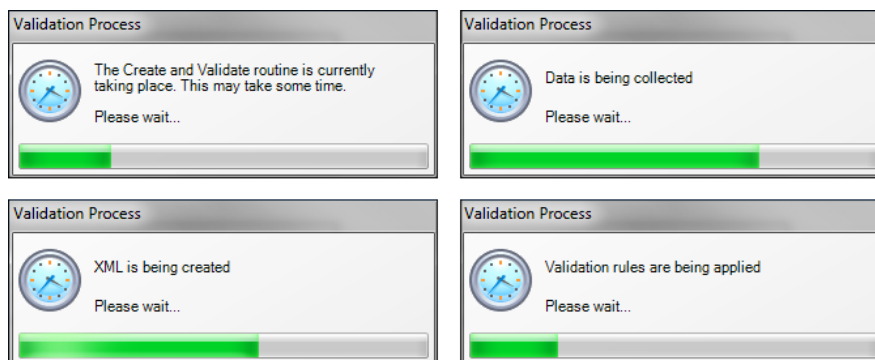

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data which is unusual or not as expected, e.g. there are no pupils with special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to begin the process. There may be a short delay, depending on the number of pupils at your school.

## 04| Completing the School Census Spring Return

A progress bar is displayed indicating that the Create and Validate process is being performed.

When the validation process is complete, the **Validation Errors Summary** panel is displayed at the bottom of the screen.

### Resolving Validation Errors and Checking Queries

After creating the return file and validating the data, any errors and queries found are listed in the **Validation Errors Summary** panel at the bottom of the **Census Return Details** page.

The number of errors and queries found during the Create and Validate process is displayed in the header of the **Validation Errors Summary** panel.

Details about each of the errors and queries found are displayed in the columns as described in the following table.

| Column          | Description  |
|-----------------|--|
| <b>Type</b>     | Displays the type of validation rule:<br>Failure ( <b>F</b> displayed in red) indicates an error, which must be corrected.<br>Query ( <b>Q</b> displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary. |
| <b>Sequence</b> | Shows the error or query number.   |
| <b>Message</b>  | Displays the text of the error or query message.   |

| Column          | Description   |
|-----------------|---|
| <b>Location</b> | Lists the specific record containing the error or query.  |
| <b>Solution</b> | Provides a suggestion on how the error can be corrected or the query checked. Many solutions have a hyperlink (indicated by a #) to the appropriate area of SIMS. |

To assist in the resolution of any errors and queries:

- When the mouse pointer is hovered over a **Message**, **Location** or **Solution** cell, hover help displays the entire content of that cell.
- When the mouse pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the issue can be checked.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures, which is particularly useful if there are a large number of errors/queries, by clicking the **Report** button (located at the left-hand side and directly above the **Validation Errors Summary** panel). The report is displayed in your web browser, e.g. Internet Explorer®, where it can be printed or transferred to another application, if required (please see *Transferring Report Data to a Spreadsheet* on page 43).

The report (Validation Errors Summary.HTML) is saved automatically in the **Census Folder**, which was specified previously in the **Census Return for <season> <year> Term** browser. The original report, which was generated when the **Create & Validate** button was clicked (e.g. <LACode><SchoolNumber>\_<SurveyType>\_<LACode><LL><Year>\_<SerialNumber>\_ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a **Hosted** environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

**NOTE:** All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

## Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Each detail report header displays the **Security Message** that was defined in the **Census Return** browser, the **Report Criteria** and the **Total Pupils** who are listed in the report.

Also included in the report header is the **School Name**, the **Fileset Number**, the **Filename**, the **Report Created** date, and the **XML Version**.

The following reports are currently available:

### On-Roll Basic Details Report

Report Criteria: Pupils on-roll on census day.

This report provides basic information: UPN, legal surname, legal forename, preferred surname, former surname, date of birth (DOB), gender, year taught in (YTI), date of admission (DOA), enrolment status, ethnicity, proficiency in English, nationality, country of birth, part-time status and boarder status.

### SEN Report

Report Criteria: On-roll pupil with SEN Provision/Status = **S** (Statement), **E** (Education), Health and Care Plan, **K** (SEN Support). SEN Need Types ranked 1 and 2 for pupils with EHCP, Statement or SEN Support.

*NOTE: A and P are invalid for this return.*

This report provides a list of pupils who have special educational needs. Displayed are their UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), SEN provision, SEN type ranking, SEN type, member of SEN unit and member of resourced provision indicator and on-roll status.

## Address Details Report

Report Criteria: Pupils on-roll on census day.

This report provides a list of pupils, their UPN, former UPN, legal surname, legal forename, middle name(s), post code, unique property reference number (UPRN), address details and the administrative area/county.

### Definition:

Unique Property Reference Number (UPRN) - a unique identifier (reference number) that links together related address records across different software programmes. This enables organisations to collate and share information based on a common reference number.

## School Dinner Taken Report

Report Criteria: Pupils on-roll on census day, who have taken school dinner on the reference date.

- Pupils in Year Taught In R, 1 and 2.
- Pupils in year Taught In X who are aged four to six and who were born between 01/09/2010 and 31/08/2013 inclusive (**Special schools only**).

The report header also displays the total number of pupils, the total number of school dinners taken and the total number of school dinners not taken.

This report provides the following information about pupils who match the report criteria: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI) and school dinner taken (yes/no).

## Free School Meal Eligibility Report

Report Criteria: On-roll pupils on census day who were eligible for free school meals on or after 06/10/2017 and up to and including census day.

This report provides information on free school meal eligibility for pupils who match the report criteria: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), on-roll status and free school meal eligibility start date, end date and the UK country in which the eligibility applies.

*NOTES: This report includes any free school meals recorded outside of England, e.g. Wales.*

*Only Free School Meals records where the country recorded is England or <blank> attract the Pupil Premium.*

## Top-up Funding Report

Report Criteria: On-roll pupils who have been awarded Top-up Funding as at census day.

The report provides the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI) and SEN provision.

## **Early Years Report**

Report Criteria:

- Pupils with early years data who are on-roll on census day:
  - All two year old pupils who were born between 01/01/2015 and 31/12/2015 (Hours at Setting and Funded Hours only)
  - All three year old pupils who were born between 01/09/2013 and 31/12/2014.
  - All four year old pupils who were born between 01/09/2012 and 31/08/2013 (in years E1, E2, N1 and N2 only).

The report displays the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), hours at setting, funded hours, 30 hour code, extended funded hours and disability access fund.

## **EYPPE Report**

Report Criteria: Pupils on-roll on census day.

- All 3 year olds born between 01/09/2013 and 31/12/2014 (inclusive)
- 4 year olds (for other than Nursery - in E1,E2,N1 and N2 only) born between 01/09/2012 and 31/08/2013 (inclusive)
- 4 year olds (for Nursery – all pupils)

The early years pupil premium eligibility (EYPPE) report provides a list of pupils, their UPN, legal surname, legal forename, preferred surname, former surname, date of birth (DOB), gender, year taught in (YTI), post looked after arrangements, hours at setting, funded hours and basis for EYPP eligibility.

## **2 Year Old Basis for Funding Report**

Report Criteria: Pupils on-roll on census day having two year old basis for funding data. All two year olds who were born between 01/01/2015 and 31/12/2015.

The report displays the following information: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI), hours at setting, funded hours, economic criteria, high level SEN or disability and looked after or adopted from care status.

## **Post Looked After Arrangements Report**

Report Criteria: On-roll pupils who have post looked after arrangements as at census day.

The report provides the following information about pupils who have post looked after arrangements: UPN, legal surname, legal forename, date of birth (DOB), gender, year taught in (YTI) and post looked after arrangements, e.g. ceased to be looked after through a special guardianship order (SGO).

## General Report

Where applicable, the General report provides information about:

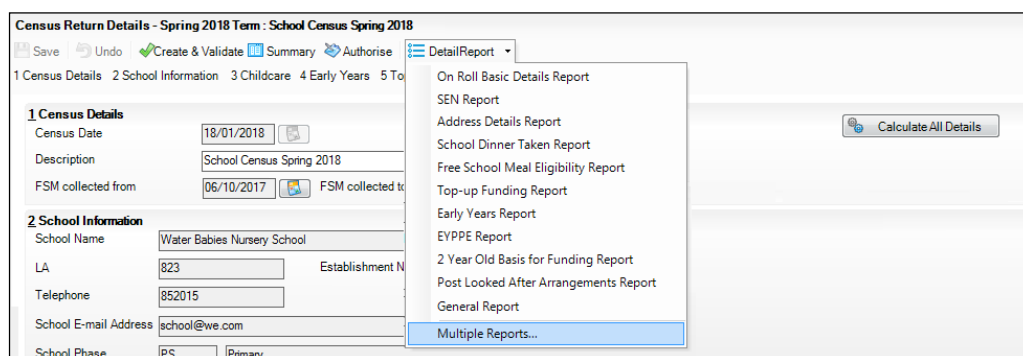

- free school meals taken on census day.
- childcare provisions during the 2017/2018 academic year.

The report displays the following information: childcare type, on site, signposted, opening time, closing time, number of childcare places, provider, other schools and weeks open.

## Generating Detail Reports

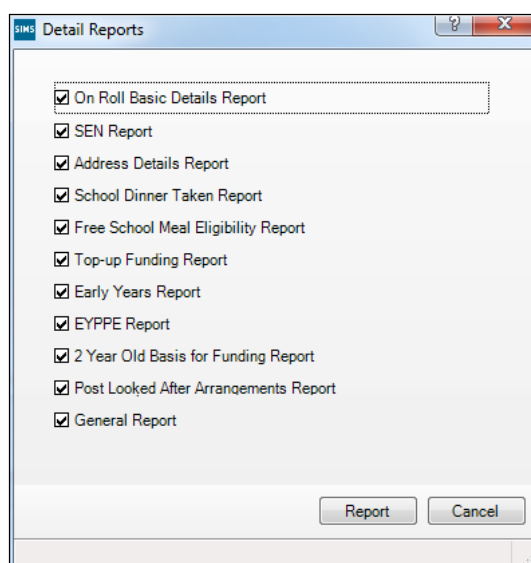

### Selecting a Single Detail Report

Select the required report from the **Detail Report** drop-down list located at the top of the **Census Return Details** page. The selected report is generated automatically.

### Selecting Multiple Detail Reports

1. Select **Multiple reports** from the bottom of the **Detail Report** drop-down list to display the **Detail Reports** dialog. By default, all detail reports are selected.

2. If any reports are not required, deselect the associated check box.
3. Click the **Report** button to generate the selected report(s).

The report(s) are displayed in your web browser, e.g. Internet Explorer, from where the data can be transferred to a spreadsheet such as Microsoft® Excel, if required.

The report(s) are saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. C:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that consists of the following data fields separated by underscores ('\_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_.html
```

For example:

```
8202001_SC1_823LL18_001_onroll_basic_details_report.html.
```

## Printing a Report from your Web Browser

**IMPORTANT NOTE:** Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include instructions for the destruction of the printed reports, if required.

1. With the generated report displayed in your web browser, select **File | Print** to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

## Transferring Report Data to a Spreadsheet

Transferring a report to a spreadsheet application enables the data to be sorted, the column order to be changed, etc.

In your web browser, right-click the report then select the required option, e.g. **Export to Microsoft Excel**, from the drop-down list.

The spreadsheet contains the same level of sensitive information as the original HTML report from which it was transferred therefore, it is important that the file is saved to a folder with the same level of security.

## Deleting Temporary Web Browser Files

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on the PC itself, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the PC in the temporary directory, where they are not secure because they can still be accessed.

### Deleting the cache in Internet Explorer 10

1. Select **Tools | Internet options** to display the **Internet Options** dialog.
2. Select the **General** tab.
3. In the **Browsing history** section, click the **Delete** button to display the **Delete Browsing History** dialog.
4. Ensure that the **Temporary Internet Files and website files** check box is selected then click the **Delete** button.  
All temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.
5. Click the **OK** button.

### Deleting the cache in Internet Explorer 8 and 9

1. Click the **Tools** button located at the far right-hand side of the toolbar.
2. Select **Internet options** from the drop-down list to display the **Internet Options** dialog.
3. Select the **General** tab.
4. In the **Browsing history** section, click the **Delete** button to display the **Delete Browsing History** dialog.
5. Ensure that the **Temporary Internet Files** check box is selected then click the **Delete** button.  
All temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.
6. Click the **OK** button.

## Producing the Summary Report

The Summary report enables the accuracy and completeness of the return to be assessed by the school staff involved in preparing the return. It can also be used to assist the Head Teacher in the checking of data before authorising the return.

*NOTE: When the return is authorised, the Summary report is automatically generated and displayed in your web browser, e.g. Windows® Internet Explorer.*

### Generating the Summary Report

Click the **Summary** button located at the top of the **Census Return Details** page. The report is automatically displayed in your web browser, e.g. Internet Explorer®, but can be transferred to a spreadsheet such as Microsoft® Excel if required.

The report is saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. C:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that consists of the following data fields separated by underscores (^\_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_.html
```

For example: 8202001\_SC1\_820LL18\_001\_Summary\_Report.html.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA might request that a copy of the Summary report is signed by the Head Teacher and sent to the LA when the return has been authorised.

## Editing an Unauthorised Return

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

**IMPORTANT NOTE:** An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.

1. Select **Routines | Statutory Returns | <census name>** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct then click the **Search** button to display any previously created returns. Unauthorised returns can be recognised by their .UNA suffix.
3. Double-click the required return. Alternatively, highlight the required return then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.
5. Ensure that the correct value for historical spot allowances has not been specified via **Tools | Setups | Employment Parameters**.
6. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
7. Resolve any errors and check any queries before running the Summary report and detail reports to ensure that the information is correct.

## 04| Completing the School Census Spring Return

- Repeat the editing process again, if necessary.
- Click the **Save** button.

## Authorising the Return

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

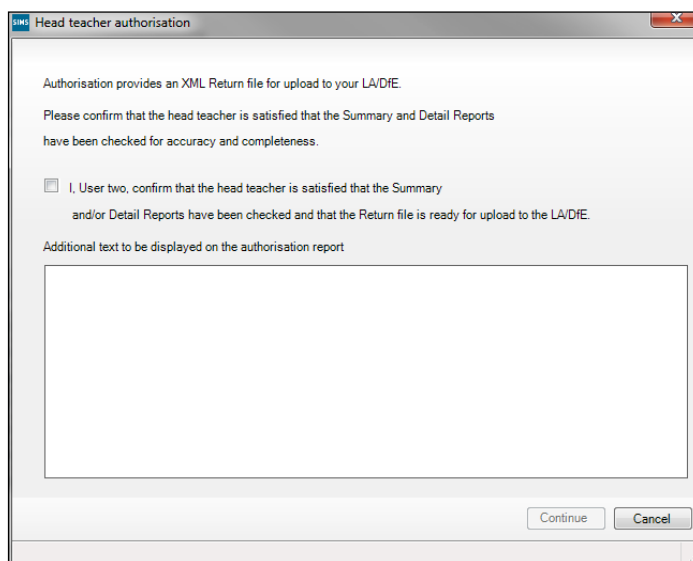

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The Summary report can assist in reviewing the information.

- Click the **Authorise** button. A message reminds you that the return cannot be edited once it is authorised.

- Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

If you choose to continue, the **Head teacher authorisation** dialog is displayed.

3. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.
4. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

5. Click the **Continue** button to authorise the return.
  - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.
  - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
  - All details, i.e. the reports and the XML file, are saved in the **Census Folder**, which was specified previously in the **Census Return for <season> <year> Term** browser.

All reports can be viewed via **Tools | Statutory Return Tools | Retrieve Authorised Census Return Files**. This routine also provides the opportunity to download the files to a different folder.

**IMPORTANT NOTE:** *Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy, or create a new return.

After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

## Submitting the Return

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the .XML file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

The authorised return file is located in the folder previously specified in the return browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

**IMPORTANT NOTE:** *An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.*

## Retrieving Authorised Census Return Files

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the files **Download to** the folder specified in the census browser. To specify a different folder:
  - a. Click the **Select a Folder** button (...) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

**IMPORTANT NOTE:** *Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

- b. Click the **OK** button to select or create the folder then return to the **Retrieve Authorised Return Files for <census name>** page where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

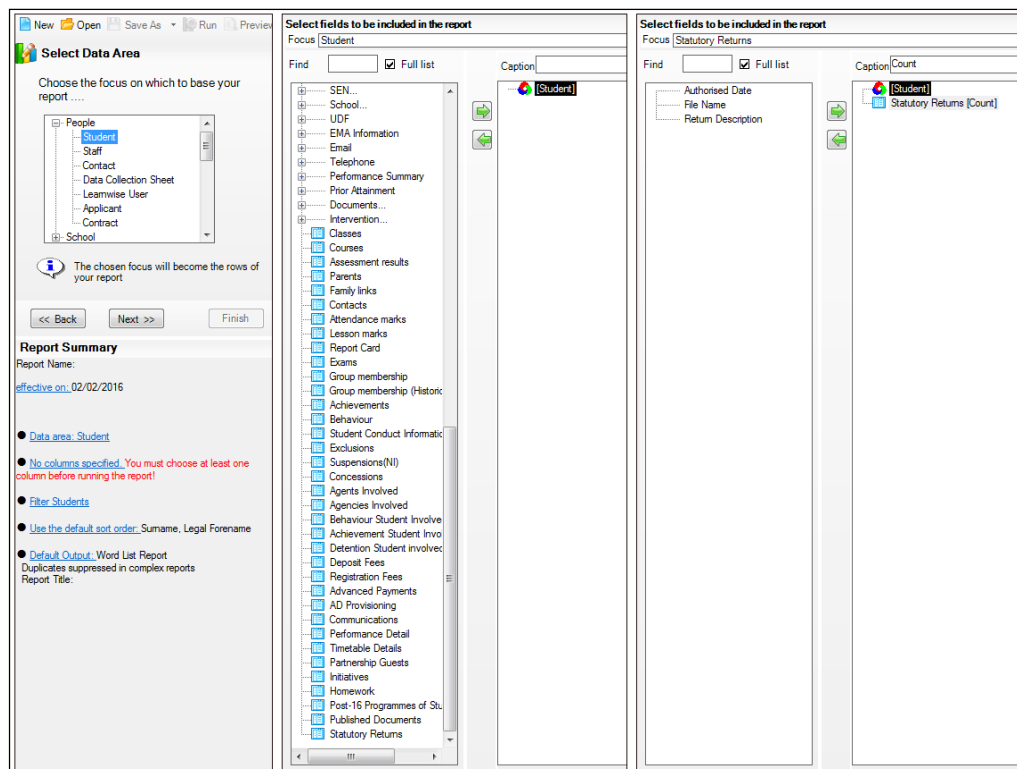

The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.

5. The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node). Three options are available for selection under this sub-report: **Authorised Date**, **File Name** and **Return Description**.

### Additional Resources:

*Designing and Running Reports* handbook

## Copying a Return

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

*NOTE: Ensure that the return you wish to replicate is not open at the time of copying.*

1. Select **Routines | Statutory Returns | <name of census>** to display the census browser.
2. Click the **Search** button to ensure that the list of returns is displayed.
3. Highlight the file you wish to copy then click the **Copy** button.

## 04| Completing the School Census Spring Return

A message requests confirmation that you wish to make a copy of the selected return.

**IMPORTANT NOTE:** Any values for attendance (where applicable), Early Years, Post Looked After Arrangements and Top-up Funding will not be copied but will be populated from the current values held in the database. The Create & Validate routine must be run to generate a new census file.

4. Click the **Yes** button to make the copy, which is then displayed in the browser as:  
**Copy of <description of selected file>.**
5. To rename the copied return, highlight it then click the **Open** button to display the **Return Details** page.
6. In the **Census Details** panel, edit the **Description** then click the **Save** button.

**IMPORTANT NOTE:** The new **Description** must be unique for this return. SIMS will not save the data if a duplicate return description is found.

## Deleting an Unauthorised Return

During the return process, a number of copies of the return may be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the wrong return.

The delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

**IMPORTANT NOTES:** When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.

*Any return files that have already been authorised cannot be deleted.*

1. Select **Routines | Statutory Returns | <Return name>** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

The deleted return file is removed from the browser and the storage folder, along with any associated reports.
