Introduction

This preparation guide has been produced to help you to identify the most common tasks that need to be carried out before running the School Census Summer 2019 Return.

The information in this guide applies to all LA maintained Secondary schools, Middle deemed Secondary schools, All-Through schools (secondary phase) and Pupil Referral Units (secondary phase). It also applies to Academies that cover the Secondary school phase and City Technology Colleges (CTCs).

Where the information relates to a specific school phase, it is indicated in red, e.g. **Applicable to Middle deemed Secondary schools only**.

NOTE: The content of the graphics (dates, names, etc.) displayed in this preparation guide are examples only of what you might expect to see when using SIMS to prepare for the forthcoming School Census Return.

How has the School Census Summer Return Changed since Last Year?

Changes to the return include the following:

School Census Summer 2019 Key Dates

- Census date 16/05/2019
- Attendance collected from 01/01/2019 to 21/04/2019
- Exclusions collected from 01/09/2018 to 31/12/2018
- Free School Meal Eligibility collected from 18/01/2019 to 16/05/2019
- Learner Support collected from 01/08/2018 to 16/05/2019.

Setting SIMS Permissions

The following permissions are applicable to users who deal with returns.

Running the Return

To run the return, you must be a member of one of the following user groups in System Manager:

- Returns Manager
- Returns Operator.

Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. student details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see *Where to find More Information about Permissions* on page 2).

Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS), to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the *Managing SIMS Users, Groups and Databases* handbook.

What Version of SIMS is Required?

To run the return, you must have the SIMS 2019 Spring Release (7.186) or later installed.

To check which version of SIMS is installed, open SIMS and then select **Help | About SIMS**. A dialog similar to the one shown in the following graphic is displayed.

The version should read 7.186 or later.

Importing Revised Filesets for Validation and Reports

Applicable to the Personnel Officer, Returns Manager and System Manager

The Validation Errors Summary and the Summary report are derived from files supplied by the Statutory Body. In addition, SIMS provides detail reports to enable the checking of data used to generate the return. These report files are initially installed automatically during the SIMS release upgrade.

Occasionally, additions or corrections are made to these files, after a SIMS release, which are required for the forthcoming return. The Import Fileset functionality is provided to enable these files to be imported into SIMS (between releases) by the Personnel Officer, Returns Manager or System Manager.

Revised files can be:

- downloaded from the SBS Blog to a folder of your choice.

The files available for download from the SBS Blog are zipped. Once the ZIP file is downloaded it should be unzipped to a folder of your choice. The Import Fileset routine can then be run by a user at the school who has the appropriate permissions.

IMPORTANT NOTE: Ensure that the Document Management Server (DMS) is configured correctly before attempting to import the files.

- authorised and deployed to schools via SOLUS3. The Import Fileset routine can then be run by a user at the school who has the appropriate permissions.

IMPORTANT NOTE: In SOLUS3, administrators must ensure that the SIMS user details (SIMS username and password) and SIMS database are set up in **Targets**.

For more information, please refer to the *SOLUS3 for Local Authorities handbook*.

TIP: To check which version of the fileset is currently in use, select **Routines | Statutory Returns | School Census** to display the **Census Return** browser. The **Validation Fileset ID** is displayed in the browser header.

Before Importing the Revised Files

To enable the file(s) to be imported successfully, ensure that the DMS is configured correctly. This is achieved via **Tools | Setups | Document Management Server**. Click the **Test server connection** button to check if the specified DMS is available for use and functioning correctly.

If the connection is unsuccessful, check the following details:

- The **Protocol** field defaults to **http** and should not be edited.
- The **Computer name** should be the name/number of the PC on which the DMS is installed.
- The **Port** number is usually 8080. The number must be between 0 and 65535.
- The **Active** check box must be selected, indicating that the server is in use.

Click the **Test server connection** button again. If the DMS is now working correctly, click the **Save** button.

Importing the Revised Files

1. In SIMS, select **Tools | Setups | Import Fileset** to display the **Import Fileset** page, where the current fileset number is displayed.

2. Click the **Browse** button to display the **Open** dialog.

3. Navigate to the location of the downloaded fileset. The file name is made up of the following data fields: <Fileset Number>-StatutoryReturns-<Term and Year>_Fileset.mfs.

IMPORTANT NOTE: If more than one MFS file is displayed in the **Open** dialog, care should be taken to select the correct file.

4. Highlight the file then click the **Open** button. Alternatively, double-click the required MFS file to return to the **Import Fileset** page.

NOTE: The following graphics show example data only.

The screenshot shows the '1 Fileset' window. At the top, there is a 'Choose Fileset:' text box containing the path 'C:\1200-StatutoryReturns-Summer2019_Fileset'. Below this is a 'Selected Fileset' section with the following details:

Number:	Release Date	Title:
1200	15/03/2019	Install files required for the Summer 2019 Statutory Returns

Below the table, the 'Purpose:' is described as 'Fileset containing all files required to produce the returns included in the Spring 2019 release'. At the bottom left, it says 'Ready to import...'. At the bottom right, there is an 'Import Fileset' button with a folder icon.

Details of the selected fileset are displayed, including the version **Number** of the fileset, the **Release Date** and the fileset description (**Title**).

5. Click the **Import Fileset** button to import the fileset into the DMS.
- When the import process is finished, **Import successful** is displayed at the bottom left-hand side of the **Fileset** panel and you are advised to restart SIMS. This ensures that the newly imported data will take effect.

This screenshot shows the '1 Fileset' window after the import process. The 'Import successful.' message is now displayed at the bottom left of the 'Selected Fileset' section. The 'Import Fileset' button remains at the bottom right. Overlaid on the bottom right of the window is a small dialog box titled 'SIMS .net import complete'. The dialog box contains the text 'Import successful. Please close SIMS .net and re-open it' and an 'OK' button.

6. Click the **OK** button, then restart SIMS.
7. Run the return in the usual way.

 **Completed**

School Census Return Process Flow

The following provides a brief outline of the steps involved in producing the School Census Summer 2019 Return. If data has been regularly and accurately maintained, many of the activities in this document are unnecessary. However, it is advisable to check to ensure that the information is up-to-date.

1. Upgrade to the SIMS 2019 Spring Release (7.186) or later.
2. Carry out one or more dry runs to identify any errors that may exist in your data.
3. Ensure that the relevant student and school data exists in SIMS and that it is complete and correct. Use the Bulk Update routine (**Routines | Student | Bulk Update**) to add missing or correct invalid data, if required.
4. Complete the information on the **Census Return Details** page.
5. Create and validate the return.
6. Resolve any validation errors/queries and then create and validate the return again.

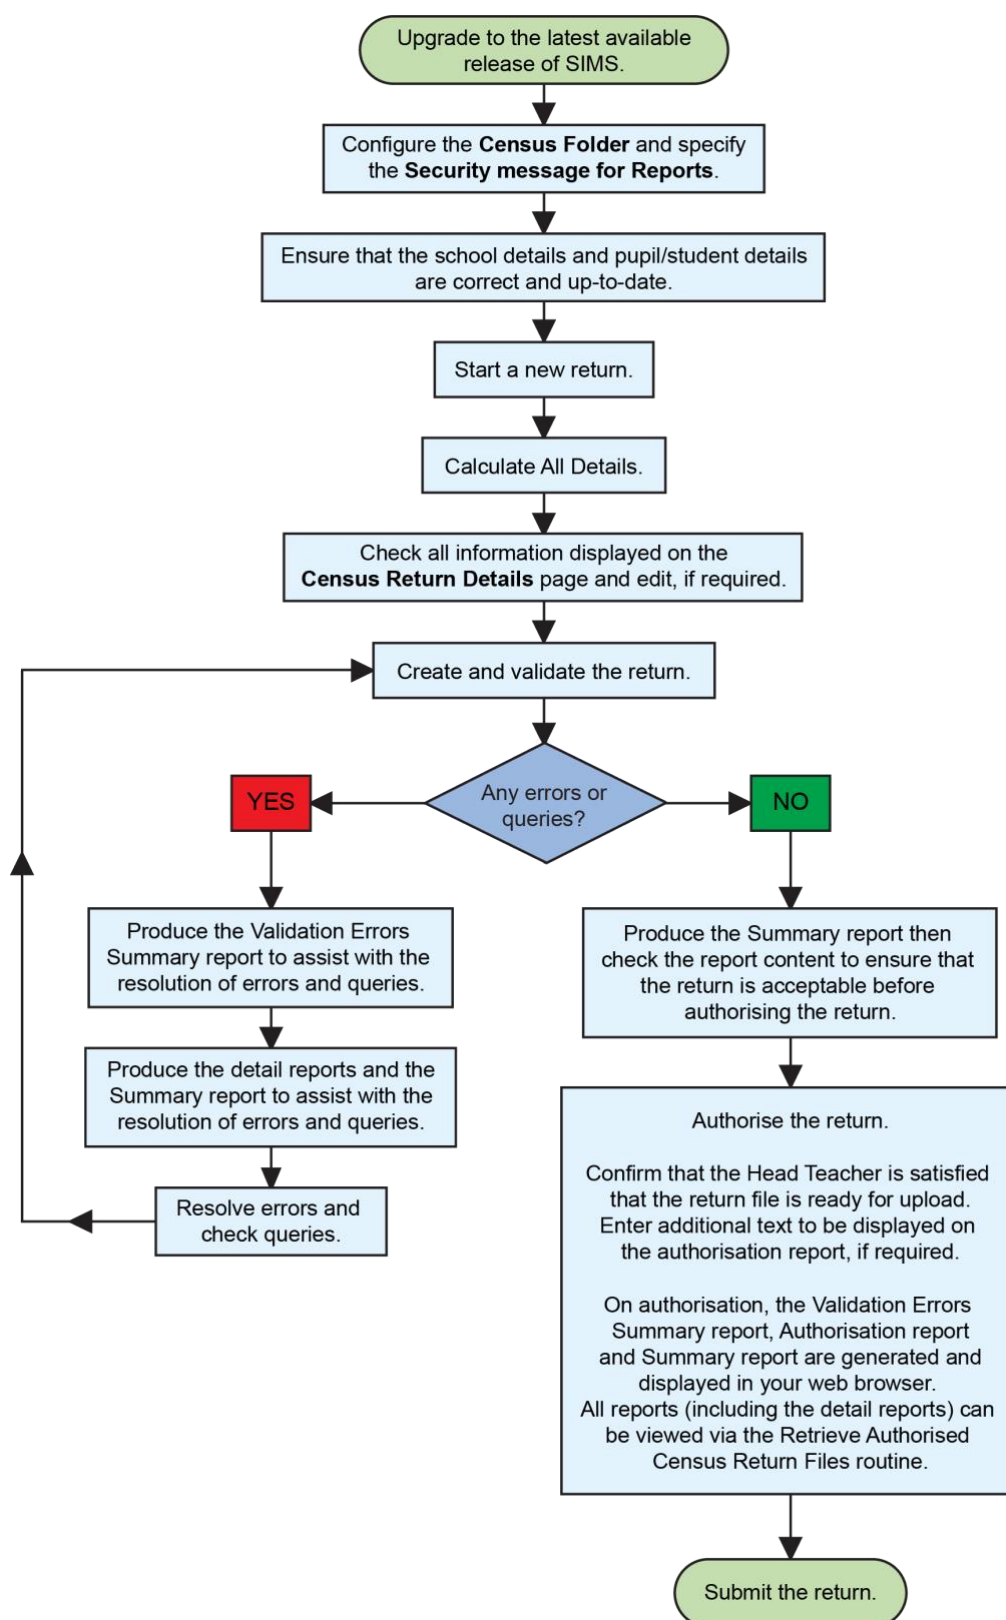

Continue to resolve the validation failures then repeat the Create and Validate routine until you are satisfied that the content of the return is correct.

The detail reports and Summary report can be generated to assess the accuracy and completeness of the return.

7. Provide the Head Teacher with the latest copy of the Summary report to enable them to check that all information is correct before they give approval for authorisation of the return.

The Summary report can be used in conjunction with the detail reports.

8. Once approval has been given, authorise the return (**Routines | Statutory Returns | School Census – Authorise** button).
9. Upload the return to the DfE COLLECT data collection website or submit it to your Local Authority, as applicable.

02| Carrying out a Dry Run

Why Carry out a Dry Run?	9
The Dry Run Process.....	9

Why Carry out a Dry Run?

When you have upgraded to the SIMS 2019 Spring Release (7.186), you can carry out one or more dry runs of the return.

The purpose of a dry run is to produce the Validation Errors Summary, which provides details about any corrections that need to be made to your data to make it acceptable for inclusion in the return. To ensure that you are aware of potential issues, it is advisable to do this as early as possible, even if you know that your data has not yet been fully prepared or checked.

Whilst a significant number of errors may be generated, many of the errors that relate to students, e.g. language, can be fixed quickly using the Bulk Update routine (please see *Updating Information Using the Bulk Update Routine* on page 24).

The Dry Run Process

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return for Summer Term** browser.

2. Select an existing School **Census Folder** or enter a new location in which the School Census files will be stored. You may wish to make this a temporary folder for the purpose of producing a dry run.

IMPORTANT NOTES: Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc. You should be mindful of your school's responsibilities with respect to information security.

Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (<https://www.gov.uk/service-manual/technology/securing-your-information>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (<https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr>).

- Click the **New** button to display the **Census Return Details** page.

- By default, the return **Description** is displayed as **School Census Summer 2019**. Edit the **Description** to any name that will clearly distinguish this dry run from the actual return, which will be generated later, e.g. Summer19Test.
- In the **Census Details** panel, click the **Calculate All Details** button to extract the required information from the SIMS database and display the results in the various panels of the **Census Return Details** page.
- If there is any missing or invalid data, an error message is displayed on the Status Bar. This data must be added/corrected before you can create and validate the return.

7. Click the **Create & Validate** button to start the validation process. This may take some time. Any missing or invalid data is listed in the **Validation Errors Summary** panel, located at the bottom of the page.

Additional Resources:

Detailed information about completing the individual panels on the **Census Return Details** page is available in the *Producing the School Census Summer 2019 Return (English Secondary/Middle deemed Secondary Schools)* handbook.

Resolving Validation Errors and Checking Queries

After creating the return file and validating the data, any errors and queries found are listed in the **Validation Errors Summary** panel at the bottom of the **Census Return Details** page.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures, which is particularly useful if there are a large number of errors/queries, by clicking the **Report** button (located at the left-hand side and directly above the **Validation Errors Summary** panel). The report is displayed in your web browser, where it can be printed or transferred to another application, if required. The report (Validation Errors Summary.HTML) is saved automatically in the **Census Folder**, which was specified previously in the **Census Return for <season> <year> Term** browser. The original report, which was generated when the **Create & Validate** button was clicked (e.g. <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Student | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return.

The following reports are currently available:

Checking Student Details

Before starting the School Census return, check that all on-roll students are recorded in SIMS and that as far as possible the information is up-to-date and accurate. Ensure that:

- new students records have been added (for more information, please refer to the *Recording a New Pupil/Student* section in the *Managing Pupil/Student* handbook).
- any leavers have been recorded as such (please see *Recording Leavers and Re-Admissions* on page 27).

NOTE: Ensure that a student's first language and boarder status are entered before they are recorded as a leaver.

- any duplicate student records have been deleted (please see *Deleting Student Records Entered in Error* on page 31).
- part-time details have been checked/updated.
- student details have been updated where required.

The following sections in this guide provide additional information and specific instructions on checking and editing student level data. Some of this data can be checked/updated using the Bulk Update routine (please see *Updating Information Using the Bulk Update Routine* on page 24).

When you have upgraded to the SIMS 2019 Spring Release (7.186), you are strongly advised to carry out one or more dry runs to identify any validation errors and queries that must be resolved before the return is submitted (please see *Why Carry out a Dry Run?* on page 9).

Updating Information Using the Bulk Update Routine

To prevent validation errors from occurring, it is advisable to check your SIMS data for accuracy before the return is created and validated.

Many items can be checked using the Bulk Update routine. This functionality enables you to search for missing or invalid data, then update in bulk. For example, it is possible to search for all students who do not have a First Language recorded against their name. From the students found, a value can be assigned to all or several students. This prevents the need to enter/change values manually for individual students.

1. Select **Routines | Student | Bulk Update** to display the **Bulk update Student** browser.

2. In the **Bulk Update** panel, select the required **Group Type** and **Group** from the drop-down lists.

The **Group Type** indicates the type of group to list while the **Group** enables the specific group of students to be listed. For example, selecting a **Group Type** of **Year Group** enables a specific year to be selected from the **Group** drop-down list, such as **Year 8**.

If searching for missing information, select the particular data field from the **Group Type** drop-down list, such as **First Language**, and then select a specific **Group**, such as **<NONE>**.

It is also possible to use this functionality to review the data entered for all the students in the school. This is achieved by selecting **Year Group** from the **Group Type** drop-down list and **<ANY>** from the **Group** drop-down list and then selecting the required **Data Item**.

The following table provides some examples of the searches that can be carried out to identify missing data.

Group Type	Group	Data Item	Comment
First Language	<NONE>	First Language	Identifies students who do not have a First Language recorded. Can also be used to change existing values as required.
SEN Status	Education, Health and Care Plan	SEN Provision Type	Lists students with a SEN Status of E enabling the SEN Provision to be selected.
Year Group	Year 8 (and above)	Boarder Status	Searches for all students in Year Group 8 and then displays the boarder status recorded against each student's name.

3. Select the required **Data Item** from the drop-down list, e.g. **First Language**.

4. The **Effective Date** is the date on which the membership of the group is based and defaults to today's date. In most circumstances, it is advisable to change this date to the start of the academic year because most data recorded is applicable from the start of the academic year.

04| Preparing Student Level Information

- Click the **Search** button to display the **Members** panel, which displays a list of students matching the chosen criteria and the choice of **First Language** types.

Bulk Updating Data with the Same Data Item then Editing the Exceptions

Often, the most effective way of populating missing data is to fill all the rows with the same data item and then edit the exceptions (for example, depending on the ethnic range within your school).

The following example illustrates how to set the ethnicity of all students as **English**, then edit the exceptions.

- Right-click the **English** data entry column header (hover over the heading to see the full title, if required), then select **Check All** from the pop-up menu.

Bulk Updating Data for a Selection of Students

There are two methods for selecting a number of students.

Entering a Value for a Selection of Students

- Highlight the first student you want to select, then hold down the **Ctrl** key and highlight the other required students.
- Release the **Ctrl** key and then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

Entering a Value for Sequentially Listed Students

This method can be used for assigning a value to a group of sequentially listed students. For example, clicking the **Assigned** column heading displays all unassigned student at the top of the list.

- Highlight the first student in the group, hold down the **Shift** key and then click the last student in the group (alternatively, hold down the **Shift** key and press the **Down Arrow** key).
- Release the **Shift** key, then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

Recording Leavers and Re-Admissions

Ensure that all your leavers are taken off-roll and any returning students are re-admitted.

The accuracy of student numbers can be checked by running the Population Analysis (Dated) report (**Reports | Run Report – Focus – Student**). This is a predefined report that gives a breakdown of the number of students (including numbers by gender) for each registration group in each year, together with a grand total.

Recording a Leaver

The **Date of Leaving** is collected for all schools with the exception of Nursery schools.

1. Select **Routines | Student | Leavers** to display the **Find Student(s)** browser.

2. Ensure that the **Status** of **On Roll** is selected.
3. Click the **Search** button to display a list of all on-roll students.

Name	Year Group	Reg. Group	Adm. No.	Date of Admission	Date of Leaving	Reason for Leaving	Destination	Expected Start	Grounds for Removal
Abbey, Sean	11	11B	004505	03/09/2014

Ackton, Stephen	8	8E	004990	01/09/2017					
Acton, Jordan	10	10F	004664	03/09/2015					

4. Highlight the students you wish to record as leavers, then click the **Select** button. The selected students are displayed in the **Students** panel.

Name	Year Group	Reg. Group	Adm. No.	Date of Admission	Date of Leaving	Reason for Leaving	Destination	Institution	Ex
Ackton, Stanley	12	G	004343	01/09/2013					
Ackton, Stephen	8	8E	004990	01/09/2017					
Yeo, Carys	9	9C	004983	01/09/2016					

5. In the **Leaving Information** panel, enter the **Date of Leaving** or click the **Calendar** button and select the required date.

The date of leaving should be the date that the student is actually leaving the school, unless they are transferring from Junior/Primary phase to Secondary phase because Local Authorities normally specify the dates to be used for school transfers so that they match. For example, some authorities prefer not to have any gaps between dates and may suggest a date of leaving the old school of 4 September and the date of admission into the new school (destination expected start date) of 5 September. If you are in any doubt, please contact your Local Authority for advice.

IMPORTANT NOTE: It is recommended that Year 11 students are not given a **Date of Leaving** until it is confirmed that they will actually be leaving the school at the end of the Summer term and are not returning to Year 12.

For students who stay on for Year 12, without a gap in learning from Year 11, the DfE expects their **Date of Admission** to be the same as it was when the student was in Year 11. It is also expected that no date of leaving was recorded for the end of Year 11.

6. Select the **Reason for Leaving** from the drop-down list, e.g. **Elective Home Education**, then either:
 - highlight the students to whom this information applies (for multiple selection, use the **Ctrl** or **Shift** functionality) and then click the **Assign to Selected** button; or
 - if the information applies to all the students in the list, click the **Assign to All** button.
7. Enter the **Destination after Leaving**, if known, then use the **Assign to All** or **Assign to Selected** options, as required.
8. Specify the **Destination Institution**, if known.
 - a. Click the **Browse** button (adjacent to the **Destination Institution** field) to display the **School Browse** dialog.
 - b. **Search** for, then select the relevant institution. Alternatively, click the **New** button to add a new institution.
 - c. Click the **OK** button(s) to return to the **Leaving Information** panel.
 - d. Use the **Assign to All** or **Assign to Selected** options, as required.
9. Enter the **Destination Expected Start Date** (or select the relevant date from the Calendar), then use the **Assign to All** or **Assign to Selected** options, as required.
10. If the student is a child deemed missing in education, select the **Grounds for Removal** from the drop-down list, e.g. **E - Distance**, then use the **Assign to All** or **Assign to Selected** options, as applicable.

IMPORTANT NOTE: To comply with the Children Missing in Education legislation, schools are required to record this information for all students on leaving the school.

11. Select the **Learning Aim Withdrawal Reason** from the drop-down list, e.g. **Personal**, (applicable to Secondary, All-Through and Pupil Referral Units only).

The reason for withdrawing from a Learning Aim is collected in the Autumn Return for any Learning Aim with the status of **Withdrawn**.

12. Click the **Assign to All** button or **Assign to Selected** button, as applicable.
13. Click the **Save** button.

***TIPS:** To remove a student from the **Students** list, highlight their record, then click the **Remove** button.*

*To correct details enter in error, highlight the applicable student, then click the **Clear** button. This remove the details drawn from the **Leaving Information** panel for the selected student only. Re-enter the information as required.*

*The **Learning Aim Reason** column remains populated after clicking the **Clear** button. However, the data is updated automatically if a different reason is selected and assigned.*

Completed

Re-Admitting a Student

Any student who leaves the school and subsequently decides to return must be re-admitted.

***NOTES:** Do not remove the leaving date, as the student's period of absence from the school will not be recorded.*

However, if a student is intending to leave but subsequently changes their mind and decides not to leave, the date of leaving can be removed, as continuous attendance has been maintained.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Click the **New** button to display the **Add Student** page. It is necessary to enter limited information here as you know that the person already exists.
3. Click the **Continue** button to display a list of **Matched People**, based on the criteria entered on the **Add Student** page.
4. Highlight the required student, then click the **Open** button. The following warning message is displayed:
The selected student is a leaver. Do you want to re-admit the student?
5. Click the **Yes** button if you are certain that this is the student who should be re-admitted. Their details are displayed on the **Student Details** page.
6. Complete the mandatory fields (**Date of birth, Gender, Year Group, Enrolment Status, Year Taught In** and **Admission Date**) and check any other details that may have changed since they were last on-roll, such as their address.

7. Check that the original **UPN** is displayed.
If it did not previously exist, generate a new **UPN** by clicking the button adjacent to the **UPN** field to display the **Issue UPN** dialog.
Select either the **Issue Permanent** or **Issue Temporary UPN** radio button, then click the **OK** button to return to the **Registration** panel.
The temporary/permanent UPN is issued on save.
8. Click the **Save** button to re-admit the student.

*NOTE: If the student's registration status has changed from when they were previously on-roll, their enrolment status should be changed via **Routines | Student | Change Enrolment Status**.*

Deleting Student Records Entered in Error

If there are student records that have been entered in error (such as those resulting in duplicates), ensure that the record is deleted, so that it is not included in the return. This is achieved via **Routines | Student | Delete Student**.

After selecting the required student, you have the opportunity to review and print their details before deciding to delete their record permanently.

WARNING: The deletion is irreversible; therefore a student's record must only be deleted if they have been entered in error.

If a legal change (rather than a correction) is made to the **Legal Forename, Middle Name(s)** or **Legal Surname**, a **Reason** and **Date of Change** must be recorded. A **List of Previous Names** can be viewed/edited via the **History** button.
4. If you want to prevent the selected student's data from being deleted by the Bulk Delete Student Data process, select the **Protect from Bulk Data Deletion** check box.
5. If you have made any changes, click the **Save** button.

04| Preparing Student Level Information

UPNs should be entered in the **UPN** field. Ensure that the format is valid (the field will turn red if invalid).

- **Permanent UPNs** are issued to a new student only when it is believed that they have never previously been allocated a UPN or to replace a temporary UPN.
 - **Temporary UPNs** are issued to a student when the permanent UPN is not known to the school, e.g. awaiting transfer file/applicant's information. A temporary UPN can be recognised by the letter after the UPN number, e.g. H82020010701A.
4. If necessary, issue a new UPN by clicking the **Generate UPN** button adjacent to the **UPN** field to display the **Issue UPN** dialog.

Generate UPN button

5. Select either the **Issue Permanent UPN** or **Issue Temporary UPN** radio button.
6. Click the **OK** button to return to the **Registration** panel.

The UPN is generated automatically when the record is saved and the previous UPN is displayed in the **Former UPN** field, if applicable.
7. Click the **Save** button.

NOTE: A student who is adopted after being allocated a UPN is often issued with a new permanent UPN. However, the exact process may vary depending on the circumstances and the guidance issued by your LA/DfE. For information about issuing a new UPN for an adopted child, please seek advice from your LA, if applicable.

DfE guidance is also available on the GOV.UK website (<https://www.gov.uk/government/publications/unique-pupil-numbers>).

Checking Unique Learner Numbers

Applicable to Secondary/middle deemed Secondary, All-Through (Secondary phase) and Pupil Referral Units (Secondary phase)

A Unique Learner Number (ULN) is a 10-digit identifier that is retained and stays with the student's learning record throughout their lives. Currently, this applies to students over the age of 14 involved in UK education or training.

Learning Records Service (previously known as the Managing Information Across Partners Programme) issues and maintains a ULN record for applicable students. ULNs can be obtained in one or more of the following ways:

- The DfE ULN service to upload a CTF file via a web page on the **S2S** website (<http://www.education.gov.uk/researchandstatistics/datatdatam/s2s/a0064650/school-to-school-s2s>).
- The **Learner Registration Service** Web Portal to obtain individual ULNs (<https://www.gov.uk/government/collections/learning-records-service>).
- The **Key to Success** website (<https://www.keytosuccess.education.gov.uk/>).

If available, enter a ULN for each student over the age of 14.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for, then double-click the name of the required student to display the **Student Details** page.

3. In the **Registration** panel, check the content of the **Unique Learner Number** field. Enter the 10-digit identifier, if not currently displayed.

*NOTE: The **UCI** (Unique Candidate Identifier) and **Exam Number** information is read only. The fields are populated with data held in Examinations Organiser.*

4. Click the **Save** button to save any changes, if applicable.

Checking Student's Part-Time Details

Part-time details apply mostly to Nursery schools (or schools with nursery age children) and Primary schools with Reception years. However, any student can be marked as part-time if their attendance is anything less than 10 sessions per week.

For dual registered students, time in other schools should be taken into account. For example, three full days in one school and two full days in another school should not be classified by either school as part-time.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for, then double-click the name of the required student to display the **Student Details** page.
3. Navigate to the **Registration** panel.

Checking National Curriculum Year Groups

The National Curriculum Year Group (Year Taught In) is the year group in which the student is taught for the majority of the time, regardless of their chronological age. In most cases, this will be the same as the Year Group. However, some children are taught in the year above or below the expected year (based on their age), perhaps because they are academically advanced or behind. It is very important that the correct **Year Taught In** has been recorded in SIMS.

For the School Census Summer 2019 Return, the collection data uses the Age at Date as at 31/08/2018.

The following table shows the Curriculum Year that students in England are expected to be taught in (**Year Taught In**), according to their date of birth (during the academic year 2019/2020). This table is provided for reference only.

Year Taught In	Date of Birth Range	Age Range

There are three ways to check a student's curriculum year and date of birth in SIMS:

- Via individual student records (**Focus | Student | Student Details**).
- Via the pastoral structure by curriculum year (**Focus | School | Pastoral Structure | Current Structure**).
- Via the pastoral structure for the whole school (**Focus | School | Pastoral Structure | Current Structure**).

Checking Home Address Information

A student's current home address is required for the return. Where a student has multiple current addresses, details of all addresses should be recorded.

All aspects of the address are collected and therefore all address details should be recorded to avoid validation errors. It is particularly important to check that a **House Name** or **House Number** and a **Post Code** are entered in the correct fields.

Post codes must be entered in the correct format. A validation error is generated if a post code has not been entered (although it is understood that in some instances, such as Traveller children, a post code is not available).

The Unique Property Reference Number (**UPRN**) is a unique identifier that links together related address records across different software programmes. This enables organisations to collate and share information based on a common reference number.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for, then double-click the name of the required student to display the **Student Details** page.
3. In the **Addresses** panel, check that the **Post Code** and **House Number/Name** exist and that they are valid.

These details can be checked by clicking the **Address** button to launch the selected mapping website (specified via **Tools | Setups | User Options**), where a map of the area surrounding the address is displayed.

NOTE: British Forces Post Office numbers can be added as post codes.

4. If the Unique Property Reference Number (**UPRN**) is not displayed below the **Current Home Address Details**:
 - a. Click the **Validate** button to display the **Find Matching Addresses** dialog.
 - b. Highlight the required address, then click the **OK** button to return to the **Addresses** panel, where the **UPRN** is displayed below the address.
5. If you have edited the address, click the **Save** button.
6. If the student has an additional current address, i.e. a **Second Home**, enter the additional address and then click the **Continue** button (adjacent to the address) to display the **New Address Details** panel.
7. Enter the remaining address details and the **Address Type**, then click the **Save** button to refresh the display.

Checking Free School Meals Eligibility

Only students who have been approved by the LA to receive a free school meal should be recorded in SIMS as being eligible. It is advisable to check that all eligible students are recorded.

Free school meal guidance for schools and Local Authorities is available from the GOV.UK website

(<https://www.gov.uk/government/publications/free-school-meals-guidance-for-schools-and-local-authorities>).

The following free school meal eligibility related data is collected in for the return:

- **Start Date**
- **End Date** (if known)

The DfE does not expect free school meal (FSM) end dates to be entered by schools during the transitional period to universal credit. There are exceptions to this expectation; the DfE states:

- where a parent has been informed of the FSM protection and they have still indicated that they do not wish the child to be recorded as FSM eligible and receive a free school meal. This should not be confused with a parent's request to end a free school meal claim with a change in their circumstances which are now protected;
- where a student transfers from another UK country – their non-English FSM must have an FSM end date;
- claimants who qualify through support under the Immigration & Asylum Act 1999 or the guarantee element of the Pension Credit, their benefit(s) will not be replaced by universal credit and therefore the student's FSM entitlement will not be protected. They will only be entitled to a free school meal as long as they retain the benefit. In such cases where the parent has notified the school that these benefits have ended an FSM end date should be recorded.

For more information about FSM end dates, please refer to the *School census 2018 to 2019* guide, which is available on the DfE website (<https://www.gov.uk/government/publications/school-census-2018-to-2019-guide-for-schools-and-las>). Search the document for FSM end dates.

- **UK Country** in which the eligibility applies.

Meal Patterns are not required for the return but can be recorded for information purposes only. It is perfectly acceptable, for example, for a student to be eligible for free school meals, but to bring sandwiches (**PL** (packed lunch)) or to go home (**HO** (home)).

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.

Checking Ethnic and Cultural Information

The following ethnic and cultural information is collected in the return:

First Language

- A First Language other than English should be recorded where a student was exposed to the language during early development and continues to be exposed to this language at home or in the community.
 - If the child was exposed to more than one language (which may include English) during early development, the language other than English should be recorded, irrespective of the student's proficiency in English.
1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
 2. Search for, then double-click the required student to display the **Student Details** page.
 3. Navigate to the **Ethnic/Cultural** panel.

4. Select the student's **First Language** from the drop-down list, click the **Save** button.

TIPS: It is possible to bulk update **Ethnicity** and **First Language** for a selected group of students by selecting the relevant option from the **Data Item** drop-down list via **Routines | Student | Bulk Update**.

Home language is no longer collected in the School Census. Users with School Administrator permissions can remove the **Home Language** field from the **Student Details** and **Application** pages, if required. This is achieved by selecting the **Hide Home Language** check box in the **School Options** panel via **Tools | Setups | School Options**.

Home language is always included in CTF imports, CTF exports and the Reporting Dictionary, even if it is not displayed on the **Student Details** and **Application** pages.

- **Learner Support Code**, e.g. Post 16 Bursary of Vulnerable Group Bursary Awarded, Discretionary Bursary Awarded, etc. for 16 to 19 year olds
- **Service Children in Education** information.

The Bulk Update routine can be used to assign and edit these values for a specific selection of students at the same time, if required (please see *Updating Information Using the Bulk Update Routine* on page 24).

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for, then double-click the required student to display the **Student Details** page.

Preparing Termly Attendance Information

Termly attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder students and leavers aged four to 15 inclusive on 31/08/2018, who were on-roll for at least one session during the collection period from 01/01/2019 to 21/04/2019.

The attendance data collected in this return includes:

- Attendance Codes (i.e. the reasons for absence)
- Number of Sessions Missed.

If you use SIMS Attendance or SIMS Lesson Monitor, attendance data is entered in the return automatically, provided there are no missing marks.

IMPORTANT NOTE: *If you use SIMS Attendance or SIMS Lesson Monitor, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the School Census Return.*

If you do not use SIMS Attendance or SIMS Lesson Monitor and you do not use a software package that writes back to the SIMS database, or if you have not converted to the code of practice for attendance codes, you need to calculate and enter the following information manually on the **Census Details** page (via **Routines | Statutory Returns | School Census**):

- Possible Sessions
- Sessions Missed due to Authorised Absence
- Sessions Missed due to Unauthorised Absence.

For information and advice about school attendance, please refer to the DfE website

Updating Students Post Looked After Arrangements

Post Looked After Arrangements (previously named Adopted from Care) is collected for students who are on-roll on census day and the information is then used for funding purposes.

The values available for selection enable schools to indicate which students were looked after immediately before adoption or prior to being the subject of a residence or special guardianship order. However, those who have parental responsibility are not obliged to provide this information to the school.

04 | Preparing Student Level Information

1. Select **Tools | Statutory Return Tools | Update Post Looked After Arrangements** to display the **Update Students Post Looked After Arrangements** page.

- **Main-Dual Registration** - this status indicates that the student is registered at another school for some of their timetable, but the majority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.
- **Subsidiary-Dual Registration** - this status indicates that the student is registered at another school for the majority of their timetable and only a minority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.

05| What Next?

After carrying out the preparation routines documented in this guide, ensure that any subsequent changes at your school (e.g. student basic detail changes, SEN provisions changes, leavers and admissions/re-admissions, etc.) are recorded accurately in SIMS.

The SIMS 2019 Spring Release (7.186) must be installed before completing the School Census Summer 2019 Return. However, it is advisable to check whether a later version of SIMS is available and then upgrade to the current release, if necessary, as it may include updates applicable to the forthcoming return.

You should now be ready to produce the final School Census Summer 2019 Return.
