Overview

This handbook provides the information needed by Pupil Referral Units in England to complete the School Census Summer 2019 Return, which takes place on Thursday 16 May.

The School Census Summer Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, Pupil Referral Units (PRUs), City Technology Colleges (CTCs) and Academies (including free schools) in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Autumn, Spring and Summer), which collect detailed information about school characteristics and pupil/student details, e.g. pupil/student address, free school meals, exclusions, etc. Different data is collected depending on which return is being prepared, and your school phase.

A list of items collected from Pupil Referral Units in England for the School Census Summer 2019 Return is available in a later section of this handbook (please see *Preparing Data for the School Census Return* on page 6).

NOTE: The content of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.

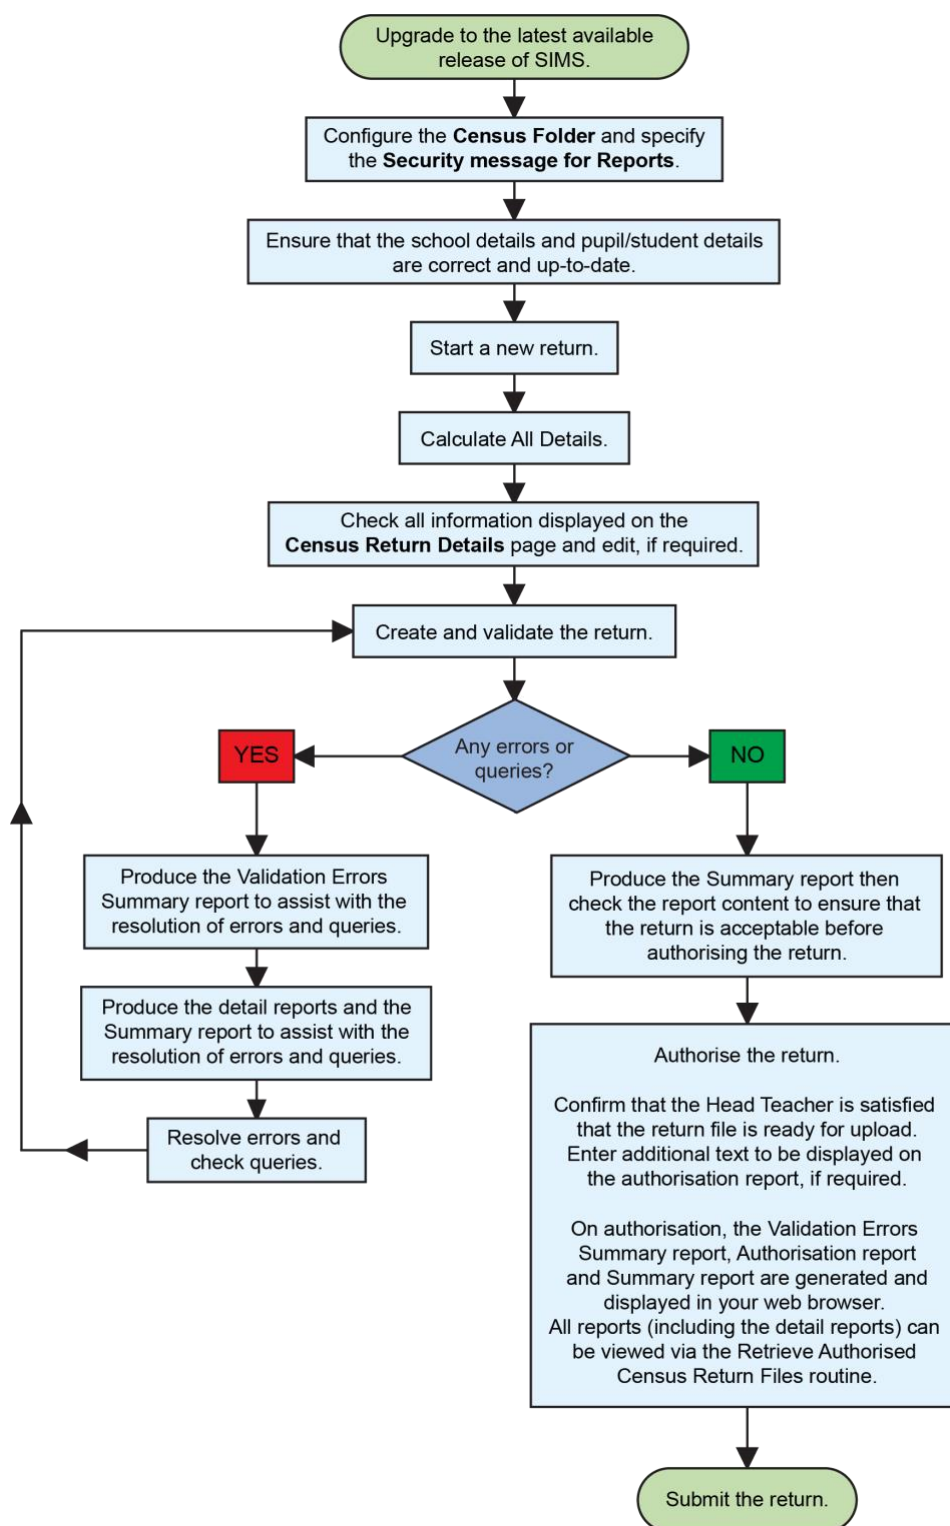

How has the School Census Summer Return Changed?

Changes to the School Census Summer Return include the following:

- Census date 16/05/2019
- Attendance collected from 01/01/2019 to 21/04/2019
- Exclusions collected from 01/09/2018 to 31/12/2018
- Free School Meal Eligibility collected from 18/01/2019 to 16/05/2019
- Learner Support collected from 01/08/2018 to 16/05/2019.

Steps to Producing the School Census Return

The process of producing the School Census can be separated into a number of steps, some of which might need to be repeated to eliminate validation errors and queries.

Where to Find More Information

Online help can be accessed by pressing **F1** or clicking the applicable **Help** button in SIMS.

A wide range of documentation is available from the SIMS **Documentation Centre**, including handbooks, quick reference sheets and tutorials. Click the **Documentation** button (located on the top right-hand side of the SIMS **Home Page**), select the required category and then select the document you require. Alternatively, use the **Search** facility to locate the required document.

Setting SIMS Permissions.....	5
What Version of SIMS is Required?	5
Preparing Data for the School Census Return	6

Setting SIMS Permissions

The following permissions are applicable to users who deal with returns.

Running the Return

To run the return, you must be a member of one of the following user groups in System Manager:

- Returns Manager
- Returns Operator.

Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. pupil/student details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see *Where to find More Information about Permissions* on page 5).

Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS), to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the *Managing SIMS Users, Groups and Databases* handbook.

What Version of SIMS is Required?

To run the return, you must have the SIMS 2019 Spring Release (7.186) or later installed.

To check which version of SIMS is installed, open SIMS and then select **Help | About SIMS**. A dialog similar to the one shown in the following graphic is displayed.

The version should read 7.186 or later.

Preparing Data for the School Census Return

Before beginning the process of producing the return, it is advisable to spend time ensuring that all school level and pupil/student level information is present and accurate in SIMS. For example, ensure that school details are correct, all new pupil/students have been added to SIMS, all leavers have been recorded and where applicable all exclusions have been recorded, etc.

The following information is collected from Pupil Referral Units for the School Census Summer 2019 Return.

Creating a New School Census Return

Before creating a new return, ensure that all pupil/student and school information is present and accurate in SIMS.

The School Census Summer 2019 Return collects data for:

- all pupil/students on the register on census day (16/05/2019).
- any additional pupil/students not on-roll on census day who:
 - had an exclusion that started between 01/09/2018 and 31/12/2018.
 - were on-roll for at least one session during the collection period from 01/01/2019 and 21/04/2019.
 - were awarded Learner Support funding from 01/08/2018 to 16/05/2019.

It is possible to create more than one return, enabling you to carry out dry runs so that you can check what data needs to be added or updated. Any unwanted returns can be deleted (providing they have not been authorised).

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

*NOTE: The first time that **Routines | Statutory Returns | School Census** is selected during each SIMS session, there is a delay while the School Census files are loaded.*

When the files are loaded, the **Census Return** browser is displayed.

By default, **Summer 2019** is displayed in the **Term** field.

***TIP:** To view a previous term (in the current academic year), select from the **Term** drop-down list, then click the **Search** button.*

2. Ensure that the correct **Census Folder** is configured and that the required **Security message for Reports** is specified as described in the following sections.

More Information:

Specifying the Security Message for Reports on page 11

Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

IMPORTANT NOTES: Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (<https://www.gov.uk/service-manual/technology/securing-your-information>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (<https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr>).

1. Specify the folder where the return files are to be stored by entering the folder location in the **Census Folder** field.

Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

Browse button

Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button and enter a suitable name for the new folder.

2. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.

IMPORTANT NOTE: *If you are changing the location of the folder, ensure that only authorised personnel have access to the new folder, as it will contain sensitive data. For more information, please see the important note at the beginning of this section.*

3. Ensure that the **Security Message for Reports** is appropriate for your school.

Specifying the Security Message for Reports

At the bottom of the browser is a **Security Message for Reports** field, which contains text that will be displayed at the top of each report.

1. The security message text defaults to **This report contains sensitive information**, but can be edited, if required.
2. If any edits are made, you can click the **Default Message** button to revert to the default text.
3. Click the **New** button to display the **Census Return Details** page.

Editing Census Details

The **Census Details** panel displays the following read-only information:

- Census Date: 16/05/2019
- Attendance data collected from 01/01/2019 to 21/04/2019
- Exclusions data collected from 01/09/2018 to 31/12/2018
- FSM (Free School Meal) data collected from 18/01/2019 to 16/05/2019
- Learner Support data collected from 01/08/2018 to 16/05/2019.

By default, the return **Description** is displayed as **School Census Summer 2019**.

1. Check the return **Description** and then edit, if required, e.g. to identify a dry run.

WARNING: Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.

*A unique description also helps to identify the required return when viewed in the **Census Return** browser and can be particularly useful when creating dry runs, or copies of existing returns.*

2. Click the **Calculate All Details** button.

Calculating All Details

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

IMPORTANT NOTE: You must calculate all details at least once to populate the various panels for each return.

*Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.*

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.

A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.

2. Click the **Yes** button to calculate all details.

At this point, depending on the number of pupil/students in the school, there might be a short delay while details are calculated.

The applicable panels on the **Census Return Details** page are then populated with data.

3. The return can be saved at any point by clicking the **Save** button.

Editing School Information

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | Pupil** (or **Student**) | **Pupil** (or **Student**) **Details**). The information displayed might vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended, if necessary, via the **School Detail** button.

 A screenshot of the "School Information" panel in the SIMS system. It displays various fields for school details:

- School Name: Green Abbey School
- LA: 823 Establishment Number: 1149
- Telephone: 851234
- School E-mail Address: office@ga.org.uk
- School Phase: PR (Pupil Referral Unit (PRU))
- School Type: LA Maintained PRUs
- Governance: Community Intake Type: Comprehensive
- Lowest NC Year: 7 Highest NC Year: 13

 At the bottom right, there is a button labeled "School Detail".

03| Producing the School Census Summer Return

1. If any details are missing or incorrect, click the **School Detail** button to display the **School Detail** dialog, where information applicable to your school is displayed.

The screenshot shows the 'School Detail' dialog box in the SIMS software. The title bar reads 'SIMS School Detail'. The main heading is 'School Details - Green Abbey School'. Below this is a menu bar with 'Save' and 'Undo'. A tabbed interface shows '1 Establishment' as the active tab, with other tabs for '2 Address', '3 Contact Details', '4 Sites', '5 Documents', and '6 Childcare'. A 'Help' button is in the top right. The 'Establishment' tab contains various input fields: 'School Name' (Green Abbey School), 'LA' (823 Central Bedfordshire), 'Establishment Number' (1149), 'Unique Reference Number' (012345), 'UK Provider Reference Number' (empty), 'School Phase' (Pupil Referral Unit (PRU)), 'School Type' (LA Maintained PRUs), 'School Governance' (Community), 'Intake Type' (Comprehensive), 'Previous School Name' (empty), 'Previous Estab Number' (empty), 'Previous URN Number' (empty), 'Boarding Pupils' (checkboxes for Nursery Class and another empty checkbox), 'Head Teacher' (Mr Adrian Blacker), 'Date Name Changed' (empty), 'Earliest DOA' (empty), 'Date Number Changed' (empty), 'Special Class or Unit' (checkbox), and 'Main Contact' (Mr Adrian Blacker). There are also buttons for search and delete for several fields. A preview image of a school building is shown with the text 'Pupil Referral Unit' below it. At the bottom are 'OK' and 'Cancel' buttons.

2. Add or amend the school details, selecting from the drop-down lists where applicable.

NOTE: The **School Name**, **LA** number, **Establishment Number**, **School Phase** and **Curriculum Years** were set up when SIMS was installed. If any of these details are incorrect, please contact your Local Support Unit for assistance.

3. Ensure that the establishment's six digit **Unique Reference Number** (URN) is entered. The number is available via the Get information about schools website (<https://get-information-schools.service.gov.uk/>), which is a register of schools and colleges in England.
4. Click the **Save** button, then click the **OK** button to return to the **Census Return Details** page, where the updated details are displayed.

Academies should also ensure that the following information is recorded, if applicable:

- The **School Type** and **School Governance**.
Select **Academies** from the applicable drop-down lists.
- The **Previous Name** and **Date Name Changed**.
- The **Previous Estab Number** and **Earliest DOA** (date of admission).
This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected and the earliest date of admission is reported in the School Census.
- The **Previous URN Number** (used by other census returns) and **Date Number Changed**.
This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

Managing Early Years Data

Applicable to schools with Early Years children only

The early years data collected in the School Census is used to determine the amount of the dedicated schools grant (DSG) allocation provided to local authorities to fund their early years providers.

More information about the early years national funding formula (allocations and guidance) is available on the GOV.UK website (<http://www.gov.uk/government/publications/early-years-national-funding-formula-allocations-and-guidance>).

Editing Early Years

Early Years data is collected from all schools that have early years pupil/students on-roll on census day. The following items are collected:

- Hours at Setting
- Funded Hours
- Disability Access Fund
- 30 Hour Code
- Extended Funded Hours.

NOTE: Disability Access Fund, 30 Hour Code and Extended Funded Hours are not collected in the census for pupil/students aged two at 31/03/2019.

Funded Hours and Hours at Setting

Funded hours are the total number of free child care hours that a child receives. All three and four year old pupil/students are eligible for 15 hours funded child care a week. Advice about the eligibility of two year old children for funded child care can be found on the DfE website

(<https://www.gov.uk/help-with-childcare-costs/free-childcare-2-year-olds>).

Hours at Setting include funded free entitlement hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

Date of Birth Ranges	School Type and NC Year Group	Funded Hours Maximum Entitlement
01/09/2014 to 31/03/2017 inclusive	All relevant schools and year groups.	15 hours for pupil/students where 30 Hour code is present
01/09/2013 to 31/08/2014 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only.	15 hours for pupil/students where 30 Hour code is <u>not</u> present

Disability Access Fund

The Disability Access Fund (DAF) is payable as a lump sum once a year and awarded to three and four year old pupil/students who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA) and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupil/students who are in receipt of the fund on census day.

Date of Birth Ranges	School Type and NC Year Group
01/09/2014 to 31/03/2016 inclusive	All relevant schools and year groups.
01/09/2013 to 31/08/2014 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only.

Extended Funded Hours and 30 Hour Code

Extended Funded Hours are the number of hours that a child can receive in addition to the initial 15 funded hours. Extended Funded Hours are applicable to three and four year old pupil/students only.

Extended Funded Hours can double the original 15 hours of free child care to 30 hours a week, i.e. 15 funded free entitlement hours + 15 extended entitlement hours = 30 hours, provided that the following criteria are met:

- Both parents must be working (or the sole parent is working in a lone parent family) and live in England.
- Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.
- Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a unique code from the Tax Office (HM Revenue & Customs), then provide it to the school, together with other details, to confirm their eligibility for extended child care hours.

The 11 digit **30 Hour Code** and the number of extended funded hours are collected in this return for the week in which the census day falls.

Date of Birth Ranges	School Type and NC Year Group	Extended Funded Hours Maximum Entitlement
01/09/2014 to 31/03/2017 inclusive	All relevant schools and year groups.	15 hours
01/09/2013 to 31/08/2014 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only.	15 hours

Extended Funded Hours information provided by the DfE can be found on their website

(<https://www.gov.uk/government/publications/30-hours-free-childcare-la-and-early-years-provider-guide>).

Recording Early Years

The required data can be recorded:

- via the **Edit** button in the **Early Years** panel
- via **Tools | Statutory Returns Tools | Update Early Years - Update Early Years** page. The data in the **Early Years** panel must be refreshed by clicking the **Recalculate** button after using the Update Early Years routine.

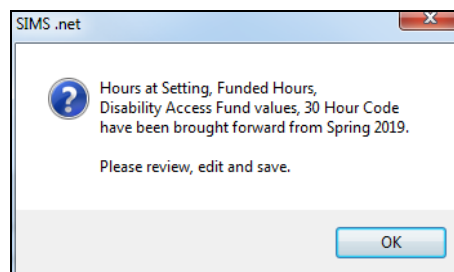

03| Producing the School Census Summer Return

If data has been recorded previously, the values are displayed in the read-only **Early Years** panel. Only cohorts applicable to your school are displayed.

NOTE: Although SIMS allows schools to enter **Disability Access Fund**, **30 Hour Code** and **Extended Funded Hours** for pupil/students aged 2 at 31/03/2019, this information is not included in the return file because it is not required by the DfE. SIMS do not enforce such DfE rules in the user interface because this is a relatively complex task and experience has shown that such rules can change at short notice.

1. In the **Early Years** panel, click the **Edit** button to display a message informing you that data has been brought forward from the previous census.

2. Click the **OK** button to display the **Update Early Years** page. By default, the current term is displayed in the **Census** panel.

Primary phase schools that have defined Early Years Attendance Patterns (via **Focus | Pupil | Pupil Details**) for pupil/students who are receiving free nursery care can update Hours at Setting automatically.

- a. Click the **Update Hours** button (applicable to Primary phase schools only).

The number of Hours at Setting that the listed pupil/students are expected to attend during the census week (based on the early years provision times recorded as part of their attendance pattern) are displayed in the **Pupils** panel.

- b. Edit the values, if required.

NOTE: If your school does not use the Define Early Years Attendance Patterns functionality, the data can be entered in the grid manually.

3. To add or edit the number of **Hours at Setting**, **Funded Hours** and **Extended Funded Hours** for an individual pupil/student, select the required criteria in the **Pupils View** panel.

In the **Pupils** panel, highlight the required pupil/student, click the applicable cell and then enter the required number of hours.

IMPORTANT NOTES: Values for **Funded Hours**, **Hours at Setting** and **Extended Funded Hours** should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.

If the value entered is within the range accepted by SIMS but is higher than what the DfE expects, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

4. If most of the pupil/students are receiving the same number of hours, the following method can be used to populate the column quickly:
 - a. In the **Pupils View** panel, select the required year group from the Year Taught In (**YTI**) drop-down list. The selected pupil/students only are displayed in the **Pupils** panel.
 - b. Right-click in the **Pupils** panel, then select **Select All** from the drop-down list.
 - c. Click in one of the highlighted cells of the column you wish to populate, i.e. **Hours at Setting**, **Funded Hours** or **Extended Funded Hours**, then enter the number of hours that is applicable to the majority of pupil/students.

This number is then entered automatically for all the selected pupil/students.

- d. Click to the right of the grid to deselect all.

If the pupil/students with top-up funding have been recorded previously via **Tools | Statutory Return Tools | Update Top-Up Funding**, the data is displayed in the **Top-up Funding** panel.

Editing Pupil/Student Post Looked After Arrangements

The Post Looked After Arrangements routine provides schools with the ability to record whether pupil/students who are on-roll on census day were looked after immediately before adoption or prior to being the subject of a residence or special guardianship order.

Managing School Dinners Taken on Census Day

Applicable to schools with pupils in Reception, Year 1 and Year 2

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the local authority. The School Census Summer 2019 Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

The **School Dinner Taken** panel displays all pupils in Reception, Year 1 and Year 2 who are on-roll on census day. The options available in the panel enable you to record pupils who have taken a Universal Infant School Meals on census day, so that accurate data can be included in the census.

*NOTES: The **Reference Date** is provided so that your school can report school dinners taken on an alternative date to census day, if required.*

*The pupils listed in the **School Dinner Taken** panel are those who are on-roll on census day. Whereas the data calculated via the **Calculate From Attendance** and the **Calculate From Dinner Money** buttons is based on the reference date.*

If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both of these modules are not in use, the applicable **Calculate From** button(s), as displayed in the following graphic, are not displayed but the information can be recorded manually.

The screenshot shows the 'School Dinner Taken' form. Callout 1 points to the 'Reference Date' field (16/05/2019). Callout 2 points to the 'Group By' dropdown menu. Callout 3 points to the 'Calculate From Attendance' button. Callout 4 points to the 'Calculate From Dinner Money' button. Callout 5 points to the 'Reset' button. Callout 6 points to the 'Total Taken' and 'Total Not Taken' fields at the bottom right.

Using Dinner Money to Calculate School Dinners Taken on Census Day

If SIMS Dinner Money is in use, the Dinner Money data recorded for census day can be used to calculate the number of school dinners taken on census day.

Many users of SIMS Dinner Money also use SIMS Attendance. If this is the case the **Calculate From Attendance** button is also displayed.

However, it is recommended that the Calculate From Dinner Money routine is used in the first instance. This is because the Calculate From Attendance routine looks at all pupils with a present or late attendance mark on census day morning. These pupils could be taking any sort of meal on census day, e.g. going home for lunch, pack lunch brought from home, as well as meals provided by the school. The School Census return is only interested in school meals provided by the school.

SIMS Dinner Money takes into account these different meal types and populates the **School Dinner Taken** column with ticks where meals provided by the school only have been taken.

1. Click the **Calculate From Dinner Money** button.

WARNING: Clicking the **Calculate From Dinner Money** button overwrites all existing data in the **School Dinner Taken** panel.

If SIMS detects missing information, the following message is displayed:

Dinner Money information is incomplete. Please ensure that meals are recorded in Dinner Money.

2. Click the **Cancel** button to return to SIMS where the missing information can be entered or the **OK** button to continue.

A tick is entered against each pupil who is receiving any type of meal provided by the school on census day. These meals have a meal type category of **School Provided**, with a description such as hot school meal or school sandwich.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Attendance to Calculate School Dinners Taken on Census Day

The School Census Return only requires information about school meals provided by the school on census day. However, if SIMS Attendance is in use, the attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner.

The information calculated from attendance can be edited to so that school meals provided by the school only are collected in the return.

1. Click the **Calculate From Attendance** button.

WARNING: Clicking the **Calculate From Attendance** button overwrites existing data in the **School Dinner Taken** panel.

If missing marks exist, a message is displayed:

Please ensure that registers have been taken. Missing marks have been interpreted as absent and no dinner taken.

2. Click the **Cancel** button to return to SIMS where missing marks can be entered or the **OK** button to continue.

A tick is entered against each pupil who is marked as present on census day morning (i.e. AM session). It is possible that some of these pupils are not taking meals provided by the school, e.g. they go home for dinner or bring a packed lunch from home. Meals provided by the school only are required for the return.

Use the **Group By** functionality to group pupils by **Year Taught In, Reg Group** or **Enrolment Status**, enabling school dinners taken information to be updated from class lists, etc.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Manual Entry to Record School Dinners Taken on Census Day

If your school is not using SIMS Dinner Money or SIMS Attendance the number of school dinners taken on census day (i.e. meals provided by the school) can be entered manually.

1. Click the **Tick All** button to populate the **School Dinner Taken** column. All pupils are ticked indicating that they received a school dinner on census day.
2. Edit individual records by clicking the applicable **School Dinner Taken** cell to toggle between a tick and blank (no meal taken).

Entering Attendance Information

Termly attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder pupil/students and leavers aged four to 15 inclusive on 31/08/2018, who were on-roll for at least one session during the collection period from 01/01/2019 to 21/04/2019.

Initially the **Attendance** panel is blank. However, after clicking the **Calculate All Details** button (located in the **School Information** panel) the display changes.

IMPORTANT NOTE: Clicking the **Calculate All Details** button overwrites any edited data, in every panel, with the original data stored in SIMS. Do not use this button if you wish to keep any changes you have made.

The information displayed in the **Attendance** panel (after the **Calculate All Details** button is clicked) is dependent on which of the following is applicable:

- SIMS Attendance/Lesson Monitor is in use, the attendance codes being used are DfE compliant and there are either:
 - no missing marks
 - or
 - missing marks.
- SIMS Attendance/Lesson Monitor is in use and the attendance codes being used are DfE non-compliant.
- SIMS Attendance/Lesson Monitor is not in use.

SIMS Attendance/Lesson Monitor Users

If SIMS Attendance/Lesson Monitor is in use, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the return.

TIP: After the Create and Validate process is run, the Attendance detail report can be used to assist with the checking of attendance data. Select **Attendance Report** from the **Detail Report** drop-down list.

Are your Attendance Codes DfE Compliant?

If Attendance/Lesson Monitor is in use and your school is using DfE compliant attendance codes, attendance data is entered directly into the return, providing that there are no missing marks.

If all attendance marks have been entered in Attendance/Lesson Monitor, the following message is displayed in the **Attendance** panel, informing you that your attendance codes are DfE compliant but will be rechecked at the Create and Validate stage.

5 Attendance

Your attendance codes are DfE compliant
This will be rechecked at the Create & Validate stage

However, if any missing attendance marks are detected, the following message is displayed in the **Attendance** panel, requesting that you add the missing attendance marks.

Creating and Validating the School Census Return

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

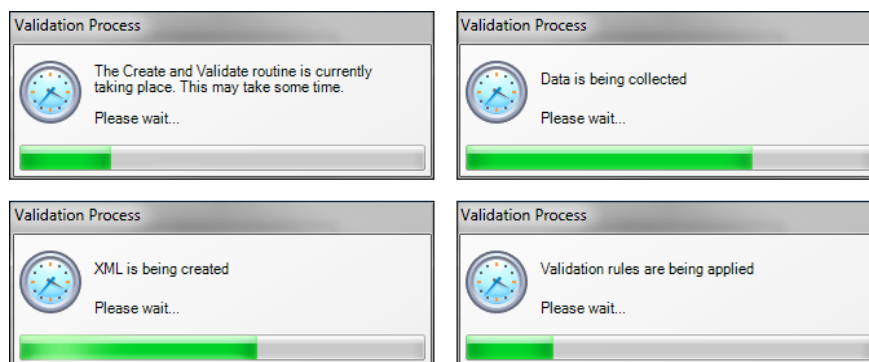

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data that is unusual or not as expected, e.g. there are no pupil/students showing as having special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to start the process. There may be a short delay, depending on the number of pupil/students at your school.

04| Completing the School Census Summer Return

A progress bar is displayed, indicating that the Create and Validate process is being performed.

If any attendance codes are not DfE compliant, a dialog similar to the following graphic is displayed, informing you which code(s) must not be used.

The lack of compliance must be dealt with before the Create and Validate process can be performed. Please contact your Local Support Unit for assistance.

If there are any missing attendance marks, the following message is displayed, enquiring whether you wish to continue with the Create and Validate process.

Click the **Yes** button to continue creating and validating the data.

Alternatively, click the **No** button to cancel the process, then use the Deal with Missing Marks routine (**Focus | Attendance** (or **Lesson Monitor**) | **Deal with Missing Marks**) to locate the missing marks and enter the appropriate attendance codes.

For more information, please refer to the *Managing Pupil/Student Attendance* handbook or the *Monitoring Session and Lesson Attendance* handbook.

When the validation process is complete, the **Validation Errors Summary** panel is displayed at the bottom of the screen.

The number of errors and queries found during the Create and Validate process is displayed in the header of the **Validation Errors Summary** panel.

Details about each of the errors and queries found are displayed in the columns as described in the following table.

Column	Description
Type	Displays the type of validation rule: Failure (F displayed in red) indicates an error, which must be corrected. Query (Q displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.
Sequence	Shows the error or query number.
Message	Displays the text of the error or query message.
Location	Lists the specific record containing the error or query.
Solution	Provides a suggestion on how the error can be corrected or the query checked. Many solutions have a hyperlink (indicated by a #) to the appropriate area of SIMS.

To assist in the resolution of any errors and queries:

- When the mouse pointer is hovered over a **Message**, **Location** or **Solution** cell, hover help displays the entire content of that cell.
- When the mouse pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the issue can be checked.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures, which is particularly useful if there are a large number of errors/queries, by clicking the **Report** button (located at the left-hand side and directly above the **Validation Errors Summary** panel). The report is displayed in your web browser, e.g. Internet Explorer®, where it can be printed or transferred to another application, if required (please see *Transferring Report Data to a Spreadsheet* on page 43).

The report (Validation Errors Summary.HTML) is saved automatically in the **Census Folder**, which was specified previously in the **Census Return for <season> <year> Term** browser. The original report, which was generated when the **Create & Validate** button was clicked (e.g. <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil (or Student) | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Each detail report header displays the **Security Message** that was defined in the **Census Return** browser, the **Report Criteria** and the **Total Pupil** (or **Student**)s who are listed in the report. Also included in the report header is the **School Name**, the **Fileset Number**, the **Filename**, the **Report Created** date, and the **XML Version**.

Where a pupil/student's National Curriculum Year group is different from what their date of birth would suggest, the applicable **YTI** cell is highlighted in yellow.

The following reports are currently available.

Printing a Report from your Web Browser

IMPORTANT NOTE: Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include, for example, instructions for the destruction of the printed reports.

1. With the generated report displayed in your web browser, select the **Print** option (**Ctrl+P**) to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

Transferring Report Data to a Spreadsheet

Transferring a report to a spreadsheet application enables the data to be sorted, the column order to be changed, etc.

With the generated report displayed in your web browser, right-click the report and then select the required option, e.g. **Export to Microsoft Excel**, from the drop-down list.

IMPORTANT NOTE: The spreadsheet contains the same level of sensitive information as the original HTML report from which the information was transferred. Therefore, the spreadsheet file must be saved to a folder with the same level of security.

Deleting Temporary Web Browser Files

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on your machine, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the PC in the temporary directory, where they are not secure because they can still be accessed.

When this process is performed, all temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.

To clear the cache, open your web browser then clear the browsing data history via Settings. For more information, please refer to the documentation applicable to the web browser you are using.

Producing the Summary Report

The Summary report enables the school staff, who are involved in the return's preparation, to assess the accuracy and completeness of the return data. It should then be passed to the Head Teacher for their review.

NOTE: When the return is authorised, the Summary report is automatically generated and displayed in your web browser.

Generating the Summary Report

When the return is authorised, the Summary report is automatically generated and displayed in your web browser. However, the report can be run at any time after the return is created and validated.

Click the **Summary** button located at the top of the **Census Return Details** page. The report is automatically displayed in your web browser but can be transferred to a spreadsheet, such as Microsoft® Excel, if required.

The report is saved automatically in the folder specified in the **Census Return** browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that consists of the following data fields separated by underscores ('_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_Summary_Report.html.
```

For example: 8231149_SC2_823LL19_001_Summary_Report.html.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA/DfE might request a copy of the Summary report (which is automatically generated when the return is authorised) to be signed by the Head Teacher and sent to the LA/DfE when the return has been authorised.

Editing an Unauthorised Return

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

IMPORTANT NOTE: An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct, then click the **Search** button to display any previously created returns. Unauthorised return files can be recognised by their .UNA suffix.
3. Double-click the required return. Alternatively, highlight the required return, then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.

5. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
6. Run the detail reports and Summary report and then use the information they provide to assist with resolving errors and queries.
7. Repeat the editing and Create & Validate process again, if necessary.
8. Click the **Save** button.

Authorising the Return

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school). If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy, or create a new return.

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The Summary report can assist in reviewing the information.

1. Click the **Authorise** button.

If missing marks exist, the following message is displayed.

2. Click the **Yes** button to continue with the authorisation process or the **No** button if you want to return to SIMS where the missing marks can be entered.

If you choose to continue, a message reminds you that the return cannot be edited once it is authorised.

3. Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

04 | Completing the School Census Summer Return

If you choose to continue, the **Head teacher authorisation** dialog is displayed.

4. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.
5. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

6. Click the **Continue** button to authorise the return.
 - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.
 - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
 - All reports (including detail reports) and the XML file, are saved in the **Census Folder**, which was specified previously in the **Census Return for Summer 2019 Term** browser.

All reports can be viewed using the Retrieve Authorised Census Return Files routine (via **Tools | Statutory Return Tools**). This routine also provides the opportunity to download the files to a different folder.

IMPORTANT NOTE: The retrieved files contain sensitive information. Ensure that authorised personnel only have access to the download folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

Submitting the Return

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the .XML file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

Guidance about how Local Authorities, schools and academies should submit school census data is available on the GOV.UK website (<https://www.gov.uk/guidance/school-census>).

The authorised return file is located in the folder previously specified in the return browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

IMPORTANT NOTE: *An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.*

Retrieving Authorised Census Return Files

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the files **Download to** the folder specified in the census browser. To specify a different folder:
 - a. Click the **Select a Folder** button (...) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

IMPORTANT NOTE: *Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

- b. Click the **OK** button to select or create the folder then return to the **Retrieve Authorised Return Files for <census name>** page where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.

5. The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node). Three options are available for selection under this sub-report: **Authorised Date**, **File Name** and **Return Description**.

The screenshot shows the 'Select Data Area' window on the left, where 'Student' is selected under the 'People' category. Below it is a 'Report Summary' section with fields for Report Name, effective date (02/02/2016), and various options like 'Data area: Student', 'Filter Students', and 'Default Output: Word List Report'. To the right are two 'Select fields to be included in the report' windows. The first window has 'Student' as the focus and shows a list of fields with checkboxes, including 'Statutory Returns' at the bottom. The second window has 'Statutory Returns' as the focus and shows sub-fields: 'Authorised Date', 'File Name', and 'Return Description', each with a checkbox and a 'Count' button.

Copying a Return

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

NOTE: Ensure that the return you wish to replicate is not open at the time of copying.

1. Select **Routines | Statutory Returns | School Census** to display the census browser.
2. Click the **Search** button to ensure that the list of returns is displayed.

3. Highlight the file you want to copy and then click the **Copy** button.
A message requests confirmation that you wish to make a copy of the selected return.

IMPORTANT NOTE: Any values for attendance (where applicable), Early Years, Post Looked After Arrangements and Top-up Funding will not be copied but will be populated from the current values held in the database. The Create & Validate routine must be run to generate a new census file.

4. Click the **Yes** button to make the copy, which is then displayed in the browser as:
Copy of <description of selected file>.
5. To rename the copied return, highlight it and then click the **Open** button to display the **Census Return Details** page.
6. In the **Census Details** panel, edit the **Description** and then click the **Save** button.

IMPORTANT NOTE: The new **Description** must be unique for this return. SIMS will not save the data if a duplicate return description is found.

Deleting an Unauthorised Return

During the return process, a number of copies of the return may be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the wrong return.

The delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

IMPORTANT NOTES: When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.
Any return files that have already been authorised cannot be deleted.

1. Select **Routines | Statutory Returns | <Return name>** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

The deleted return file is removed from the browser and the storage folder, together with any associated reports.
