Overview

This handbook provides the information needed by Pupil Referral Units (PRUs) in England to complete the School Census Autumn 2019 Return, which this year takes place on Thursday 3 October.

The School Census Autumn Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, City Technology Colleges (CTCs), Academies (including free schools) and Pupil Referral Units in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Spring, Summer and Autumn), which collect detailed information about school characteristics and pupil/student details. Different data is collected depending on which return is being prepared and your school phase.

A list of items collected from Pupil Referral Units in England for the School Census Autumn 2019 Return is available in a later section of this handbook (please see *Preparing Data for the School Census Return* on page 6).

NOTE: The contents of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.

Prior Attainment

Tools | Statutory Return Tools | Update Prior Attainment

A new exemption code is now available, i.e. **Functional skills level 2**.

Students with a pass grade in maths or English **Functional skills level 2** can be recorded in the School Census Autumn 2019 onwards as an exemption (i.e. code **F - Functional skills L2** in the **Maths** or **English GCSE funding exemption**).

The highest grades for maths and English for the previous year (2018/2019) are included in the Autumn census.

Schools can now make corrections to the highest grades for the previous academic year and re-submit in the Autumn census.

Creating a New School Census Return

Before creating a new return, ensure that all pupil/student and school information is present and accurate in SIMS.

It is possible to create more than one return, enabling you to carry out dry runs so that you can check what data needs to be added or updated. Any unwanted returns can be deleted (providing they have not been authorised).

Data is collected for the following pupil/students:

- All pupil/students on-roll on 03/10/2019 (census day).
- Any additional pupil/students not on-roll on census day who:
 - were on-roll for at least one session during the collection period from 22/04/2019 to 31/07/2019.
 - had an exclusion that started between 01/01/2019 and 31/08/2019.
 - had Learning Aims during the date range 01/08/2018 to 03/10/2019.

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

NOTE: The first time that the **Routines | Statutory Returns | School Census** menu route is selected during each SIMS session, there is a delay while the School Census files are loaded.

When the files are loaded, the **Census Return** browser is displayed.

*NOTE: The **Fileset ID** is displayed in the browser header (for information only).*

By default, the **Term** field displays the appropriate term for the selected return, in this instance **Autumn 2019**.

2. Ensure that the appropriate **Census Folder** is selected and that the required **Security message for Reports** is specified, as described in the following sections.

Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

IMPORTANT NOTES: Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (<https://www.gov.uk/service-manual/technology/securing-your-information>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (<https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr>).

1. In the **Census Folder** field, enter the location of the folder where the return files are to be stored.

Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

Browse button

2. Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button, then enter a suitable name for the new folder.

IMPORTANT NOTE: *If you are changing the location of the folder, ensure that authorised personnel only have access to the new folder, as the folder will contain sensitive data. For more information, please see the important note at the beginning of this section.*

3. Click the **OK** button.
A message dialog requests confirmation that you want to continue.
4. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.
5. Ensure that the **Security Message for Reports** is appropriate for your school.

Specifying the Security Message for Reports

At the bottom of the browser is the **Security message for Reports** field. This text displayed in this field is included in the header of each report.

1. The default text (**This report contains sensitive information**) can be edited, if required.
2. If any edits are made, you can click the **Default Message** button to revert to the original default text.
3. Click the **New** button to display the **Census Return Details** page.

Editing Census Details

The **Census Details** panel displays the following read-only information:

- Census Date 03/10/2019.
- Attendance data collected from 22/04/2019 to 31/07/2019.
- Exclusions data collected from 01/01/2019 to 31/08/2019.
- FSM (Free School Meal) data collected from 17/05/2019 to 03/10/2019.
- Learning Aims collected from 01/08/2018 to 03/10/2019.

The default **Description (School Census Autumn 2019)** can be edited, if required, e.g. when carrying out a dry run.

WARNING: Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.

A unique description also helps to identify the required return when viewed in the **Census Return** browser and can be particularly useful when creating dry runs, or copies of existing returns.

Calculating All Details

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

IMPORTANT NOTE: You must calculate all details at least once to populate the various panels for each return.

Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.

Any details that are calculated automatically should be checked and edited, if required.

1. Click the **Calculate All Details** button.

A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.

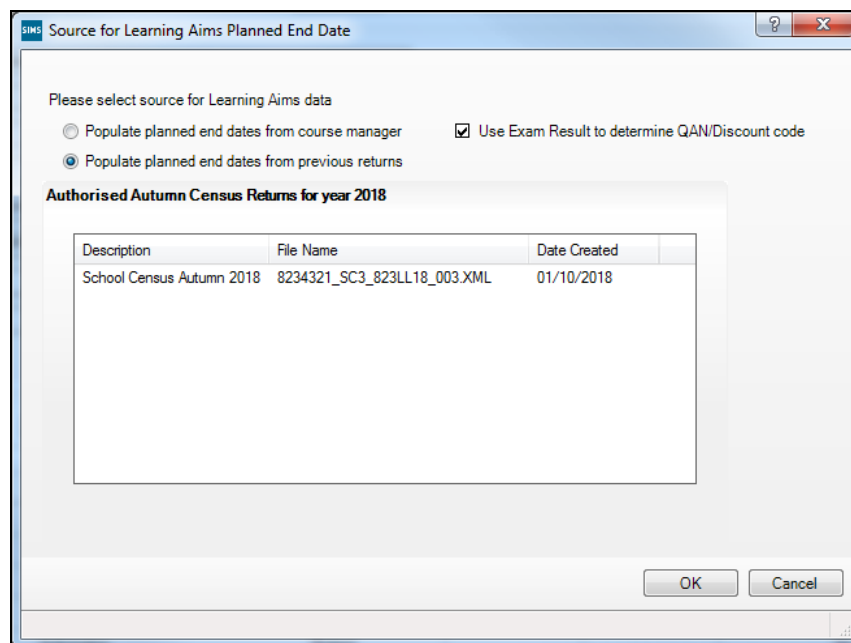

2. Click the **Yes** button to calculate all details.

At this point, depending on the number of pupil/students in the school, there might be a short delay while details are calculated.

When the Calculate All Details process is complete, the **Source for Learning Aims Planned End Date** dialog is displayed.

3. Specify the required source for the Learning Aims data:
 - **Populate planned end dates from previous returns** (default option)

Ensure that the **Populate planned end dates from previous returns** radio button is selected then highlight the required authorised Autumn Census Return.

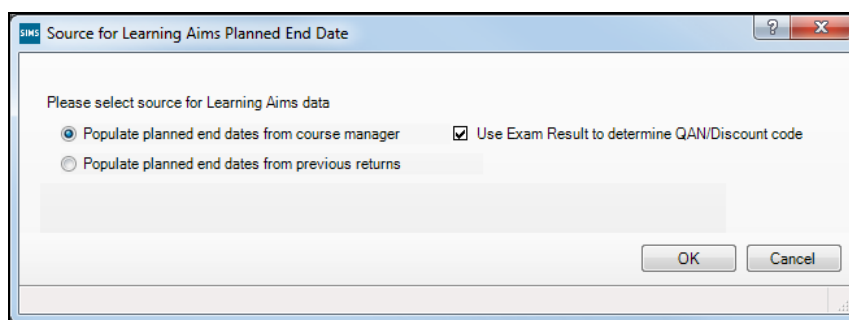

If more than one authorised School Census Autumn 2018 Return exists, the returns are listed in authorised date order.

- **Populate planned end dates from course manager**

An example of when this option could be useful:

If any two year Learning Aims were inadvertently given an end date last year that indicated a one year Learning Aim, selecting **Populate planned end dates from course manager** could save your school some time. This is only acceptable when correcting a mistake and not where it has been decided to change the length of time in which to deliver the Learning Aim.

Select the **Populate planned end dates from course manager** radio button.

4. If you want to **Use Exam Result to determine QAN/Discount code**, ensure that the associated check box is selected.

If QAN/Discount Code combinations from one or more Exam Boards do not follow the expected pattern and therefore cause incorrect allocation of QWS QAN/Discount Codes, it may be best to deselect **Use Exam Result to determine QAN/Discount code**.

If the check box is deselected, the QWS QAN code in Course Manager is reported rather than the Awarding Organisation (AO) QAN linked to the exam result.

5. Click the **OK** button.

*NOTE: If you choose to **Cancel** at this point in the process, Learning Aims Planned End Dates will be calculated from Course Manager.*

The applicable panels on the **Census Return Details** page are then populated with data.

6. The return can be saved at any point by clicking the **Save** button.

More Information:

Checking Post 16 Learning Aims Data on page 34

Editing School Information

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | Pupil (or Student) | Pupil (or Student) Details**). The information displayed might vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended, if necessary, via the **School Detail** button.

Academies should also ensure that the following information is recorded, if applicable:

- The **School Type** and **School Governance**.
Select **Academies** from the applicable drop-down lists.
- The **Previous Name** and **Date Name Changed**.
- The **Previous Estab Number** and **Earliest DOA** (date of admission).
This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected and the earliest date of admission is reported in the School Census.
- The **Previous URN Number** (used by other census returns) and **Date Number Changed**.
This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

Editing Early Years

Early Years data is collected from all schools that have early years pupil/students on-roll on census day. The following items are collected:

- Hours at Setting
- Funded Hours
- Disability Access Fund
- 30 Hour Code
- Extended Funded Hours.

NOTE: Disability Access Fund, 30 Hour Code and Extended Funded Hours are not collected in the census for pupil/students aged two at 31/03/2019.

Funded Hours and Hours at Setting

Funded universal free entitlement hours are the total number of free child care hours that a child receives. All three and four year old pupil/students are eligible for 15 hours funded child care a week. Advice about the eligibility of two year old children for funded child care can be found on the DfE website

(<https://www.gov.uk/help-with-childcare-costs/free-childcare-2-year-olds>).

Hours at Setting include funded free entitlement hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

Date of Birth Ranges	School Type and National Curriculum Year Group	Funded Universal Free Entitlement Hours Maximum Entitlement
01/09/2015 to 31/08/2017 inclusive	All relevant schools and year groups.	15 hours
01/09/2014 to 31/08/2015 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only.	15 hours for pupil/students where 30 Hour code is present

Disability Access Fund

The Disability Access Fund (DAF) is payable as a lump sum once a year and awarded to three and four year old pupil/students who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA) and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupil/students who are in receipt of the fund on census day.

Date of Birth Ranges	School Type and National Curriculum Year Group
01/09/2015 to 31/08/2016 inclusive	All relevant schools and year groups.
01/09/2014 to 31/08/2015 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only.

Extended Funded Hours and 30 Hour Code

Extended Funded Hours are the number of hours that a child can receive in addition to the initial 15 funded hours. Extended Funded Hours are applicable to three and four year old pupil/students only.

Extended Funded Hours can double the original 15 hours of free child care to 30 hours a week, i.e. 15 funded free entitlement hours + 15 extended entitlement hours = 30 hours, provided that the following criteria are met:

- Both parents must be working (or the sole parent is working in a lone parent family) and live in England.
- Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.
- Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a unique code from the Tax Office (HM Revenue & Customs), then provide it to the school, together with other details, to confirm their eligibility for extended child care hours.

The 11 digit **30 Hour Code** and the number of extended funded hours are collected in this return for the week in which the census day falls.

Date of Birth Ranges	School Type and National Curriculum Year Group	Maximum Funded Universal Free Entitlement and Extended Free Entitlement Hours
01/09/2015 to 31/08/2016 inclusive	Applicable to all relevant schools and year groups A valid 30 Hour Code must be provided.	30 hours (i.e. 15 funded universal free entitlement hours plus 15 extended free entitlement hours)
01/09/2014 to 31/08/2015 inclusive	For pupil/students in National Curriculum Year groups E1, E2, N1 and N2 only. A valid 30 Hour Code must be provided.	30 hours (i.e. 15 funded universal free entitlement hours plus 15 extended free entitlement hours)

Extended Funded Hours information provided by the DfE can be found on their website (<https://www.gov.uk/government/publications/30-hours-free-childcare-la-and-early-years-provider-guide>).

Recording Early Years

The required data can be recorded:

- via the **Edit** button in the **Early Years** panel
- via **Tools | Statutory Returns Tools | Update Early Years - Update Early Years** page. The data in the **Early Years** panel must be refreshed by clicking the **Recalculate** button after using the Update Early Years routine.

If data has been recorded previously, the values are displayed in the read-only **Early Years** panel. Only cohorts applicable to your school are displayed.

1. To add or edit the number of **Hours at Setting**, **Funded Hours** and **Extended Funded Hours** for an individual pupil/student, select the required criteria in the **Pupils View** panel.

In the **Pupils** panel, highlight the required pupil/student, click the applicable cell and then enter the required number of hours.

IMPORTANT NOTES: Values for **Funded Hours**, **Hours at Setting** and **Extended Funded Hours** should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.

If the value entered is within the range accepted by SIMS but is higher than what the DfE expects, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

Editing Pupil/Students with Top-Up Funding

Top-up funding is supplied to schools, in most cases by the Local Authority, to meet the additional costs of support for high needs pupil/students.

The **Top-up Funding** panel enables you to record the on-roll pupil/students for whom your school is receiving top-up funding on census day.

If the pupil/students with top-up funding have been recorded previously via **Tools | Statutory Return Tools | Update Top-Up Funding**, the data is displayed in the **Top-up Funding** panel.

Managing School Dinners Taken on Census Day

Applicable to schools with pupils in Reception, Year 1 and Year 2

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the local authority. The School Census Autumn 2019 Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

The **School Dinner Taken** panel displays all pupils in Reception, Year 1 and Year 2 who are on-roll on census day. The options available in the panel enable you to record pupils who have taken a Universal Infant School Meals on census day, so that accurate data can be included in the census.

*NOTES: The **Reference Date** is provided so that your school can report school dinners taken on an alternative date to census day, if required.*

*The pupils listed in the **School Dinner Taken** panel are those who are on-roll on census day. Whereas the data calculated via the **Calculate From Attendance** and the **Calculate From Dinner Money** buttons is based on the reference date.*

If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both of these modules are not in use, the applicable **Calculate From** button(s), as displayed in the following graphic, are not displayed but the information can be recorded manually.

To the right, there are two buttons: 'Calculate From Attendance' (callout 3) and 'Calculate From Dinner Money' (callout 4). The main area contains a table with columns: Surname, Forename, YTI, Reg Group, Enrol Status, and School Dinner Taken. The table lists 17 pupils. To the right of the table is a 'Tick All' button (callout 5) and a 'Reset' button. At the bottom, there are two fields: 'Total Taken: 0' (callout 6) and 'Total Not Taken: 178'.

Using Dinner Money to Calculate School Dinners Taken on Census Day

If SIMS Dinner Money is in use, the Dinner Money data recorded for census day can be used to calculate the number of school dinners taken on census day.

Many users of SIMS Dinner Money also use SIMS Attendance. If this is the case the **Calculate From Attendance** button is also displayed.

However, it is recommended that the Calculate From Dinner Money routine is used in the first instance. This is because the Calculate From Attendance routine looks at all pupils with a present or late attendance mark on census day morning. These pupils could be taking any sort of meal on census day, e.g. going home for lunch, pack lunch brought from home, as well as meals provided by the school. The School Census return is only interested in school meals provided by the school.

SIMS Dinner Money takes into account these different meal types and populates the **School Dinner Taken** column with ticks where meals provided by the school only have been taken.

1. Click the **Calculate From Dinner Money** button.

WARNING: Clicking the **Calculate From Dinner Money** button overwrites all existing data in the **School Dinner Taken** panel.

If SIMS detects missing information, the following message is displayed:

Dinner Money information is incomplete. Please ensure that meals are recorded in Dinner Money.

2. Click the **Cancel** button to return to SIMS where the missing information can be entered or the **OK** button to continue.

A tick is entered against each pupil who is receiving any type of meal provided by the school on census day. These meals have a meal type category of **School Provided**, with a description such as hot school meal or school sandwich.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Attendance to Calculate School Dinners Taken on Census Day

The School Census Return only requires information about school meals provided by the school on census day. However, if SIMS Attendance is in use, the attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner.

The information calculated from attendance can be edited to so that school meals provided by the school only are collected in the return.

1. Click the **Calculate From Attendance** button.

WARNING: Clicking the **Calculate From Attendance** button overwrites existing data in the **School Dinner Taken** panel.

If missing marks exist, a message is displayed:

Please ensure that registers have been taken. Missing marks have been interpreted as absent and no dinner taken.

2. Click the **Cancel** button to return to SIMS where missing marks can be entered or the **OK** button to continue.

A tick is entered against each pupil who is marked as present on census day morning (i.e. AM session). It is possible that some of these pupils are not taking meals provided by the school, e.g. they go home for dinner or bring a packed lunch from home. Meals provided by the school only are required for the return.

Use the **Group By** functionality to group pupils by **Year Taught In, Reg Group** or **Enrolment Status**, enabling school dinners taken information to be updated from class lists, etc.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

Using Manual Entry to Record School Dinners Taken on Census Day

If your school is not using SIMS Dinner Money or SIMS Attendance the number of school dinners taken on census day (i.e. meals provided by the school) can be entered manually.

1. Click the **Tick All** button to populate the **School Dinner Taken** column. All pupils are ticked indicating that they received a school dinner on census day.
2. Edit individual records by clicking the applicable **School Dinner Taken** cell to toggle between a tick and blank (no meal taken).

4. Continue editing until school dinner taken details are correct.

WARNING: Clicking the **Reset** button removes all existing ticks from the **School Dinner Taken** column.

Entering Attendance Information

Summer term attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder pupil/students aged four to 15 inclusive on 31/08/2018 who were on-roll for at least one session during each Summer half term, i.e. from 22/04/2019 to 26/05/2019 and 27/05/2019 to 31/07/2019.

IMPORTANT NOTE: Clicking the **Calculate All Details** button overwrites any edited data in every panel with the original data stored in SIMS. Do not use this button if you wish to keep any changes you have made.

After the **Calculate All Details** button is clicked, the information displayed in the **Attendance** panel is dependent on which of the following is applicable to your school:

- Attendance/Lesson Monitor is in use, the attendance codes being used are DfE compliant and there are either missing marks or no missing marks.
- Attendance/Lesson Monitor is in use and the attendance codes being used are DfE non-compliant.
- Attendance/Lesson Monitor is not in use.

SIMS Attendance/Lesson Monitor Users

If SIMS Attendance/Lesson Monitor is in use, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the return.

TIP: After the Create and Validate process is run, the Attendance detail report can be used to assist with the checking of attendance data. Select **Attendance Report** from the **Detail Report** drop-down list.

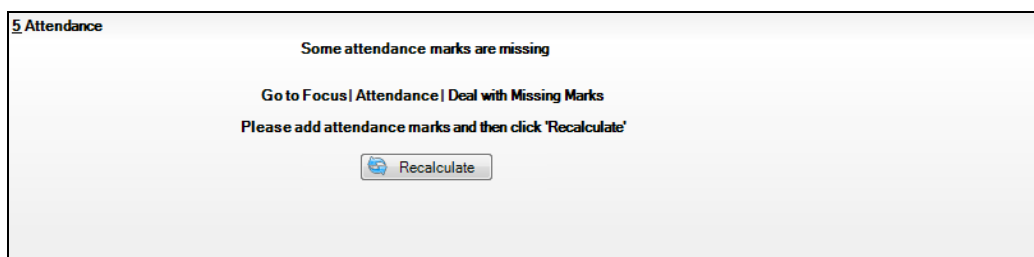

Are your Attendance Codes DfE Compliant?

If Attendance/Lesson Monitor is in use and your school is using DfE compliant attendance codes, attendance data is entered directly into the return, providing that there are no missing marks.

If all attendance marks have been entered in Attendance/Lesson Monitor, the following message is displayed in the **Attendance** panel, informing you that your attendance codes are DfE compliant but will be rechecked at the Create and Validate stage.

However, if any missing attendance marks are detected, the following message is displayed in the **Attendance** panel, requesting that you add the missing attendance marks.

1. Use the Deal with Missing Marks routine (**Focus | Attendance (or Lesson Monitor) | Deal with Missing Marks**) to locate the missing marks and enter appropriate attendance codes.
2. Return to the **Census Return Details** page and click the **Check missing marks** button in the **Attendance** panel to ensure that all missing marks have been dealt with.

NOTE: The Create and Validate process can still be run even if some attendance marks are missing. You will be asked if you wish to continue to create the return or cancel the Create and Validate process.

More Information:

Producing Detail Reports on page 53

Are your Attendance Codes DfE Non-Compliant?

If Attendance/Lesson Monitor is in use but one or more invalid attendance codes have been detected, a message is displayed in the **Attendance** panel to inform you that your attendance codes are not DfE compliant.

1. Non-compliant codes must be dealt with. Please contact your Local Support Unit for assistance.
2. Click the **Check attendance codes** button to check that DfE attendance codes are now in use.

If the attendance codes are now DfE compliant, a message informs you that the codes will be rechecked at the **Create & Validate** stage.

3. Click the **OK** button to continue.

SIMS Attendance/Lesson Monitor Not in Use

If Attendance/Lesson Monitor is not in use, the following data must be entered manually for the two specified collection periods, i.e. from 22/04/2019 to 26/05/2019 and 27/05/2019 to 31/07/2019:

- Total Possible Sessions (**T Poss Sessions**)
- Total Sessions Missed due to Authorised Absence (**T Auth Absences**)
- Total Sessions Missed due to Unauthorised Absence (**T Unauth Absences**).

Checking Post 16 Learning Aims Data

Learning Aims data is collected from Secondary schools with Sixth Forms, (including Middle deemed Secondary schools, All-Through school, Pupil Referral Units, City Technology Colleges and Academies (including Free schools)).

The Post 16 Learning Aims are collected once a year only, in the School Census Autumn Return. Learning Aims are collected from the previous year, i.e. any that were active in 2018/2019, and those for the current academic year 2019/2020.

All Learning Aims in the specified period (01/08/2018 to 03/10/2019) are included in the return, regardless of whether the minimum qualifying period of six weeks, for a one or two year course, was achieved.

Exam results, e.g. A, A*, etc. and the outcome of the previous year's Learning Aims (pass, fail or result not known) are not collected in this year's Autumn return. However, results are displayed in the **Learning Aims** panel for identification purposes only, provided that the **Use Exam Result to determine QAN/Discount code** check box has been selected (in the **Source for Learning Aims Planned End Date** dialog) when calculating all details.

Discount Codes (also known as Subject Classification Code) are collected in the School Census Autumn 2019 Return.

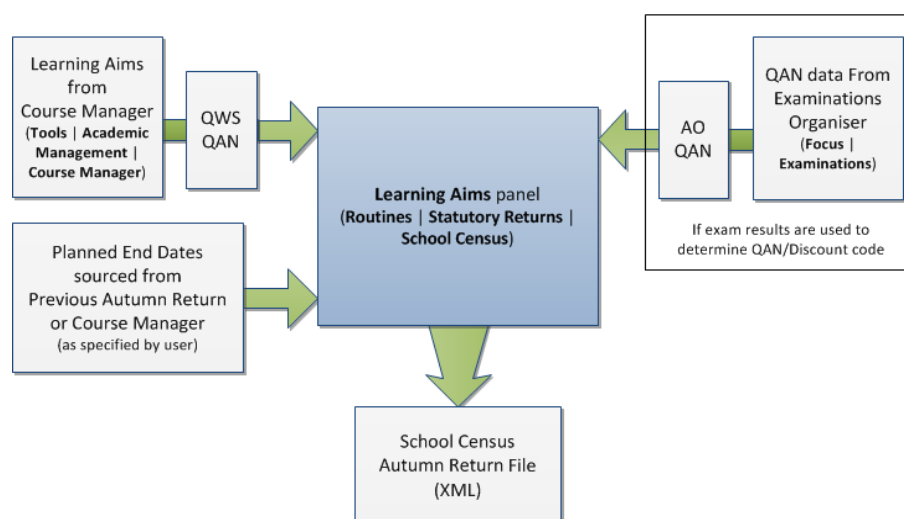

IMPORTANT NOTES:

Learning Aims are required for learners in National Curriculum Year Group (Year Taught In) 12 or above, who have an enrolment status of Single Registration or Dual Registration, and for whom the school wishes to claim Post 16 funding from the Education and Skills Funding Agency (ESFA).

Learners are expected to be in National Curriculum Year 12 and above if the majority of their learning is at level 3 or above.

Students in Actual National Curriculum Year Group 11 (or below) with the majority of their learning at level 2 are no longer included in the return.

The **Learning Aims** panel is provided to enable you to check the Learning Aims that will be included in the School Census Autumn 2019 Return.

In the previous graphic, QWS QAN refers to the Qualification Accreditation Number obtained from the DfE QAN website and AO QAN refers to the Awarding Organisation QAN imported with the Exams Basedata from the Awarding Organisation.

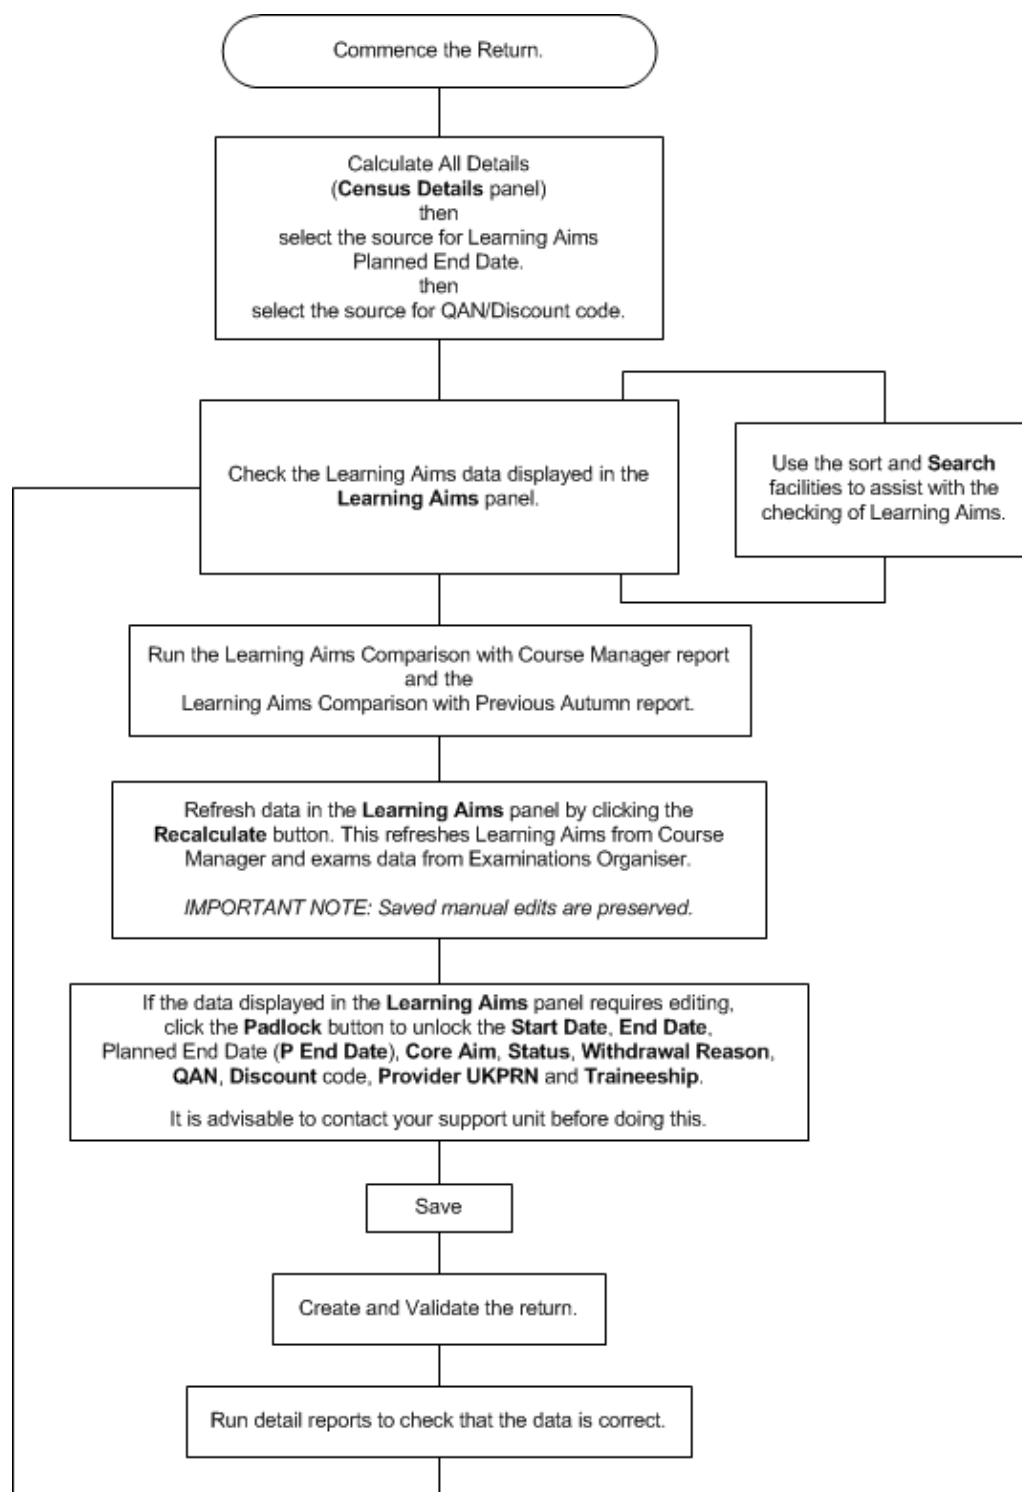

The **Learning Aims** panel includes the following functionality:

- **QAN** - also known as Qualification Number (QN).
- **Discount Code** - also known as Subject Classification Code (SCC).
- **Result** for identification purposes only.
- Comprehensive filtering of data (please see *Finding your way Around the Learning Aims Panel* on page 37).
- Recalculating data in the **Learning Aims** panel refreshes the display with data from Course Manager and Examinations Organiser. Any saved edits are preserved when the Recalculate routine is run (please see *Recalculating Learning Aims Information* on page 42).
- The provision of the following reports to assist with the checking of information:
 - Learning Aims Comparison with Course Manager report (please see *Comparing Learning Aims Information with Course Manager Data* on page 40).
 - Learning Aims Comparison with the Previous Autumn report (please see *Comparing Learning Aims Information with the Previous Autumn Data* on page 41).
- By default, the data in the **Learning Aims** panel cannot be edited. Full editing of the Learning Aims start date, end date, planned end date, core aim, status, withdrawal reason, QAN, discount code, provider UKPRN and traineeship, can be achieved by clicking the **Padlock** icon to unlock the **Learning Aims** panel. A white background indicates that the column can be edited.

03| Producing the School Census Autumn Return

1	To sort the displayed data by column data, e.g. Surname, Forename, YTI, ULN , etc, click the applicable column heading.
2	The Compare with Previous Autumn report can be run to compare the Learning Aims in the School Census Autumn 2018 Return with the Learning Aims to be reported in the School Census Autumn 2019 Return. The differences are highlighted in yellow (please see <i>Comparing Learning Aims Information with the Previous Autumn Data</i> on page 41).
3	The Compare with Course Manager report can be run to compare Learning Aims to be reported in the School Census Autumn 2019 Return with data held in Course Manager (please see <i>Comparing Learning Aims Information with Course Manager Data</i> on page 40).
4	The Add button is active only when the Unlock Padlock icon is displayed. Learning Aims records can be added to the list by clicking the Add button to display the Add Learning Aims dialog, from where the required student's Learning Aim(s) can be selected (please see <i>Adding a New Learning Aim Record</i> on page 46).
5	<p>The Exclude/Restore toggle button is active only when the Unlock Padlock icon is displayed. A Learning Aim record can be excluded from the list, and consequently from the return, by highlighting it then clicking the Exclude button. The excluded Learning Aim record is then highlighted in dark grey and is read-only.</p> <p>To restore the Learning Aim record, click the record to ensure that the focus is on the Learning Aim then click the Restore button (please see <i>Excluding Learning Aim Records</i> on page 47).</p>
6	<p>The data in the Learning Aims panel can be filtered using one or more of the Search options, i.e. Surname, Forename, YTI (Year Taught In), ULN, QAN, Discount Code (Disc Code), Subject, Level, Status and date range (by default From 01/08/2018 To 03/10/2019).</p> <p>Using these filters restricts the data displayed in the Learning Aims panel only. They do not restrict the data that is collected in the School Census. To view all the Learning Aims data that is collected in the School Census, remove all filter conditions then click the Search button.</p>
7	<p>Clicking the Recalculate button refreshes the Learning Aims panel with Learning Aims from Course Manager and exams data from Examinations Organiser (please see <i>Recalculating Learning Aims Information</i> on page 42).</p> <p>IMPORTANT NOTE: Clicking the Recalculate button preserves any manual edits that have already been saved (Learning Aims panel only).</p>

8	<p>The Locked Padlock icon indicates that editing of Learning Aims data is <u>unavailable</u>. Click the Padlock icon to toggle between locked and unlocked. It is advisable to check with your support unit before unlocking the Learning Aims.</p> <p>If you wish to edit the Learning Aims data, including adding and/or excluding Learning Aim records, ensure that the Unlocked Padlock icon is displayed. Full editing capabilities are then available for the data in the rows displayed with a white background (please see <i>Editing Learning Aim Details</i> on page 44).</p>
9	<p>The Result column is displayed only if the Use Exam Result to determine QAN/Discount code check box has been selected (in the Source for Learning Aims Planned End Date dialog) when calculating all details.</p> <p>The data in the Result column is displayed for reference only. Exam Results are not collected in the Autumn 2018 return.</p>
10	<p>A Traineeship is an education and training programme. Traineeships (designed for 16 to 24 year olds) include the work preparation training, English and/or Maths and the work experience needed to secure an apprenticeship or employment.</p> <p>An indication as to whether each Post 16 Learning Aim is part of a Traineeship is required for the School Census Autumn Return. The indicator can be set in the Membership and Results panel via Tools Academic Management Course Manager Maintain Course.</p>
11	<p>The AO QAN and Discount code are reported in the census where an exam result exists. QWS QANs are reported only where an exam result is not available. The AO QAN and QWS QAN for the student can be viewed by selecting Focus Student Courses, double-clicking the required course to display the Course Details page then navigating to the Memberships and Results panel.</p>
12	<p>The DfE/ESFA use the QAN for matching the Learning Aim. The QAN data is included in the On Roll Learning Aims report and Leavers Learning Aims report (please see <i>Producing Detail Reports</i> on page 53).</p>
13	<p>The Provider UKPRN (sub-contracting UK partner) should be recorded where the school sub-contracts the provision of learning or training for post 16 pupil/students.</p>
14	<p>The reason for withdrawal is required for Learning Aims ending in the collection period.</p> <p>When a pupil/student has withdrawn from a Learning Aim prior to the census day, the Learning Aim is recorded with a completion status of Withdrawn. The reason for withdrawal should also be recorded.</p>
15	<p>The Status shows if a Learning Aim has been completed, withdrawn or is continuing. A cell with a yellow background is highlighted when the status has been edited manually (please see <i>Editing Learning Aim Details</i> on page 44). A yellow highlight does <u>not</u> indicate an error.</p>

03| Producing the School Census Autumn Return

16	<p>The Core Aim is the primary Learning Aim being undertaken in a student's programme of study. The School Census Autumn 2019 requires that the core aim is identified for each year where a vocational Education and Skills Funding Agency (ESFA) study programme is being followed. If a student is following an academic programme, a core aim does not need to be identified.</p> <p>It is possible to have a different Core Aim for 2018/2019 than for 2019/2020. Although Course Management only allows one Core Aim per student per academic year, there are certain unusual circumstances where more than one Core Aim is allowed. The additional Core Aims can be entered directly into this panel by clicking the Add button then completing the details in the different columns.</p>
17	<p>The Planned End Date (P End Date) included in the return must always be the date agreed when the Learning Aim commenced and must not reflect any change of plan for the Learning Aim. The only reason for changing the Planned End Date in the return is that it was entered incorrectly in the first place and even then, it would be best to leave it as first entered unless it results in distortion, e.g. ends in August or in the wrong academic year.</p> <p>If plans change and the pupil/student is expected to complete the Learning Aim <u>earlier</u> than the Planned End Date agreed when the Learning Aim commenced, that Planned End Date is not changed but this earlier than originally expected end date is eventually reflected in the actual End Date.</p> <p>If plans change and the pupil/student is expected to complete the Learning Aim <u>later</u> than the Planned End Date agreed when the Learning Aim commenced, that Planned End Date is not changed but this later than originally expected end date is eventually reflected in the actual End Date.</p> <p>If the planned end date has been overwritten with data from the previous Autumn return, the cell is highlighted in yellow.</p>
18	<p>The Total number of Learning Aim records is displayed at the bottom left-hand side of the Learning Aims panel.</p>
19	<p>Double-clicking a pupil/student's name displays the Student Courses page, where all student Learning Aims are displayed. Clicking one of these Learning Aims displays the Members panel on the Course Details page (Tools Academic Management Course Manager Maintain Course), where edits can be made to the Learning Aim record.</p>
20	<p>Clicking the Select Columns button displays the Select Student Column to Display dialog, where columns can be selected or deselected. This provides additional data for information only. Select from YTI, Reg, Ad No, ULN, UCI and Int Cand No. The YTI and ULN columns are displayed by default. The data in these columns is read-only.</p>

Editing Learning Aim Details

If the **Unlock Padlock** icon is displayed, the **Start Date**, **End Date**, **Planned End Date (P End Date)**, **Core Aim**, **Status**, **Withdrawal Reason**, **QAN**, **Discount** code, **Provider UKPRN** and **Traineeship** associated with each Learning Aim can be edited manually.

Manually edited data is highlighted in yellow, for example:

- If the Learning Aim end date is changed to before the planned end date and the status has been edited manually to complete, the **End Date** cell and **Status** cell are highlighted in yellow.
- If a QAN or discount code is accidentally edited to an incorrect value.

Data is also highlighted in yellow if:

- Learning Aims retrieved from Course Manager or the exams data retrieved from Examinations Organiser is different to that originally displayed in the **Learning Aims** panel, the applicable cell is highlighted with a bright yellow background.
- the planned end date has been overwritten with data from the previous Autumn return, the cell is highlighted in yellow.

NOTE: Yellow highlights indicate a difference between values collected for the census and values recorded in Course Manager. Yellow highlights do not indicate errors.

8. To indicate that a student is undertaking a traineeship, click the required **Traineeship** cell to display a tick. Clicking the cell again removes the tick.

*NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager or Examinations Organiser.*

If the **Unlock Padlock** icon is displayed, it is also possible to **Add** and/or **Exclude** Learning Aim records from the return.

Adding a New Learning Aim Record

A new Learning Aim record can be added to the list displayed in the **Learning Aims** panel, provided that the **Unlock Padlock** icon is displayed.

You may want to add a Learning Aim if, for example, your school holds the main registration for dual registered pupil/students. All Learning Aims must be returned by the school that holds the pupil/student's main registration because it will receive funding for that pupil/student and it is responsible for their performance.

*NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager.*

The Add Learning Aim routine enables you to select the required pupil/student then the applicable QAN/Discount Code.

1. Ensure that the **Unlock Padlock** icon is displayed in the top right-hand side of the **Learning Aim** panel.
2. Click the **Add** button to display the first of the **Add Learning Aim** dialogs.
The search criteria, i.e. **Surname**, **Forename** and year taught in (**YTI**), can be used to filter the pupil/student records, if required.
3. Click the **Search Students** button to display a list of pupil/students who match the search criteria.

Rahman	Zena	12	5142368877

Selected Student : Peterson Julie

- Highlight the pupil/student whose record you wish to add, then click the **Next** button to display the second **Add Learning Aim** dialog, where the required QAN/Discount Code can be selected.

The search criteria, i.e. **QAN/Discount Code** and **Description**, can be used to filter the Learning Aim records, if required.

- Click the **Search QAN** button to display a list of QAN/Discount Codes that match the search criteria.

- Highlight the required QAN/discount code then click the **OK** button to return to the **Learning Aims** panel.

The new record is added to the bottom of the list and is highlighted in yellow. When the data is saved, the new record is sorted into alphabetical order.

- Edit the **Start Date**, **End Date**, Planned End Date (**P End Date**), **Core Aim**, **Status**, **Withdrawal Reason**, **QAN**, **Discount** code, **Provider UKPRN** and **Traineeship**, if required.
- Click the **Save** button.

Excluding Learning Aim Records

Learning Aim records can be excluded from the School Census Autumn 2019 Return, provided that the **Unlock Padlock** icon is displayed. The exclusion of a record might be necessary if, for example, your school has a dual registered pupil/student but they have their main registration at another school and therefore your school does not wish to claim Post 16 funding for that pupil/student.

The **Exclude/Restore** toggle button is provided to enable you to exclude Learning Aim(s) from the return and, if necessary, restore them again, e.g. if they were excluded in error. An excluded record cannot be edited but remains visible for reference only.

NOTE: Edits made in the **Learning Aims** panel do not overwrite data held in Course Manager or Examinations Organiser.

1. Ensure that the **Unlock Padlock** icon is displayed in the top right-hand side of the **Learning Aim** panel.
2. Click the name of the pupil/student whose Learning Aim record you wish to exclude. An arrow to the left of the student's name indicates that the record has been selected.

Creating and Validating a School Census Return

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data which is unusual or not as expected, e.g. there are no students with special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to begin the process. There may be a short delay, depending on the number of students at your school.

04| Completing the School Census Autumn Return

A progress bar is displayed indicating that the Create and Validate process is being performed.

If there is an irregularity in the attendance marks, one of the following messages is displayed:

- If the attendance codes are not DfE compliant, the following message is displayed, informing you which code(s) must not be used.

The lack of compliance must be dealt with before the Create and Validate process can be performed. Please contact your Local Support Unit for assistance.

- If no attendance marks are found and SIMS Attendance is in use, the following message is displayed informing you that the create and validate process cannot proceed.

Click the **OK** button then edit the attendance data before attempting to create and validate the return again.

- If there are any missing attendance marks, the following message is displayed enquiring as to whether you wish to continue with the Create and Validate process.

Click the **Yes** button to continue creating and validating the data.

Alternatively, click the **No** button to cancel the process, then use the Deal with Missing Marks routine (**Focus | Attendance | Deal with Missing Marks**) to locate the missing marks and enter appropriate attendance codes. For more information, please refer to the *Managing Pupil/Student Attendance* handbook, as appropriate.

When the validation process is complete, the **Validation Errors Summary** panel is displayed at the bottom of the screen.

Resolving Validation Errors and Checking Queries

The **Validation Errors Summary** displays the following information:

- **Type** - the type of validation rule.
 - Failure (**F** displayed in red) indicates an error that must be resolved.
 - Query (**Q** displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.
- **Sequence** - the validation error or query number.
- **Message** - the validation error or query message text.
- **Location** - the specific record in SIMS that contains the error or query.
- **Solution** - the SIMS menu route and/or instructions about where/how the error can be corrected or the query checked.

TIP: Using the Solution hyperlinks

When the pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the problem can be checked.

A hyperlink is also indicated by a hash symbol (#) preceding the **Solution** text.

Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.

To assist in the viewing of any errors and queries:

- When the mouse pointer is hovered over a **Message**, **Location** or **Solution** cell, hover help displays the entire content of that cell.
- The Student Search functionality can be used to display all errors and queries relating to a particular pupil/student. Enter all or part of a UPN, pupil/student's surname or date of birth in the **Student Search** field then select the required record from the **Student Search** drop-down list to populate the **Student Search** field. Click the **Find** button to display the applicable validation records.
- Use the **Errors Search** to display the required error or query you want to view. Select **ALL**, **ERRORS**, **QUERIES** or the required number from the drop-down list. The total number of rows that relate to the selected validation is displayed adjacent to the **Error Search** field.
- By default, when **ALL** is selected from the **Errors Search** drop-down list, the errors are displayed at the top of the list.
The order of the items in the list can be changed by clicking the appropriate column heading.
The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.
- View a summary of validation failures by clicking the **Report** button (located at the left-hand side and directly above the **Validation Errors Summary** panel). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required (please see *Transferring Report Data to a Spreadsheet* on page 61).
The report (ValidationErrorsSummary.HTML) is saved automatically in the **Census Folder**, which was specified previously in the census browser. The original report, which was generated when the **Create & Validate** button was clicked (e.g. <LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil (or Student) | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

Producing Detail Reports

Detail reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been created and validated.

Also included in the report header is the **School Name**, the **Fileset Number**, the **Filename**, the **Report Created** date, and the **XML Version**.

Where a pupil/student's National Curriculum Year group is different from what their date of birth would suggest, the applicable **YTI** cell is highlighted in yellow.

Generating Detail Reports

To select a single detail report, select the required report from the **Detail Report** drop-down list located at the top of the **Census Return Details** page. The selected report is generated automatically and displayed in your web browser.

04| Completing the School Census Autumn Return

To run several detail reports, select **Multiple Reports** from the bottom of the **Detail Report** drop-down list to display the **Detail Reports** dialog.

By default, all detail reports are selected. If any reports are not required, deselect the associated check box. Click the **Report** button to generate the selected reports, which are displayed in your web browser from where the data can be transferred to a spreadsheet, such as Microsoft® Excel, if required.

The report(s) are saved automatically in the **School Census Folder**, which was specified in the **Census Return** browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that is made up of the following data fields separated by underscores ('_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_  
<SerialNumber>_<name of the report>_Report.html
```

For example:

```
8234321_SC3_823LL19_001_onroll_pupil_basic_details_report.html
```

Printing a Report from your Web Browser

IMPORTANT NOTE: Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include, for example, instructions for the destruction of the printed reports.

1. With the generated report displayed in your web browser, select the **Print** option (**Ctrl+P**) to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

Transferring Report Data to a Spreadsheet

Transferring a report to a spreadsheet application enables the data to be sorted, the column order to be changed, etc.

With the generated report displayed in your web browser, right-click the report and then select the required option, e.g. **Export to Microsoft Excel**, from the drop-down list.

IMPORTANT NOTE: The spreadsheet contains the same level of sensitive information as the original HTML report from which the information was transferred. Therefore, the spreadsheet file must be saved to a folder with the same level of security.

Deleting Temporary Web Browser Files

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on your machine, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the PC in the temporary directory, where they are not secure because they can still be accessed.

When this process is performed, all temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.

To clear the cache, open your web browser, then clear the browsing data history via Settings. For more information, please refer to the documentation applicable to the web browser you are using.

Producing the Summary Report

The Summary report enables the school staff, who are involved in the return's preparation, to assess the accuracy and completeness of the return data. It should then be passed to the Head Teacher for their review.

NOTE: When the return is authorised, the Summary report is automatically generated and displayed in your web browser.

Generating the Summary Report

Click the **Summary** button located at the top of the **Census Return Details** page. The report is automatically displayed in your web browser but can be transferred to a spreadsheet such as Microsoft® Excel if required.

The report is saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that consists of the following data fields separated by underscores ('_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_Report.html
```

For example: 8234321_SC3_823LL19_001_Summary_Report.html.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA/DfE might request that a copy of the Summary report (which is automatically generated when the return is authorised) is signed by the Head Teacher and sent to the LA/DfE when the return has been authorised.

Editing an Unauthorised Return

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

IMPORTANT NOTE: An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct, then click the **Search** button to display any previously created returns. Unauthorised return files can be recognised by their .UNA suffix.
3. Double-click the required return. Alternatively, highlight the required return, then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.

5. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
6. Run the detail reports and Summary report and then use the information they provide to assist with resolving errors and queries.
7. Repeat the editing and Create & Validate process again, if necessary.
8. Click the **Save** button.

Authorising the Return

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school). If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy, or create a new return.

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The Summary report can assist in reviewing the information.

1. Click the **Authorise** button.

If missing marks exist, the following message is displayed.

2. Click the **Yes** button to continue with the authorisation process or the **No** button if you want to return to SIMS where the missing marks can be entered.

If you choose to continue, a message reminds you that the return cannot be edited once it is authorised.

04| Completing the School Census Autumn Return

3. Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

If you choose to continue, the **Head teacher authorisation** dialog is displayed.

The screenshot shows a window titled 'SIMS Head teacher authorisation'. Inside, the text reads: 'Authorisation provides an XML Return file for upload to your LA/DfE. Please confirm that the head teacher is satisfied that the Summary and Detail Reports have been checked for accuracy and completeness.' Below this is a checkbox labeled 'I, User two, confirm that the head teacher is satisfied that the Summary and/or Detail Reports have been checked and that the Return file is ready for upload to the LA/DfE.' Underneath the checkbox is a large empty text box labeled 'Additional text to be displayed on the authorisation report'. At the bottom right are 'Continue' and 'Cancel' buttons.

4. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.
5. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

6. Click the **Continue** button to authorise the return.
 - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
 - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.
 - The Learning Aims Comparison with Course Manager report and Learning Aims Comparison with the Previous Autumn report are generated automatically and displayed in your web browser, from where they can be printed, if required.

All reports (including detail reports) and the XML file, are saved in the **Census Folder**, which was specified previously in the **Census Return for Autumn 2019 Term** browser.

These reports can be viewed using the Retrieve Authorised Census Return Files routine (via **Tools | Statutory Return Tools**). This routine also provides the opportunity to download the files to a different folder.

IMPORTANT NOTE: *The retrieved files contain sensitive information. Ensure that authorised personnel only have access to the download folder.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

Submitting the Return

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the .XML file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

Guidance about how Local Authorities, schools and academies should submit school census data is available on the GOV.UK website (<https://www.gov.uk/guidance/school-census>).

The authorised return file is located in the folder previously specified in the return browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

IMPORTANT NOTE: *An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.*

Retrieving Authorised Census Return Files

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the files **Download to** the folder specified in the census browser. To specify a different folder:
 - a. Click the **Select a Folder** button (...) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

IMPORTANT NOTE: Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

- b. Click the **OK** button to select or create the folder then return to the **Retrieve Authorised Return Files for <census name>** page where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.

5. The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node). Three options are available for selection under this sub-report: **Authorised Date**, **File Name** and **Return Description**.

Copying a Return

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

NOTE: Ensure that the return you wish to replicate is not open at the time of copying.

1. Select **Routines | Statutory Returns | School Census** to display the census browser.
2. Click the **Search** button to ensure that the list of returns is displayed.
3. Highlight the file you want to copy and then click the **Copy** button.

A message requests confirmation that you wish to make a copy of the selected return.

IMPORTANT NOTE: Any values for attendance (where applicable), Early Years, Post Looked After Arrangements and Top-up Funding will not be copied but will be populated from the current values held in the database. The Create & Validate routine must be run to generate a new census file.

4. Click the **Yes** button to make the copy, which is then displayed in the browser as:
Copy of <description of selected file>.
5. To rename the copied return, highlight it, then click the **Open** button to display the **Census Return Details** page.
6. In the **Census Details** panel, edit the **Description** and then click the **Save** button.

IMPORTANT NOTE: A unique description must be used for each return. If duplicate returns are detected, an error message is displayed.

Deleting an Unauthorised Return

During the return process, a number of copies of the return may be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the wrong return.

The Delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

IMPORTANT NOTES: Any return files that have already been authorised cannot be deleted.

When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted, then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

The selected return file and associated reports are removed from the browser and the storage folder.
