Introduction

This preparation guide has been produced to help you to identify the most common tasks that need to be carried out before running the School Census Autumn 2019 Return.

The information in this guide applies to all LA maintained Secondary schools, Middle deemed Secondary schools, All-Through schools (secondary phase) and Pupil Referral Units (secondary phase). It also applies to Academies that cover the Secondary school phase and City Technology Colleges (CTCs) also, Service Children’s Education (Secondary schools) and on a voluntary basis.

For schools with a sixth form, an additional Preparation guide is available, which deals specifically with Post 16 data: Preparing Post 16 Data for the School Census Autumn 2019 Return guide.

Where the information relates to a specific school phase, it is indicated in red, e.g. Applicable to Middle deemed Secondary schools only.

NOTE: The content of the graphics (dates, names, etc.) are examples only of what you might expect to see when using SIMS to prepare for the forthcoming School Census Return.

How has the School Census Autumn Return Changed since Last Year?

Changes to the School Census Autumn Return include the following:

01 | Getting Started

Exclusions
The collection period for exclusions in the School Census Autumn 2019 Return only is for the Spring and Summer terms (01/01/2019 to 31/08/2019). Lunchtime exclusions are no longer collected.

More Information:
Preparing Exclusions Information on page 50

Prior Attainment
Tools | Statutory Return Tools | Update Prior Attainment
A new exemption code is now available, i.e. Functional skills level 2. Students with a pass grade in maths or English Functional skills level 2 can be recorded in the School Census Autumn 2019 onwards as an exemption (i.e. code F - Functional skills L2 in the Maths or English GCSE funding exemption).
The highest grades for maths and English for the previous year (2018/2019) are included in the Autumn census.
Schools can now make corrections to the highest grades for the previous academic year and re-submit in the Autumn census.

Setting SIMS Permissions
The following permissions are applicable to users who deal with returns.

Running the Return
To run the return, you must be a member of one of the following user groups in System Manager:
- Returns Manager
- Returns Operator.
Editing and Preparing Data

Users who edit and prepare data must have permissions to access additional areas of SIMS, e.g. student details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see Where to find More Information about Permissions on page 3).

Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS) to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via Tools | Setups | Import Fileset), you must be a member of one of the following user groups in System Manager:
- Returns Manager
- System Manager.

Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the Managing SIMS Users, Groups and Databases handbook.

What Version of SIMS is Required?

To run the return, you must have the SIMS 2019 Summer Release (7.188) or later installed.

To check which version of SIMS is installed, open SIMS and then select Help | About SIMS. A dialog similar to the one shown in the following graphic is displayed. The version should read 7.188 or later.

Importing Revised Filesets for Validation and Reports

Applicable to the Personnel Officer, Returns Manager and System Manager

The Validation Errors Summary and the Summary report are derived from files supplied by the Statutory Body. In addition, SIMS provides detail reports to enable the checking of data used to generate the return. These report files are initially installed automatically during the SIMS release upgrade.
Occasionally, additions or corrections are made to these files, after a SIMS release, which are required for the forthcoming return. The Import Fileset functionality is provided to enable these files to be imported into SIMS (between releases) by the Personnel Officer, Returns Manager or System Manager.

**TIP:** To check which version of the fileset is currently in use, select *Routines | Statutory Returns | School Census* to display the *Census Return* browser. The *Validation Fileset ID* is displayed in the browser header.

**Before Importing the Revised Files**

To enable the file(s) to be imported successfully, ensure that the DMS is configured correctly. This is achieved via *Tools | Setups | Document Management Server*. Click the *Test server connection* button to check if the specified DMS is available for use and functioning correctly.

If the connection is unsuccessful, check the following details:

- The *Protocol* field defaults to *http* and should not be edited.
- The *Computer name* should be the name/number of the PC on which the DMS is installed.
- The *Port* number is usually 8080. The number must be between 0 and 65535.
- The *Active* check box must be selected, indicating that the server is in use.

Click the *Test server connection* button again. If the DMS is now working correctly, click the *Save* button.

**Additional Resources:**

*Setting up and Administering SIMS* handbook

**Importing the Revised Files**

1. In SIMS, select *Tools | Setups | Import Fileset* to display the *Import Fileset* page, where the current fileset number is displayed.

2. Click the *Browse* button to display the *Open* dialog.

3. Navigate to the location of the downloaded fileset. The file name is made up of the following data fields: `<Fileset Number>-StatutoryReturns-<Term and Year>_Fileset.mfs`.

4  |  *Preparing for the School Census Autumn 2019 Return guide (English Secondary phase schools), applicable to 7.188 onwards*
4. Highlight the file then click the Open button. Alternatively, double-click the required MFS file to return to the Import Fileset page.

NOTE: The following graphics show example data only.

Details of the selected fileset are displayed, including the version Number of the fileset, the Release Date and the fileset description (Title).

5. Click the Import Fileset button to import the fileset into the DMS. When the import process is finished, Import successful is displayed at the bottom left-hand side of the Fileset panel and you are advised to restart SIMS. This ensures that the newly imported data will take effect.

6. Click the OK button, then restart SIMS.

7. Run the return in the usual way.

Completed
School Census Return Process Flow

The following provides a brief outline of the steps involved in producing the School Census Autumn 2019 Return. If data has been regularly and accurately maintained, many of the activities in this document are unnecessary. However, it is advisable to check to ensure that the information is up-to-date.

1. Upgrade to the SIMS 2019 Summer Release (7.188) or later.
2. Carry out one or more dry runs to identify any errors that may exist in your data.
3. Ensure that the relevant student and school data exists in SIMS and that it is complete and correct. Use the Bulk Update routine (Routines | Student | Bulk Update) to add missing or correct invalid data, if required.
4. Complete the information on the Census Return Details page.
5. Create and validate the return.
6. Resolve any validation errors/queries and then create and validate the return again.
   Continue to resolve the validation failures then repeat the Create and Validate routine until you are satisfied that the content of the return is correct.
   The detail reports and Summary report can be generated to assess the accuracy and completeness of the return.
7. Provide the Head Teacher with the latest copy of the Summary report to enable them to check that all information is correct before they give approval for authorisation of the return.
   The Summary report can be used in conjunction with the detail reports.
8. Once approval has been given, authorise the return (Routines | Statutory Returns | School Census – Authorise button).
9. Upload the return to the DfE COLLECT data collection website or submit it to your Local Authority, as applicable.
Carrying out a Dry Run

Why Carry out a Dry Run?

When you have upgraded to the SIMS 2019 Summer Release (7.188), you can carry out one or more dry runs of the return. The purpose of a dry run is to produce the Validation Errors Summary, which provides details about any corrections that need to be made to your data to make it acceptable for inclusion in the return. To ensure that you are aware of potential issues, it is advisable to do this as early as possible, even if you know that your data has not yet been fully prepared or checked.

Whilst a significant number of errors may be generated, many of the errors that relate to students, e.g. language, can be fixed quickly using the Bulk Update routine (please see Updating Information Using the Bulk Update Routine on page 20).

The Dry Run Process

1. Select Routines | Statutory Returns | School Census to display the Census Return for Autumn Term browser.

![Census Return for Autumn 2019 Term](image)

2. Select an existing School Census Folder or enter a new location in which the School Census files will be stored. You may wish to make this a temporary folder for the purposes of producing a dry run.

**IMPORTANT NOTE**: Due to the sensitive nature of some of the data stored in SIMS, careful consideration should be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc. You should be mindful of your school’s responsibilities with respect to information security.

Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information ([https://www.gov.uk/service-manual/technology/securing-your-information](https://www.gov.uk/service-manual/technology/securing-your-information)). If you are in any doubt, you should consult with your IT Security Officer before proceeding.
3. Click the **New** button to display the **Census Return Details** page.

4. By default, the return **Description** is displayed as **School Census Autumn 2019**. Edit the **Description** to any name that will clearly distinguish this dry run from the actual return, which will be generated later, e.g. Autumn19Test.

5. In the **Census Details** panel, click the **Calculate All Details** button to extract the required information from the SIMS database and display the results in the various panels of the **Census Return Details** page.

6. If there is any missing or invalid data, an error message is displayed on the Status Bar. This data must be added or corrected before the return can be created and validated.

7. Click the **Create & Validate** button to start the validation process. This may take some time. Any missing or invalid data is listed in the **Validation Errors Summary** panel, located at the bottom of the page.

**Additional Resources:**
Detailed information about completing the individual panels on the **Census Return Details** page is available in the *Producing the School Census Autumn 2019 Return (English Secondary/Middle deemed Secondary Schools)*.

**Resolving Validation Errors and Checking Queries**
After creating the return file and validating the data, any errors and queries found are listed in the **Validation Errors Summary** panel.
The Validation Errors Summary displays the following information:

- **Type** - the type of validation rule.
  - Failure (F displayed in red) indicates an error that must be resolved.
  - Query (Q displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.

- **Sequence** - the validation error or query number.

- **Message** - the validation error or query message text.

- **Location** - the specific record in SIMS that contains the error or query.

- **Solution** - the SIMS menu route and/or instructions about where/how the error can be corrected or the query checked.

**TIP: Using the Solution hyperlinks**

When the pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the problem can be checked.

A hyperlink is also indicated by a hash symbol (#) preceding the Solution text.

Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.

To assist in the viewing of any errors and queries:

- When the mouse pointer is hovered over a Message, Location or Solution cell, hover help displays the entire content of that cell.

- The Student Search functionality can be used to display all errors and queries relating to a particular student. Enter all or part of a UPN, student's surname or date of birth in the Student Search field then select the required record from the Student Search drop-down list to populate the Student Search field. Click the Find button to display the applicable validation records.

- Use the Errors Search to display the required error or query you want to view. Select ALL, ERRORS, QUERIES or the required number from the drop-down list. The total number of rows that relate to the selected validation is displayed adjacent to the Error Search field.

- By default, when ALL is selected from the Errors Search drop-down list, the errors are displayed at the top of the list.

  The order of the items in the list can be changed by clicking the appropriate column heading.

  The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures by clicking the Report button (located at the left-hand side and directly above the Validation Errors Summary panel). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required.
Carrying out a Dry Run

The report (Validation Errors Summary.HTML) is saved automatically in the Census Folder, which was specified previously in the census browser. The original report, which was generated when the Create & Validate button was clicked (e.g. <LACode><SchoolNumber>_ <SurveyType>_ <LACode><LL><Year>_ <SerialNumber>_ ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the Close button located at the top right-hand side of the Validation Errors Summary panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via Routines | Student | Bulk Update). For more information, please refer to the Managing Pupil/Students handbook.

In addition to the Validation Errors Summary, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

Producing Detail Reports

Detail Reports can be used to check the data stored in SIMS that has been used to create the return. The reports can be produced as soon as the return has been validated.

The following reports are currently available:

- On Roll Basic Details Report
- Leavers Basic Details Report
- Exclusions Report
- Attendance Report (1st half term)
- Attendance Report (2nd half term)
- Absentees Report
- SEN Report
- Address Detail Report
- Free School Meal Eligibility Report
- On Roll Learning Aims Report
- Leavers Learning Aims Report
- Learning Aims by Status Report
Post-16 Programmes of Study Report
Prior Attainment Report
Top-up Funding Report
Post Looked After Arrangements Report.

To select a single detail report:
Select the required report from the **Detail Report** drop-down list, located at the top of the **Census Return Details** page. The selected report is generated automatically and displayed in your web browser.

To select multiple detail reports:
1. **Select Multiple Reports** from the bottom of the **Detail Report** drop-down list to display the **Detail Reports** dialog. By default, all detail reports are selected.
Carrying out a Dry Run

2. If any reports are not required, deselect the associated check boxes.
3. Click the Report button to generate the selected reports, which are displayed in your web browser.

The reports are saved automatically in the folder specified in the Census Return for Autumn Term browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

**TIP:** If required, the report can be transferred to a spreadsheet application, which enables the data to be sorted and the column order to be changed, etc. In your web browser, right-click the report then select the required option, e.g. Export to Microsoft Excel, from the drop-down list.

Checking Establishment Details

The following establishment details are required for the return and therefore need to be checked to ensure that they are recorded correctly in SIMS:

- **Unique Reference Number** (URN)
- **School Type**
- **School Governance**
- **Intake Type**.

The following read-only items are also collected. Please contact your Local Support Unit if the information displayed in SIMS is incorrect.

- **School Name**
- **LA number**
- **Establishment Number**
- **School Phase**
- **Curriculum Years** (highest and lowest national curriculum year group).

![School Establishment Details Diagram]
1. Select **Focus | School | School Details** to display the **School Details** page.
2. Check that the details displayed in the **Establishment** panel are correct.
3. Ensure that the **School Type**, **School Governance** and **Intake Type** are displayed correctly. Select the correct value from the drop-down lists, if required.

   **NOTE:** The **School Name**, **LA number**, **Establishment Number** and **School Phase** were set up when SIMS was installed. If these details are incorrect, please contact your Local Support Unit for assistance.

4. Ensure that the establishment’s six digit **Unique Reference Number** (URN) is entered. The number is available via the Get information about schools website (https://get-information-schools.service.gov.uk/), which is a register of schools and colleges in England.
5. If you have edited any information in the **Establishment** panel, click the **Save** button.

---

**Information for Academies**

Academies should also ensure that the following information is recorded, if applicable:

- The **School Type** and **School Governance**.
  Select **Academies** from the applicable drop-down lists.

- The **Previous Name** and **Date Name Changed**.

- The **Previous Estab Number** and **Earliest DOA** (date of admission).
  This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected and the earliest date of admission is reported in the School Census.

- The **Previous URN Number** (used by other census returns) and **Date Number Changed**.
  This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment’s URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.
Checking School Telephone and Email Information

The following school contact details are collected for the return and therefore need to be checked to ensure that they are up-to-date and correctly recorded in SIMS:

- School Email Address
- School Telephone Number.

1. Select Focus | School | School Details to display the School Details page.
2. Click the Contact Details hyperlink to display the Contact Details panel.

![Contact Details](image)

3. Ensure that a Telephone number has been recorded (including the STD code).
4. Ensure that the school’s official communications Email address has been recorded correctly (it must include the @ character together with a minimum of one full stop).
   The email address must be the account used on a regular basis. It must also be accessible to the Head Teacher as it might be used for future DfE correspondence.
5. Click the Save button, if changes have been made.

Checking Student Details

Before starting the School Census return, check that all on-roll students are recorded in SIMS and that as far as possible the information is up-to-date and accurate. Ensure that:

- new students records have been added (for more information, please refer to the Recording a New Pupil/Student section in the Managing Pupil/Student handbook).
- any leavers have been recorded as such (please see Recording Leavers and Re-Admissions on page 23).

NOTE: Ensure that a student’s first language and boarder status are entered before they are recorded as a leaver.

- any duplicate student records have been deleted (please see Deleting Student Records Entered in Error on page 27).
- part-time details have been checked/updated.
- student details have been updated where required.
Preparing Student Level Information

The following sections in this guide provide additional information and specific instructions on checking and editing student level data. Some of this data can be checked/updated using the Bulk Update routine (please see Updating Information Using the Bulk Update Routine on page 20).

When you have upgraded to the SIMS 2019 Summer Release (7.188), you are strongly advised to carry out one or more dry runs to identify any validation errors and queries that must be resolved before the return is submitted (please see Why Carry out a Dry Run? on page 9).

Updating Information Using the Bulk Update Routine

To prevent validation errors from occurring, it is advisable to check your SIMS data for accuracy before the return is created and validated.

Many items can be checked using the Bulk Update routine. This functionality enables you to search for missing or invalid data, then update in bulk. For example, it is possible to search for all students who do not have a First Language recorded against their name. From the students found, a value can be assigned to all or several students. This prevents the need to enter/change values manually for individual students.

1. Select Routines | Student | Bulk Update to display the Bulk update Student browser.

2. In the Bulk Update panel, select the required Group Type and Group from the drop-down lists.

The Group Type indicates the type of group to list while the Group enables the specific group of students to be listed. For example, selecting a Group Type of Year Group enables a specific year to be selected from the Group drop-down list, such as Year 8.

If searching for missing information, select the particular data field from the Group Type drop-down list, such as First Language, and then select a specific Group, such as <NONE>.

It is also possible to use this functionality to review the data entered for all the students in the school. This is achieved by selecting Year Group from the Group Type drop-down list and <ANY> from the Group drop-down list and then selecting the required Data Item.

The following table provides some examples of the searches that can be carried out to identify missing data.
Preparing Student Level Information

<table>
<thead>
<tr>
<th>Group Type</th>

<tr>
<td>Year Group</td>
<td>Year 8 (and above)</td>
<td>Boarder Status</td>
<td>Searches for all students in Year Group 8 and then displays the boarder status recorded against each student’s name.</td>
</tr>
</tbody>
</table>

3. Select the required **Data Item** from the drop-down list, e.g. **First Language**.

4. The **Effective Date** is the date on which the membership of the group is based and defaults to today’s date. In most circumstances, it is advisable to change this date to the start of the academic year because most data recorded is applicable from the start of the academic year.

5. Click the **Search** button to display the **Members** panel, which displays a list of students matching the chosen criteria and the choice of **First Language** types.
Bulk Updating Data with the Same Data Item then Editing the Exceptions

Often, the most effective way of populating missing data is to fill all the rows with the same data item and then edit the exceptions (for example, depending on the ethnic range within your school).

The following example illustrates how to set the ethnicity of all students as English, then edit the exceptions.

1. Right-click the English data entry column header (hover over the heading to see the full title, if required), then select Check All from the pop-up menu.

   ![Check All Menu](image)

   All the cells within that column are populated with ticks.

2. Edit the exceptions by clicking in the cell associated with the individual student and their status, e.g. the first language of Cameron Able is Estonian.

   ![Cell Edits](image)

3. Once you have made all the required changes, click the Save button to bulk update the records.
Bulk Updating Data for a Selection of Students

There are two methods for selecting a number of students.

**Entering a Value for a Selection of Students**

1. Highlight the first student you want to select, then hold down the Ctrl key and highlight the other required students.
2. Release the Ctrl key and then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

**Entering a Value for Sequentially Listed Students**

This method can be used for assigning a value to a group of sequentially listed students. For example, clicking the Assigned column heading displays all unassigned student at the top of the list.

1. Highlight the first student in the group, hold down the Shift key and then click the last student in the group (alternatively, hold down the Shift key and press the Down Arrow key).
2. Release the Shift key, then click one of the highlighted cells in the required data item column.

A tick indicates that the student has been assigned that value.

**Recording Leavers and Re-Admissions**

Ensure that all your leavers are taken off-roll and any returning students are re-admitted.

The accuracy of student numbers can be checked by running the Population Analysis (Dated) report (Reports | Run Report – Focus – Student). This is a predefined report that gives a breakdown of the number of students (including numbers by gender) for each registration group in each year, together with a grand total.

**Recording a Leaver**

The Date of Leaving is collected for all schools with the exception of Nursery schools.

1. Select Routines | Student | Leavers to display the Find Student(s) browser.

2. Ensure that the Status of On Roll is selected.
3. Click the **Search** button to display a list of all on-roll students.

4. Highlight the students you wish to record as leavers, then click the **Select** button. The selected students are displayed in the **Students** panel.

5. In the **Leaving Information** panel, enter the **Date of Leaving** or click the **Calendar** button and select the required date. The date of leaving should be the date that the student is actually leaving the school, unless they are transferring from Junior/Primary phase to Secondary phase because Local Authorities normally specify the dates to be used for school transfers so that they match. If you are in any doubt, please contact your Local Authority for advice.

**IMPORTANT NOTE:** It is recommended that Year 11 students are not given a **Date of Leaving** until it is confirmed that they will actually be leaving the school at the end of the Summer term and are not returning to Year 12.

For students who stay on for Year 12, without a gap in learning from Year 11, the DfE expects their **Date of Admission** to be the same as it was when the student was in Year 11. It is also expected that no date of leaving was recorded for the end of Year 11.

6. Select the **Reason for Leaving** from the drop-down list, e.g. **Elective Home Education**, then either:
   - highlight the students to whom this information applies (for multiple selection, use the **Ctrl** or **Shift** functionality) and then click the **Assign to Selected** button; or
   - if the information applies to all the students in the list, click the **Assign to All** button.
7. Enter the **Destination after Leaving**, if known, then use the **Assign to All** or **Assign to Selected** options, as required.

8. Specify the **Destination Institution**, if known.
   a. Click the **Browse** button (adjacent to the **Destination Institution** field) to display the **School Browse** dialog.
   b. **Search** for, then select the relevant institution. Alternatively, click the **New** button to add a new institution.
   c. Click the **OK** button(s) to return to the **Leaving Information** panel.
   d. Use the **Assign to All** or **Assign to Selected** options, as required.

9. Enter the **Destination Expected Start Date** (or select the relevant date from the Calendar), then use the **Assign to All** or **Assign to Selected** options, as required.

10. If the student is a child deemed missing in education, select the **Grounds for Removal** from the drop-down list, e.g. **E - Distance**, then use the **Assign to All** or **Assign to Selected** options, as applicable.

    **IMPORTANT NOTE:** To comply with the Children Missing in Education legislation, schools are required to record this information for all students on leaving the school.

11. Select the **Learning Aim Withdrawal Reason** from the drop-down list, e.g. **Personal**, (applicable to Secondary, All-Through and Pupil Referral Units only).
    The reason for withdrawing from a Learning Aim is collected in the Autumn Return for any Learning Aim with the status of **Withdrawn**.

12. Click the **Assign to All** button or **Assign to Selected** button, as applicable.

13. Click the **Save** button.

    **TIPS:** To remove a student from the **Students** list, highlight their record, then click the **Remove** button.
    To correct details enter in error, highlight the applicable student, then click the **Clear** button. This remove the details drawn from the **Leaving Information** panel for the selected student only. Re-enter the information as required.
    The **Learning Aim Reason** column remains populated after clicking the **Clear** button. However, the data is updated automatically if a different reason is selected and assigned.
Re-Admitting a Student

Any student who leaves the school and subsequently decides to return must be re-admitted.

**NOTES:** Do not remove the leaving date, as the student’s period of absence from the school will not be recorded.

However, if a student is intending to leave but subsequently changes their mind and decides not to leave, the date of leaving can be removed, as continuous attendance has been maintained.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Click the **New** button to display the **Add Student** page. It is necessary to enter limited information here as you know that the person already exists.
3. Click the **Continue** button to display a list of **Matched People**, based on the criteria entered on the **Add Student** page.
4. Highlight the required student, then click the **Open** button. The following warning message is displayed:
   **The selected student is a leaver. Do you want to re-admit the student?**
5. Click the **Yes** button if you are certain that this is the student who should be re-admitted. Their details are displayed on the **Student Details** page.
6. Complete the mandatory fields (**Date of birth**, **Gender**, **Year Group**, **Enrolment Status**, **Year Taught In** and **Admission Date**) and check any other details that may have changed since they were last on-roll, such as their address.
7. Check that the original **UPN** is displayed.
   If it did not previously exist, generate a new **UPN** by clicking the button adjacent to the **UPN** field to display the **Issue UPN** dialog.
   Select either the **Issue Permanent** or **Issue Temporary UPN** radio button, then click the **OK** button to return to the **Registration** panel.
   The temporary/permanent UPN is issued on save.
8. Click the **Save** button to re-admit the student.

**NOTE:** If the student’s registration status has changed from when they were previously on-roll, their enrolment status should be changed via **Routines | Student | Change Enrolment Status**.
Deleting Student Records Entered in Error

If there are student records that have been entered in error (such as those resulting in duplicates), ensure that the record is deleted, so that it is not included in the return. This is achieved via Routines | Student | Delete Student.

After selecting the required student, you have the opportunity to review and print their details before deciding to delete their record permanently.

**WARNING:** The deletion is irreversible; therefore a student’s record must only be deleted if they have been entered in error.

Checking National Curriculum Year Groups

The National Curriculum Year Group (Year Taught In) is the year group in which the student is taught for the majority of the time, regardless of their chronological age. In most cases, this will be the same as the Year Group. However, some children are taught in the year above or below the expected year (based on their age), perhaps because they are academically advanced or behind. It is very important that the correct Year Taught In has been recorded in SIMS.

For the School Census Autumn 2019 Return, the collection data uses the Age at Date as at 31/08/2018 for attendance data and 31/8/2019 for all other data.

The following table shows the Curriculum Year that students in England are expected to be taught in (Year Taught In), according to their date of birth (during the academic year 2019/2020). This table is provided for reference only.

#### Checking the Student’s Year Taught In Record

**Year Taught In** is mandatory information in SIMS.

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for, then double-click the name of the required student to display the Student Details page.
3. In the Registration panel, ensure that the Year Taught In field displays the actual National Curriculum year in which the student is taught the majority of the time. Select a different year from the drop-down list, if required.

![Registration Panel](image)

**NOTE:** Any change made in the Registration panel is effective from today’s date. If the Year Taught In change was applicable from an earlier date, click the History button and apply the change from the actual date the change is required.

**Checking the Year Taught In via the Pastoral Structure by Curriculum Year**

1. Select Focus | School | Pastoral Structure | Current Structure to display the Current Academic Year Pastoral Structure page.

2. Click the Go button.

![Pastoral Structure](image)

3. Expand the National Curriculum Year Taught In folder by clicking the + icon or double-clicking the folder name. The curriculum years are displayed.

![Curriculum Years](image)
4. Right-click the required curriculum year folder and then select **Members** from the pop-up menu.

The **Allocate Students/Applicants** dialog is displayed.

5. Ensure that the **Effective Date Range** is changed to **Over the whole academic year** by selecting the radio button.

By default, the records are displayed in alphabetical surname order. To sort the student names in date of birth order, right-click the **DOB** column heading then select **Sort By** from the pop-up menu.
The following graphic shows that one **Year 10** student is taught in Year **11**.

7. Ensure that all students are allocated membership to the correct **National Curriculum Year Taught In** and then click the **OK** button to return to the **Current Academic Year Pastoral Structure** page.
8. Repeat for the other curriculum years, where applicable.
9. Click **Save** button.

**Checking the Year Taught In via the Pastoral Structure for the Whole School**

1. Select **Focus | School | Pastoral Structure | Current Structure** to display the **Current Academic Year Pastoral Structure** page.

![Allocate Students/Applicants dialog](image)

The Allocate Students/Applicants dialog is displayed.

4. Ensure that the Effective Date Range is changed to Over the whole academic year by selecting the radio button.

By default, the records are displayed in alphabetical surname order. Sorting the names in year group order assists in locating students who do not have a Year Taught In selected.
5. Right-click the **Year Group** heading then select **Sort By** from the pop-up menu. Any students who have not been allocated a year taught in are displayed at the top of the list.

![Allocate Students/Applicants](image)

6. Indicate which year the students with missing years are taught in by clicking the applicable cell in the grid.

7. Make any required changes for the other students.

8. Click the **OK** button then click the **Save** button.

**Checking a Student’s Basic Details**

Ensure that basic details for all students are up-to-date and correct. It may be necessary to make changes for a number of reasons, e.g. to correct inaccurately entered information, legal adoption, change of legal surname, etc.

The following information is collected in the return:

- **Legal Forename** (mandatory information in SIMS)
- **Middle Names**
- **Legal Surname** (mandatory information in SIMS)
- **Former Surname**
- **Preferred Surname** (mandatory information in SIMS)
- **Gender** (mandatory information in SIMS)
- **Date of Birth** (mandatory information in SIMS).
1. Select **Focus | Student | Student Details** to display the **Find Student** browser.

3. Check that all the details displayed in the **Basic Details** panel are up-to-date and correct, paying particular attention to the data collected in the return (listed previously).

   If a legal change (rather than a correction) is made to the **Legal Forename**, **Middle Name(s)** or **Legal Surname**, a **Reason** and **Date of Change** must be recorded. A **List of Previous Names** can be viewed/edited via the **History** button.

4. If you want to prevent the selected student's data from being deleted by the Bulk Delete Student Data process, select the **Protect from Bulk Data Deletion** check box.

5. If you have made any changes, click the **Save** button.

**More Information:**

*Recording a Student’s Change of Surname* on page 34

**Recording a Student’s Change of Surname**

It is a requirement of the return that a history of students’ previous surname(s) is recorded.

1. In the **Basic Details** panel, edit the student’s **Legal Surname**.

2. Click the **Save** button. The following message is displayed:

   *Is this a correction to the name or a legal change to the student’s name? If it is a legal change, please select Yes.*
3. Click the **Yes** button to display the **Reason For Change** dialog.

4. Select the applicable **Reason** for change from the drop-down list. This entry is optional but is recommended to maintain a complete history of name changes.

Unique Learner Number

Part-Time Details.

Checking Enrolment Status, Admission Date and Boarder Status

The following information is collected in the return and should therefore be checked and corrected if necessary:

Enrolment Status (mandatory information in SIMS)

NOTE: SIMS uses the information in the enrolment status change log to determine enrolment on census day.

Editing of Enrolment Status must be carried out via Routines | Student | Change Enrolment Status. PRUs can select FE College and Other Provider, in addition to the Enrolments Statuses available to non-PRU establishments.

Admission Date (mandatory information in SIMS)

Boarder Status.

1. Select Focus | Student | Student Details to display the Find Student browser.

2. Search for, then double-click the name of the required student to display the Student Details page.

3. In the Registration panel, check the student’s Enrolment Status. A history of the Enrolment Status Changes can be viewed by clicking the adjacent Search button. SIMS uses the information in the enrolment status change log to determine enrolment on census day.

To change a student’s Enrolment Status, select Routines | Student | Change Enrolment Status (please see Changing an Enrolment Status on page 37).
4. Ensure that the Admission Date is correct. Edit the date or click the Calendar button and select a different date, if required.
5. Check the Boarder Status. Select the correct boarder status from the drop-down list, if required.
6. Click the Save button.

Changing an Enrolment Status

A student Enrolment Status defaults to Single Registration but can be changed via the Routines menu, if required.

The following enrolment statuses are available:

- **Single Registration** - this status represents a normal, full-time student who is only registered as on-roll at your school.
- **Guest Pupil** - this status represents a student who is on-roll at another school, but attends your school for certain lessons. There is no need to register them as on-roll at your school.
- **Main-Dual Registration** - this status indicates that the student is registered at another school for some of their timetable, but the majority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.
- **Subsidiary-Dual Registration** - this status indicates that the student is registered at another school for the majority of their timetable and only a minority of their time is spent at your school. This status carries legal and financial implications and should only be used after agreement with the other school involved.
- **FE College** (applicable to Pupil Referral Units in England only) - this status indicates that the student is registered at an Further Education College and only a minority of their time is spent at your school.
- **Other Provider** (applicable to Pupil Referral Units in England only) - this status indicates that the student is registered at another provider and only a minority of their time is spent at your school.

**NOTE:** SIMS uses the information in the enrolment status change log to determine enrolment on census day.

1. Select Routines | Student | Change Enrolment Status to display the Find Student browser.
2. Search for, then double-click the name of the required student to display the Change Enrolment Status page.

**NOTE:** The student’s basic details are displayed for information only. Edits to basic details can be made via Focus | Student | Basic Details.
3. In the Registration panel, select the applicable Enrolment Status from the drop-down list.

![Registration panel screenshot]

If the student’s enrolment status has been changed before, a history of the Enrolment Status Changes can be viewed by clicking the adjacent Search button.

4. The Student Date of Change defaults to today’s date but can be edited by selecting the required date from the adjacent Calendar. This date is for information only and does not impact any other part of SIMS.

5. Enter any associated Notes.

6. Click the Save button. A confirmation message is displayed.

**WARNING:** The details of the confirmation message is different depending on the change of enrolment status. For example:

- If the enrolment status is changed to **Guest student**, all previously recorded session attendance marks are deleted.

- If the enrolment status change has taken place during the academic year, the applicable attendance marks might need to be corrected. In some circumstances a new admission number is allocated to the student if you confirm the enrolment status change.

7. Click the Yes button if you want to continue.

---

**Checking Unique Pupil Numbers**

The following information is collected in the return:

- **UPN**
- **Former UPN** (this is a read-only field, which is automatically populated if the UPN is changed).

Ensure that all students have a UPN recorded and that all UPNs are in the correct format. A temporary UPN is acceptable in some circumstances.

1. Select **Focus | Student | Student Details** to display the Find Student browser.

2. Search for, then double-click the name of the required student to display the Student Details page.
3. Navigate to the **Registration** panel.

![Registration Panel](image)

UPNs should be entered in the **UPN** field. Ensure that the format is valid (the field will turn red if invalid).

- **Permanent UPNs** are issued to a new student only when it is believed that they have never previously been allocated a UPN or to replace a temporary UPN.
- **Temporary UPNs** are issued to a student when the permanent UPN is not known to the school, e.g. awaiting transfer file/applicant’s information. A temporary UPN can be recognised by the letter after the UPN number, e.g. H82020010701A.

4. If necessary, issue a new UPN by clicking the **Generate UPN** button adjacent to the **UPN** field to display the **Issue UPN** dialog.

![Generate UPN button](image)

5. Select either the **Issue Permanent UPN** or **Issue Temporary UPN** radio button.

6. Click the **OK** button to return to the **Registration** panel.

   The UPN is generated automatically when the record is saved and the previous UPN is displayed in the **Former UPN** field, if applicable.

7. Click the **Save** button.
NOTE: A student who is adopted after being allocated a UPN is often issued with a new permanent UPN. However, the exact process may vary depending on the circumstances and the guidance issued by your LA/DfE. For information about issuing a new UPN for an adopted child, please seek advice from your LA, if applicable.

DfE guidance is also available on the GOV.UK website (https://www.gov.uk/government/publications/unique-pupil-numbers).

Checking Unique Learner Numbers

Applicable to Secondary/middle deemed Secondary, All-Through (Secondary phase) and Pupil Referral Units (Secondary phase)

A Unique Learner Number (ULN) is a 10-digit identifier that is retained and stays with the student’s learning record throughout their lives. Currently, this applies to students over the age of 14 involved in UK education or training.

Learning Records Service (previously known as the Managing Information Across Partners Programme) issues and maintains a ULN record for applicable students. ULNs can be obtained in one or more of the following ways:

- The DfE ULN service to upload a CTF file via a web page on the S2S website (http://www.education.gov.uk/researchandstatistics/datatdatam/s2s/a0064650/school-to-school-s2s).
- The Learner Registration Service Web Portal to obtain individual ULNs (https://www.gov.uk/government/collections/learning-records-service).
- The Key to Success website (https://www.keytosuccess.education.gov.uk/).

If available, enter a ULN for each student over the age of 14.

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for, then double-click the name of the required student to display the Student Details page.
3. In the Registration panel, check the content of the Unique Learner Number field. Enter the 10-digit identifier, if not currently displayed.

**NOTE:** The UCI (Unique Candidate Identifier) and Exam Number information is read only. The fields are populated with data held in Examinations Organiser.

4. Click the Save button to save any changes, if applicable.

### Checking Student’s Part-Time Details

Part-time details apply mostly to Nursery schools (or schools with nursery age children) and Primary schools with Reception years. However, any student can be marked as part-time if their attendance is anything less than 10 sessions per week.

For dual registered students, time in other schools should be taken into account. For example, three full days in one school and two full days in another school should not be classified by either school as part-time.

1. Select Focus | Student | Student Details to display the Find Student browser.
2. Search for, then double-click the name of the required student to display the Student Details page.
3. Navigate to the Registration panel.

4. Check the details displayed in the Part Time Details section. A minimum of a Start Date must be displayed for each record.
Preparing Student Level Information

5. Part-time details can be added by clicking the **New** button to display the **Add Part-time Attendance** dialog.

![Add Part-time Attendance](image)

6. Enter a minimum of the **Start Date** then click the **OK** button to return to the **Registration** panel.

7. Click the **Save** button.

**IMPORTANT NOTE:** It is equally important to edit the details of any students who are no longer part-time. This is achieved by highlighting the student’s **Part Time Details** record then clicking the **Open** button to display the **Add Part-time Attendance** dialog. Enter the correct **End Date** then click the **OK** button to return to the **Registration** panel.

Checking Home Address Information

A student’s current home address is required for the return. Where a student has multiple current addresses, details of all addresses should be recorded.

All aspects of the address are collected and therefore all address details should be recorded to avoid validation errors. It is particularly important to check that a **House Name** or **House Number** and a **Post Code** are entered in the correct fields.

Post codes must be entered in the correct format. A validation error is generated if a post code has not been entered (although it is understood that in some instances, such as Traveller children, a post code is not available).

The Unique Property Reference Number (**UPRN**) is a unique identifier that links together related address records across different software programmes. This enables organisations to collate and share information based on a common reference number.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.

2. Search for, then double-click the name of the required student to display the **Student Details** page.

3. In the **Addresses** panel, check that the **Post Code** and **House Number/Name** exist and that they are valid.
These details can be checked by clicking the **Address** button to launch the selected mapping website (specified via **Tools | Setups | User Options**), where a map of the area surrounding the address is displayed.

**NOTE:** British Forces Post Office numbers can be added as post codes.

4. If the Unique Property Reference Number (UPRN) is not displayed below the **Current Home Address Details:**
   a. Click the **Validate** button to display the **Find Matching Addresses** dialog.
   b. Highlight the required address, then click the **OK** button to return to the **Addresses** panel, where the UPRN is displayed below the address.

5. If you have edited the address, click the **Save** button.

6. If the student has an additional current address, i.e. a **Second Home**, enter the additional address and then click the **Continue** button (adjacent to the address) to display the **New Address Details** panel.

7. Enter the remaining address details and the **Address Type**, then click the **Save** button to refresh the display.

**Checking Free School Meals Eligibility**

Only students who have been approved by the LA to receive a free school meal should be recorded in SIMS as being eligible. It is advisable to check that all eligible students are recorded.

The following free school meal eligibility related data is collected in for the return:

- **Start Date**
- **End Date** (if known)

The DfE does not expect free school meal (FSM) end dates to be entered by schools during the transitional period to universal credit. There are exceptions to this expectation; the DfE states:

- where a parent has been informed of the FSM protection and they have still indicated that they do not wish the child to be recorded as FSM eligible and receive a free school meal. This should not be confused with a parent’s request to end a free school meal claim with a change in their circumstances which are now protected;
- where a student transfers from another UK country – their non-English FSM must have an FSM end date;
- claimants who qualify through support under the Immigration & Asylum Act 1999 or the guarantee element of the Pension Credit, their benefit(s) will not be replaced by universal credit and therefore the student’s FSM entitlement will not be protected. They will only be entitled to a free school meal as long as they retain the benefit. In such cases where the parent has notified the school that these benefits have ended an FSM end date should be recorded.

- **UK Country** in which the eligibility applies.

**Meal Patterns** are not required for the return but can be recorded for information purposes only. It is perfectly acceptable, for example, for a student to be eligible for free school meals, but to bring sandwiches (PL (packed lunch)) or to go home (HO (home)).

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.
2. Search for, then double-click the required student to display the **Student Details** page.
3. In the **Dietary** panel, ensure the minimum of a **Start Date** and **Country** are displayed in the **Eligible for Free Meals** panel. If you need to edit the data, highlight the required record and then click the **Open** button.
Preparing Student Level Information

If a new record is required, click the adjacent **New** button to display the **Add Student Free Meals Details** dialog.

![Add Student Free Meals Details dialog](image)

4. Enter the **Start Date** (and **End Date** if available) for the free meal period, as supplied by your Local Authority.

5. Ensure that the UK **Country** in which the eligibility applies is correct. Select from the drop-down list, if required.

6. Notes can be entered, if required.

7. Click the **OK** button to return to the **Dietary** panel, where the new information is displayed.

8. Click the **Save** button.
   Ensure that this information is checked/amended on a regular basis.

**First Language**

- A First Language other than English should be recorded where a student was exposed to the language during early development and continues to be exposed to this language at home or in the community.
- If the child was exposed to more than one language (which may include English) during early development, the language other than English should be recorded, irrespective of the student’s proficiency in English.

1. Select **Focus | Student | Student Details** to display the **Find Student** browser.

2. Search for, then double-click the required student to display the **Student Details** page.
3. Navigate to the **Ethnic/Cultural** panel.

4. Select the student’s **First Language** from the drop-down list.

5. Click the **Save** button.

**TIPS:**
It is possible to bulk update **Ethnicity** and **First Language** for a selected group of students by selecting the relevant option from the **Data Item** drop-down list via **Routines** | **Student** | **Bulk Update**.

Home language is no longer collected in the School Census. Users with School Administrator permissions can remove the **Home Language** field from the **Student Details** and **Application** pages, if required. This is achieved by selecting the **Hide Home Language** check box in the **School Options** panel via **Tools** | **Setups** | **School Options**.

Home language is always included in CTF imports, CTF exports and the Reporting Dictionary, even if it is not displayed on the **Student Details** and **Application** pages.

### Checking Additional Information

Ensure that the following additional information is recorded in SIMS:

- **Youth Support Services Agreement** (YSSA) status
  
  The YSSA applies to students between age 12 and 25 with special educational needs and students between age 12 and 20 with no special educational needs.

- **Service Children in Education** information.

  The Bulk Update routine can be used to assign and edit these values for a specific selection of students at the same time, if required (please see **Updating Information Using the Bulk Update Routine** on page 20).

1. Select **Focus** | **Student** | **Student Details** to display the **Find Student** browser.

2. Search for, then double-click the required student to display the **Student Details** page.
3. Navigate to the **Additional Information** panel.

![Additional Information Panel]

**NOTE:** The *Meals* section will be removed in a future release because the meal information is now entered via the *Dietary* panel.

4. Select the applicable **Youth Support Services Agreement** (YSSA) status from the drop-down list.

5. If the student is the child of a parent(s) in the armed forces, ensure that the correct value is selected from the **Service Children in Education** drop-down list.

6. Select how the school was notified about the **Service Children in Education** information by selecting from the **Source of Service Children in Education** drop-down list.

7. Ensure that any **Service Children Concerns** are recorded. Click the adjacent **New** or **Open** button, as required.

8. Ensure that the **Pupil Premium Indicator for year 2018/2019** check box is selected, if applicable. To enter a note related to the applicable year, click the **Search** button adjacent to the **Notes** field.

Although Pupil Premium information is not collected in the return, it is important for schools that are in receipt of this funding, which is allocated to children from low-income families, to be able to give a full account of its use. The national school performance tables now include information about the progress of students in receipt of Pupil Premium and information is required to be sent to parents about how it has been used and what impact it has had on student progress.

However, those who have parental responsibility are not obliged to provide this information to the school.
1. Select **Tools | Statutory Return Tools | Update Post Looked After Arrangements** to display the **Update Students Post Looked After Arrangements** page.

Any students currently recorded as having post looked after arrangements are displayed in the **Post Looked After Arrangements** list (located in the bottom half of the page).

### Preparing Termly Attendance Information

Termly attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder students and leavers aged four to 15 inclusive on 31/08/2018, who were on-roll for at least one session during the collection period from 22/04/2019 to 31/07/2019.

The attendance data collected in this return includes:

- Attendance Codes (i.e. the reasons for absence)
- Number of Sessions Missed.
If you use SIMS Attendance or SIMS Lesson Monitor, attendance data is entered in the return automatically, provided there are no missing marks.

**IMPORTANT NOTE:** If you use SIMS Attendance or SIMS Lesson Monitor, ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the School Census Return.

If you do not use SIMS Attendance or SIMS Lesson Monitor and you do not use a software package that writes back to the SIMS database, or if you have not converted to the code of practice for attendance codes, you need to calculate and enter the following information manually on the Census Details page (via Routines | Statutory Returns | School Census):

- Possible Sessions
- Sessions Missed due to Authorised Absence
- Sessions Missed due to Unauthorised Absence.

For information and advice about school attendance, please refer to the DfE website (http://www.education.gov.uk/schools/pupilsupport/behaviour/attendance).

**Preparing Post 16 Information in Course Manager**

Applicable to schools with a Sixth Form only

Learning Aims data is collected from English maintained Secondary/middle deemed Secondary and All-Through schools, Pupil Referral Units, CTCs and Academies that have sixth form students.

The Post 16 Learning Aims are collected only once a year (in the School Census Autumn Return) for students who were/are in National Curriculum Year Group (Year Taught In) 12 or above during the period from 01/08/2018 to 03/10/2019.

**IMPORTANT NOTES:** Learning Aims are collected for students for whom the school wishes to claim Post 16 funding from the Education and Skills Funding Agency (ESFA). These students must be/have been in National Curriculum Year Group (Year Taught In) 12 or above during the previous/current academic year as stated previously.

Learners are expected to be in National Curriculum Year 12 and above if the majority of their learning is at level 3 or above.

Students in Actual National Curriculum Year Group 11 (or below) with the majority of their learning at level 2 are no longer included in the return.

It is important to ensure that the information entered in Course Manager is up-to-date and accurate before starting the return.
When creating the School Census Autumn 2019 Return, the **Learning Aims** panel is provided to deal with the Post 16 information required for the return. Detailed information about the functionality provided in this panel is available in the *Producing the School Census Autumn 2019 Return (English Secondary and Middle deemed Secondary)* handbook.

A document dedicated to the preparation of Post 16 data (*Preparing Post 16 Data for the School Census Autumn 2019 Return* guide) can be accessed from the SIMS **Documentation Centre** (via the **Documentation** button on the top right-hand side of the SIMS **Home Page**).
What Next?

After carrying out the preparation routines documented in this guide, ensure that any subsequent changes at your school (e.g. student basic detail changes, SEN provisions changes, leavers and admissions/re-admissions, etc.) are recorded accurately in SIMS.

The SIMS 2019 Summer Release (7.188) must be installed before completing the School Census Autumn 2019 Return. However, it is advisable to check whether a later version of SIMS is available and then upgrade to the current release, if necessary, as it may include updates applicable to the forthcoming return.

You should now be ready to produce the final School Census Autumn 2019 Return.
